

I. H. C. Gasoline Engines

embody the best mechanical principles and the materials and workmanship are always right. They have the approval of all mechanics. Dependable starters, smooth running, simple, economical. They deliver their full rating of power.

STYLES AND SIZES FOR ALL USES
Vertical in 2, 3 and 25 H.P. Horizontal (Portable and Stationary) 4, 5, 8, 10, 12, 15 and 20 H.P. Air-Cooled in 1 and 2 H.P. Call on our local agents for further information or write us for catalog.

INTERNATIONAL HARVESTER CO. OF AMERICA
(Incorporated)
15 Harvester Bldg., Chicago, U. S. A.

LIPPINGCOTT WATER MOTOR
OR THIS FINE GRINDER
EACH WITH HIGH GRADE EMERY-WHEEL.
MOTOR HAS FULLY TO RUN
SEVEN HOURS. 20 LBS.
WEIGHT. PRECISION MADE.

\$100
CASH ON ORDER
WE PREPAY EXPRESS CHARGE.
WE MAKE LARGER MOTORS TO RUN PRESSERS,
LATHES, PLANING MACHINES, ETC.

VACUUM CLEANER \$2.00
MADE FOR MATERIALS ANYBODY MAY USE WITH OUR INSTRUCTIONS.
"We like to be written to."

Address **LIPPINGCOTT M. & V. CO., Newark, N. J.**

BABBITT METALS.—SIX IMPORTANT
formulas. **SCIENTIFIC AMERICAN SUPPLEMENT 1123.**
Price 10 cents. For sale by Munn & Co., Inc., and all
newsdealers. Send for catalogue.

A CLEAN, COOL, SWEET SMOKE WITHOUT INJURY

Tobacco not touched by the nicotine tar, which falls to bottom of bowl, nor saliva, which is trapped in bottom of smoke passage. Smoke leaves the stem at top of lip, hence does not draw against tongue. Our invention also makes cleaning easy and ensures a cool, clean and healthful smoke.

The Sanitary Pipe
eliminates the objectionable features of pipe smoking without sacrificing appearance or utility. Best quality briar bowls, solid rubber stem, nickel-trimmed. Sent by mail, postpaid, for a dollar bill. Moneyback if you prefer it to the pipe.
SANITARY PIPE CO.,
147 Cutler Bldg., Rochester, N. Y.
Retail dealers wanted in every city.

Concrete Reinforced Concrete —AND— Concrete Building Blocks

Scientific American Supplement 1543 contains an article on Concrete, by Brysson Cunningham. The article clearly describes the proper composition and mixture of concrete and gives results of elaborate tests.

Scientific American Supplement 1538 gives the proportion of gravel and sand to be used in concrete.

Scientific American Supplements 1567, 1568, 1569, 1570, and 1571 contain an elaborate discussion by Lieut. Henry J. Jones of the various systems of reinforcing concrete, concrete construction, and their applications. These articles constitute a splendid text book on the subject of reinforced concrete. Nothing better has been published.

Scientific American Supplement 997 contains an article by Spencer Newberry in which practical notes on the proper preparation of concrete are given.

Scientific American Supplements 1568 and 1569 present a helpful account of the making of concrete blocks by Spencer Newberry.

Scientific American Supplement 1534 gives a critical review of the engineering value of reinforced concrete.

Scientific American Supplements 1547 and 1548 give a resume in which the various systems of reinforced concrete construction are discussed and illustrated.

Scientific American Supplement 1564 contains an article by Lewis A. Hicks, in which the merits and defects of reinforced concrete are analyzed.

Scientific American Supplement 1551 contains the principles of reinforced concrete with some practical illustrations by Walter Loring Webb.

Scientific American Supplement 1573 contains an article by Louis H. Gibson on the principles of success in concrete block manufacture, illustrated.

Scientific American Supplement 1574 discusses steel for reinforced concrete.

Scientific American Supplements 1575, 1576, and 1577 contain a paper by Philip L. Wormley, Jr., on cement mortar and concrete, their preparation and use for farm purposes. The paper exhaustively discusses the making of mortar and concrete, depositing of concrete, facing concrete, wood forms, concrete sidewalks, details of construction of reinforced concrete posts.

Each number of the Supplement costs 10 cents.
A set of papers containing all the articles above mentioned will be mailed for \$1.80.

Legal Notices

PATENTS

INVENTORS are invited to communicate with **Munn & Co., 361 Broadway, New York, or 625 F Street, Washington, D. C.,** in regard to securing valid patent protection for their inventions. **Trade-Marks and Copyrights** registered. **Design Patents and Foreign Patents** secured.

A **Free Opinion** as to the probable patentability of an invention will be readily given to any inventor furnishing us with a model or sketch and a brief description of the device in question. All communications are strictly confidential. Our **Hand-Book** on Patents will be sent free on request.

Ours is the **Oldest** agency for securing patents; it was established over sixty years ago.

