166

this parachute rigid guys or braces operate in several roots sawed off close at the base. The men who have not had a chance to see what conjunction with a sail or kite to extend it; and the inventor's objects are to provide means for effecting the opening of the parachute in descent; to afford facilities for folding and stowing the device, and to provide a durable and simple construction of the several parts of the parachute and its entirety.

CAPPING-MACHINE. - C. A. YOUNGMAN Louisville, Ky. The intention of the inventor is to provide a machine, arranged to press the cap or capsule snugly onto the head and neck of the receptacle, without danger of marring the cap or capsule, or scratching or removing the paint, wax, or other material with which the cap is decorated.

Railways and Their Accessories.

SWITCH MECHANISM .- F. F. YOUNG, Lowell, Ohio. The invention pertains to railway switches, and particularly to the switches of light railways such as trolley tracks. The inventor's aim is to provide means for operating the switch from the car platform so as to obviate the necessity for operating the switch by hand.

AUTOMATIC SWITCH-STAND. - E. E. STAGGS, Hachita, New Mex. An object here is to provide a switch in which the target will always indicate the true condition of the switch. This obviates a grave danger which arises from the use of switch stands of the ordinary kind since with this invention there must be a positive movement by some one who wishes the switch to be changed before the target will indicate such change. The change made, the target will be shifted to indicate the change and will be positively locked in its shifted position.

LOCOMOTIVE ASH-PAN.-J. S. DOWNING, Atlanta, Ga. The inventor's object is to provide a novel positively operating construction all photographers. This collection of formulæ for discharging ashes from the ash pan. This is one of the best that we have ever seen. It is an automatic self-cleaning ash pan having a is a book which should be in the hands of system of hoes attached to the piston rod, and a cylinder adapted to receive fluid pressure for THE ANGLER'S GUIDE. A Manual for reciprocating the hoes in the ash pans for discharging the ashes thereon.

RAIL CHAIR AND BRACE .- E. JANDREAU, Cherry Valley, N. Y. The object of the inven-tion is to provide a chair and brace, by means of which railroad rails can be securely held in place upon the cross ties, and which serve to brace the rails against lateral movement at curves and other points of the track where such bracing is necessary.

METALLIC CROSS-TIE AND RAIL-CLAMP. -H. S. KILBOURNE, Washington, D. C. An object of this invention is to provide a cross-tie of light weight but strong and durable. In carrying this out I-beams of standard sizes and shapes are used, thereby reducing cost of manufacture. The tie requires but few bolts, the main connecting member being a clamp of a peculiar form.

Pertaining to Recreation.

MOVING-PICTURE DEVICE. - W. HEN DRICK, New Haven, Conn. The object of the present invention is to provide certain improve ments in chaplets and shrines of the holy rosary, whereby actuating mechanism is employed and the endless web containing pictures properly actuated, to accurately display one of the pictures at a time and to display the several pictures in the proper order according to the intended devotional exercise.

Pertaining to Vehicles.

THILL-COUPLING .- V. B. HENBY and H. FINTEL, JR., Hardy, Neb. The main object in this case is to provide an improved means for enabling the draft eye to be detached or in-serted, while at the s : time means are provided for holding the draft eye in close contact with the coupling pin to prevent rattling of the various parts.

POLE-TIP.-J. W. DEAM, Geary, Okla. The invention relates to tips for wagon poles and the like, and more particularly such as have resiliently controlled means for securely holding a neck yoke in place on the pole. In operation, the latch cannot drop out through the slot of the casing, as the stop with its shoulders, which are transversely disposed with respect to the slot, is covered by the end of the pole.

PNEUMATIC TIRE.-P. I. VIEL, 37 Rue de Rivoli, Paris, France. This invention relates Rivoli, Paris, France. This invention relates "self-indexed, double-indexed, and cross-in-to a tire characterized by the use of a lining dexed." It begins with a classification of formed of a metal cable of wire. This packing

handle has a symmetrical curve. The words Dum Tacket Clamet are inscribed across the bowl and also large initial letters W. O. W. arranged vertically.

NOTE .- Copies of any of these patents will be furnished by Munn & Co. for ten cents each. Please state the name of the patentee, title of the invention, and date of this paper.

NEW BOOKS, ETC.

THE COMMERCIAL PRODUCTS OF INDIA. By Sir George Watt. New York: E. P. Dutton & Co., 1908. 8vo.; 1,189 pp. Price, \$5.

This work is an abridgment of "A Dictionary of the Economic Products of India," which was published in 1893-4, and which has been out of made from photographs of bungalows which print for some time. The government of India have actually been built. therefore decided that a correct and abridged edition should be brought out. The instructions provided that the work should be limited to a single volume, the arrangement of which should follow that of the dictionary and should be confined to products which are at present of prospective industrial and commercial importance. The book is a monumental work, and represents a vast amount of labor. It will prove valuable to those who are in any way identified with Indian industries.

THE PHOTOGRAPHIC MANUAL. Edited by H. Snowdon Ward. London: Daw-barn & Ward, Ltd. New York: Ten-nant & Ward. 12mo.; 287 pp. Price, paper, 50 cents; cloth, \$1, postage extra.

This is the fifth edition of an excellent English manual which incorporates the figures, facts, and formulæ of photography, and is a guide to their practical use, and is intended for every photographer.

Campers and Anglers. Price. 50 cents.

