Advertisements.

Inside Page, each insertion - - - - 75 cents a line
Back Page, each insertion - - - - $1.00 a line.

The above are charges per agate line- about eight words per line. This notice shows the width of the line, and is set in agate type. Engravings may head advertisements at the same rate per agate line, by measurement, as the letter press. Advertisements must be received at publication office as early as Thursday morning to appear in next issue.

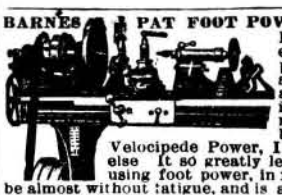
BARNES PAT FOOT POWER MACHINERY.



I feel so highly pleased with your Velocipede Foot Power with seat, that I wish to add my testimony to its superiority. I did not expect to like it, but having used the Velocipede Power, I would have nothing else. It so greatly lessens the fatigue of using foot power, in fact, it may be said to be almost without fatigue, and is a steadier motion. I only wish I had known of it sooner. Send for catalogue. W. F. & J. BARNES CO., 999 Ruby St., Rockford, Ill.

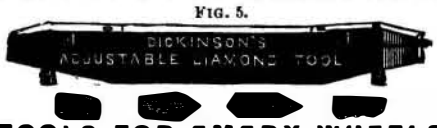
LITTLE WONDERS

FIG. 5.



TOOLS FOR EMERY WHEELS

and shaped Diamond Carbon Points, indispensable for Truing Porcelain, Hardened Steel, Chilled Iron, and Paper Calender and Copper Rolls, also for Truing Inside of Cylinders. Practical Mechanics and Paper Makers using them pronounce these Points a marvel of the age for efficiency and durability, doing that which no steel tool can do. After turning the Rolls, when inspected by a microscope, there is no perceptible wear. They are now extensively used in Rolling and Paper Mills, both in this country and in Europe. The subscriber is "*Identified*" with the "*Emery Wheel*" trade as the Pioneer maker of Diamond Tools since introducing the use of his Points and tools for the above purpose. Numerous composite wheels and new industries have been created where their "*value*" has proved incalculable. Diamond Points regound and sharpened. Carbon Tools reset and new carbons furnished for the same. Also, glaziers' diamonds manufactured and reset. Send number of tool desired to
J. DICKINSON, 64 Nassau St., N. Y.

WORKING MODELS and Experimental Work. New inventions worked out. Small machinery built in iron or brass. Working drawings made. Aug. Zaubitz, 48 Centre St., N. Y