MUNN & CO., 361 Broadway, New York
Branch Office, 625 F St., Washington, D. C.

INDEX OF INVENTIONS

For which Letters Patent of the

United States were Issued

for the Week Ending

September 7, 1909,

AND EACH BEARING THAT DATE

[See note at end of list about copies of these patents.]

| | |
|---|---------|
| Acetone, manufacture of, Pages & Duchemin | 933,107 |
| Adding and number-listing machine, B. Hoskins | 933,453 |
| Adjustable frame, A. Perriere | 933,338 |
| Adjustable pattern, M. Bogushofsky | 933,523 |
| Advertising machine, J. W. Silver | 933,272 |
| Aeromotor, S. H. Gilson | 933,548 |
| Agricultural implement, E. M. Newell | 933,573 |
| Air, apparatus for separating oxygen from, J. E. Johnson, Jr. | 933,462 |
| Air propeller, H. Otto | 933,199 |
| Alarm signal, electric, H. J. Hovey | 933,369 |
| Alloy, antifriction, E. A. Touceda | 933,139 |
| Amusement and advertising device, combined, P. Smith | 933,615 |
| Amusement device, B. Hess | 933,445 |
| Amusement device, centrifugal, H. N. Ridgway | 933,585 |
| Ash handling apparatus, Smalley & Hatton | 933,129 |
| Axle, vehicle, C. T. Cullison | 933,293 |
| Bag, J. G. Noren | 933,332 |
| Bag punching machine, coin controlled, A. L. Nevels | 933,330 |
| Banana shipping case, P. J. Schmitz | 933,206 |
| Bank, registering, A. Rittelman | 933,205 |
| Barrel, C. N. Johnson | 933,307 |
| Basin alarm, catch, M. F. Deinger | 933,237 |
| Bean separator, C. A. Croel | 933,629 |
| Bearing, roller, O. E. Michaud | 933,320 |
| Bearing, thrust, F. H. Courtney | 933,627 |
| Beater, B. Hunkler | 933,646 |
| Bed, invalid, F. W. Mitchell | 933,323 |
| Bed joint, metal, J. M. Adams | 933,355 |
| Bed spring, A. M. Beymer | 933,615 |
| Beehive, Weaver | 933,606 |
| Beet puller, E. A. Smith | 933,352 |
| Beet topper, H. E. Arthur | 933,687 |
| Beit, abdominal, E. Nickum | 933,101 |
| Beveling machine, V. Royle | 933,343 |
| Bin, See Grain bin | |
| Blinder post attachment means, R. Krumming | 933,714 |
| Bit, M. R. Sibbitt | 933,396 |
| Bit stock, C. R. Frink | 933,639 |
| Blue-print washer, H. C. Gawler | 933,640 |
| Boat, A. Niedringhaus | 933,331 |
| Boat, C. S. Frost | 933,426 |
| Boats, driving gear for submarine, F. M. Leavitt | 933,083 |
| Boiler stand, range, C. R. Schmidt | 933,119 |
| Boiler tube cleaner, J. Zilliox | 933,519 |
| Boiler water gage, steam, D. Dahlstedt | 933,236 |
| Book, manifold order or sales, L. G. Whitney | 933,513 |
| Boring machine, W. T. Sears | 933,124 |
| Bottle capping machine, H. S. Bravington | 933,057 |
| Bottle case or crate, Krause & Doran | 933,184 |
| Bottle case or crate, Rice & Adams | 933,206 |
| Bottle filling machines, bottle guide for, A. F. Zeller | 933,518 |
| Bottle, non-refillable, J. Burnstein | 933,530 |
| Bottle rest for filling machines, J. H. Champ | 933,362 |
| Bottle top, milk, C. F. Edlund | 933,636 |
| Bottles and the like, detachable handle for, Leh & Helbeck | 933,085 |
| Bottles, machine for manufacturing glass, T. W. Simpson | 933,590 |
| Bottling machine, J. H. Champ | 933,361 |
| Bottling machine, milk, Strandt & Niemann | 933,678 |
| Box, L. J. Merrigan | 933,259 |
| Box opener, E. J. Collette | 933,364 |
| Box opener, H. F. Wittig | 933,410 |
| Box press, fruit, N. T. Nelson | 933,660 |
| Boxes for nailing, machine for holding fruit, Woodruff & Macy | 933,282 |
| Braiding machine, R. C. Rahm | 933,339 |
| Braiding machine, sectional, R. C. Rahm | 933,340 |
| Bread box, R. W. Jorres | 933,711 |
| Brick burning apparatus, W. B. Chapman | 933,419 |
| Brick, mechanism for cutting wire cut, F. B. Dunn | 933,536 |
| Broom holder, H. W. Merrill | 933,260 |
| Brush and comb, combination, Kohler & Bleiker | 933,567 |
| Brush, fountain, A. A. Long | 933,477 |
| Bucket, clam shell, H. E. Huntsberry | 933,455 |
| Bucket, collapsible bait, W. L. Wilson | 933,216 |
| Building construction, L. K. Davis | 933,163 |
| Bundle carrier for binders, I. F. Cole | 933,160 |
| Bunion guard, W. H. De Ford | 933,423 |
| Butter and lard cutter, C. H. Carlson | 933,621 |
| Butter and milk merging apparatus, B. N. Hawes | 933,528 |
| Calculating machine, C. L. Nelson | 933,486 |
| Camera attachment, Korinko & Asp | 933,312 |
| Camera back, R. Kroedel | 933,470 |
| Can cover, B. J. Hartwell | 933,302 |
| Can top, tin, E. Norton | 933,103 |
| Cans, manufacturing sheet metal, E. Norton | 933,104 |
| Car and heating appliance, freight, W. E. Eastman | 933,241 |
| Car buffer plate, railway, H. Pearson | 933,721 |
| Car buffer, railway, P. Reconi | 933,204 |
| Car, convertible, M. Rounds | 933,268 |
| Car coupling, C. A. Tower | 933,602 |
| Car door and step operating means combined, railway, M. O'Brien | 933,574 |
| Car draft and buffing gearing, railway, E. I. Philipp | 933,201 |
| Car roof, Warren & Herbert | 933,143 |
| Car, wrecking, J. W. Dasher | 933,631 |
| Cars, connecting hose for railway, E. Witzzenmann | 933,516 |
| Carbureted air apparatus, F. B. Dennie | 933,064 |
| Cards and the like, mounting pocket for, W. Schanke | 933,117 |