This little volume contains a description of all popular fresh-water and salt-water fish. It assaying of agricultural, mineral, and other subdescribes tackle and bait for the expert angler; it gives complete information on how, when, and where to fish, and a summary of the fish-ing resorts of the United States and Canada. The book is admirably arranged, and is very well printed. Its form is so convenient that it can be carried in the pocket. Among the features which appeal to us particularly are the views and plans of bungalows, the fishing charts, and the directions for preparing food suitable for a fishing camp. The book should be in the possession of every fisherman.

THE DIRECTORY OF DIRECTORS IN THE CITY OF NEW YORK. New York: The Audit Company, 1909. 12mo.; 860 pp. The Price, \$5.

The tenth edition of this useful work has just come from the press, and maintains the reputation of its predecessors for complete ness and reliability. 'The Directory this year contains over 32,000 directors, each director's name being followed first by the name of the firm or company with which he is directly associated, and then by all the companies in which he is a director. Select lists of corporations in banking, insurance, transportation manufacturing, and other lines of business alphabetically arranged, accompanied in each case by the names of the company's officers and directors, are to be found in the appendix, as well as a list of the principal exchanges in New York, with their officers and mana gers. This is a book which no business house dealing with a large number of companies or their stocks and desiring to know by whom their clients' interests are controlled, can afford to be without.

THE IMPLEMENT BLUE BOOK. St. Louis: Midland Publishing Company, 1909. 8vo.; 460 pp.

This is a very useful book of reference for all users of or dealers in vehicles of all kinds, agricultural machinery and implements. remarkable feature is the simplicity with which one can find any name or subject head-ing one wants, the book being described as

other shops were doing.

RADFORD'S ARTISTIC BUNGALOWS. Unique Collection of 208 Designs. Chicago and New York: The Radford Architectural Company, 1908. 4to.; pp. 221. Price, \$1.

In the last three years the number of bungaows which have been built in the United States has increased by leaps and bounds, and whole farms are being split up into lots for the erection of bungalows consisting of from two to five or more rooms. The work before us consists of a collection of wash drawings and floor plans. Plans and specifications for any

of them are furnished by the publishers at moderate rates. The illustrations are hardly as attractive as they would be if they were

THIRD REPORT OF THE WELLCOME RE-

SEARCH LABORATORIES AT THE GOR-DON MEMORIAL COLLEGE, KHARTOUM. Andrew Balfour, M.D., B.Sc., F.R. C.P. Edin., D.P.H. Camb., Director. Published for Department of Education, Sudan Government, Khartoum, by Balliere, Tindall & Cox, 8 Henri-etta Street, Covent Garden, London. Depot for U. S. A.: Toga Publishing Company, 45 Lafayette Street, New Varbeiter, 1000 ftter, 1000 fter, York city, 1908. 4to.; pp. 476.

The admirable work conducted in the Wellcome Research Laboratories is undoubtedly familiar to our readers. The laboratories were established to promote technical education in general; to further the study of tropical disorders, especially the infective diseases of both man and beast peculiar to the Sudan; to render assistance to the officers of health and to the clinics of the civil and military hospitals; to aid experimental investigations in poisoning cases by the detection and experimental determination of toxic agents, particularly the obscure potent substances employed by the natives of the Sudan; to carry out such chemical and Wainwright Randall. New York: The Field and Stream Publishing Company, 1909. 18mo.; 242 pp. of disorders and wate which study may be found desirable; to promote the study of disorders and pests which attack food and textile produce and other economic plant life in Sudan; and to undertake the testing and stances of practical interest in the industrial development of the Sudan. The two volumes of reports previously issued by the laboratories cover the period from the foundation of these laboratories in 1903 to 1906. The third report completes the record up to 1908. The work of the laboratories has been so far extended that the latest report contains some 480 pages or detailed records of many interesting experiments, and researches principally connected with tropical medicine. The volume is profusely illustrated, and includes many valuable colored plates. Simultaneously with the Third Report, and as a Supplement to it, is published a Review of the Progress made in Tropical Medicine during recent years, compiled by Dr. Balfor and Dr. R. G. Archibald.

> DICTIONARY OF CHEMICAL AND METALLURGI-CAL MACHINERY, APPLIANCES, AND MA-TERIAL MANUFACTURED OR SOLD BY ADVERTISERS IN ELECTRO-CHEMICAL AND METALLURGICAL INDUSTRY. First Edition. New York: Electro-Chemi-cal and Metallurgical Industry, 1909. 12mo.; pp. 182. Price 50 ADVERTISERS IN ELECTRO-CHEMICAL cents.

MORPHOLOGIE DE L'INSECTE. Par Charles Janet. Limoges, France: Imprimerie-Librairie Ducourtieux et LA Gout, 1909.

INDEX OF INVENTIONS For which Letters Patent of the United States were Issued for the Week Ending August 17, 1909, AND EACH BEARING THAT DATE [See note at end of list about copies of these patents.]

Legal Notices

INVENTORS are invited to communicate with Munn & Co., 361 Broadway, New York, or 625 F Street, Washington, D. C., in regard to securing valid patent protection for their in-ventions. Trade-Marks and Copyrights registered. Oesign Patents and Foreign Patents secured.

A Free Opinion as to the probable patenta-bility of an invention will be readily given to any inventor furnishing us with a model or sketch and a brief description of the device in question. All communications are strictly confidential. Our Hand-Book on Patents will be sent free on equest.

Ours is the Oldest agency for securing patents; it was established over sixty years ago.