JOSH BILLINGS said that "the only thing some underwear is good for is to make a fallow scratch and forget his other troubles."

THAT WAS BEFORE THE DAY OF

Wright's Health Underwear

It is the fleece of comfort, and can't scratch

Keeping out the cold and keeping in the bodily heat is only the beginning of the good work of **Wright's Health Underwear**. It stands guard over the sensitive skin, preventing that sudden closing of the pores which causes colds, coughs, and congestion in various parts of the body.

Wright's Health Underwear, made by a recent process, of selected high-grade wool, is the best on the market. Yet it is in reach of people of moderate means. Not a fad, just a sensible "loop-knit" woolen garment, lined with the fleece of comfort.

Wright's SPRING NEEDLE Ribbed Underwear

Is a product based upon the need of an underwear with an unusually wide range of elasticity. It is knit on patented improved Spring Needle Knitting Machines, which produce a fabric of wonderful elastic properties. It is so constructed that it yields to fit perfectly any form, and when taken off the body resumes its normal shape and size. Made in beautiful fabrics of cotton, also wool.

WRIGHT'S SPRING NEEDLE TRADE MARK RIBBED UNDERWEAR

Inquire at your dealer's for **WRIGHT'S** Underwear and always look for the woven label trade-mark. "Dressing for Health," a valuable booklet free.

WRIGHT'S HEALTH UNDERWEAR CO., 86 Franklin St., N. Y.

Wizard Mono-Rail Jumping Top

Travels 100 Feet on Inclined Wire, Revolves 10,000 Times a minute with One Pull of the Cord. Any Child can do it.

This Marvellous Top apparently defies the fixed laws of gravity and equilibrium. It will spin in any position with its center line at any angle to its line of gravity. Spins on the tip of finger, end of nose, edge of tumbler, etc.

SEE IT JUMP FROM THE SHELL?

Perfect demonstration of the railroad of the future. String the wire tight, start the top spinning in carriage on inclined wire and it will travel entire length. Illustrates motion of earth through its orbit. Baffles Science, delights children, astounds adults. The more you spin it the more it will puzzle you. Ask Your Dealer.

Style A, Complete Outfit, 50c, or by mail 6c. extra.
Style B, Superior Quality, \$1.00 postpaid.

Wizard Top, accurately made of cold rolled steel, with turned steel bearings and heavy cast leaguered wheel; wood pedestal, winding cord, brass ring, nicked mono-rail, two-wheeled carriage, steel wire track, wooden egg, with illustrated directions.

WIZARD PATENT DEVELOPING CO., Dept. 5, 125-T, West 51st St., New York

MEN WANTED

1200 men \$6.92 profit average "WEAR-EVER" per day

Selling "WEAR-EVER" Aluminum Specialties

Half of these men had no previous experience. Work made pleasant by our 176 page instruction Book. No door-to-door canvassing. Let us show you what others have done. Address **The Aluminum Cooking Utensil Co., Desk 25, Pittsburg, Pa.** Opportunity knocks, but don't expect the door to be kicked in.

ASHMEAD STAY ON SILVER BROOM HANGER

Experienced broom users should use the most practical Broom Hanger, best up-to-date on the market. Hardware or grocery stores. Different sizes, 2 prices.
