

PATENTS

The First Inquiry that presents itself to one who has made any improvement or discovery is: "Can I obtain a Patent?"

Messrs. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, have been actively engaged in the business of obtaining patents for over twenty years—nearly a quarter of a century.

Those who have made inventions and desire to consult with us, are cordially invited to do so. We shall be happy to see them in person, at our office, or to advise them by letter.

PRELIMINARY EXAMINATION.—In order to obtain a Preliminary Examination, make out a written description of the invention in your own words, and a rough pencil or pen-and-ink sketch.

IN ORDER TO APPLY FOR A PATENT, the law requires that a model shall be furnished, not over a foot in any dimensions—smaller, if possible.

REISSUES.—A Reissue is granted to the original patentee, his heirs, or the assignees of the entire interest, when by reason of an inadvertent or accidental specification the original patent is invalid, provided the error has arisen from inadvertence, accident, or mistake, without any fraudulent or deceptive intention.

CAVEATS.—A Caveat gives a limited but immediate protection, and is particularly useful where the invention is not fully completed, or the model is not ready, or further time is wanted for experiment or study.

QUICK APPLICATIONS.—When, from any reason, parties are desirous of applying for Patents or Caveats, in great haste, without a moment's loss of time, they have only to write or telegraph us specially to that effect, and we will make special exertions for them.

FOREIGN PATENTS.—American Inventors should bear in mind that, as a general rule, the inventions of a citizen of one country are not entitled to the same protection in another country.

FOR INSTRUCTIONS concerning Foreign Patents, Reissues, Interferences, Hints on Selling Patents, Rules and Proceedings at the Patent Office, the Patent Laws, etc., see our Instruction Book. Sent free by mail on application.

MUNN & CO., No. 37 Park Row, New York City. Office in Washington, Cor. F and 7th streets.

Patents are granted for Seventeen Years, the following being a schedule of fees:—On filing each Caveat, \$10

On filing each application for a Patent, except for a design, \$15

On issuing each original Patent, \$20

On appeal to Commissioner of Patents, \$30

On application for Reissue, one and a half years, \$10

On application for Extension of Patent, \$50

On granting the Extension, \$50

On filing a Disclaimer, \$10

On filing application for Design (three and a half years), \$10

On filing application for Design (seventeen years), \$15

On filing application for Design (fourteen years), \$30

In addition to which there are some small revenue-stamp taxes. Residents of Canada and Nova Scotia pay \$500 on application

PATENT CLAIMS.—Persons desiring the claim of any invention, patented within thirty years, can obtain a copy by addressing a note to this office, giving name of patentee and date of patent, when known, and enclosing \$1 as a fee for copying.

RECEIPTS.—When money is paid at the office for subscriptions, a receipt for it will be given; but when subscribers remit their money by mail, they may consider the arrival of the first paper a bona-fide acknowledgment of their funds.

CITY SUBSCRIBERS.—The SCIENTIFIC AMERICAN will be delivered in every part of the city at \$4 a year. Single copies for sale at all the News Stands in this city, Brooklyn, Jersey City, and Williamsburg, and by most of the News Dealers in the United States.

Scientific American.

4000 Book Pages a Year THE BEST NEWSPAPER IN THE WORLD.

This paper differs materially from other publications being an Illustrated Periodical, devoted to the promulgation of information relating to the various Mechanical, and Chemical Arts, Photography, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work, etc.

Every number of the SCIENTIFIC AMERICAN contains sixteen large pages of reading matter, abundantly illustrated.

All the most valuable discoveries are delineated and described in its issues so that, as respects inventions, it may be justly regarded as an Illustrated Repertory, where the Inventor may learn what has been done before him in the same field which he is exploring, and where he may bring to the world a knowledge of his own achievements.

The contributors to the SCIENTIFIC AMERICAN are among the most eminent scientific and practical men of the times.

Mechanics, Inventors, Engineers, Chemists, Manufacturers, Agriculturists, and people in every profession of life, will find the SCIENTIFIC AMERICAN to be of great value in their respective callings. Its counsels and suggestions will save them hundreds of dollars annually, besides affording them a continual source of knowledge, the value of which is beyond pecuniary estimate.

An official list of all Patents granted, together with the claims thereof, is published weekly.

The form of the SCIENTIFIC AMERICAN is adapted for binding and preservation; and the yearly numbers make a splendid volume of nearly one thousand quarto pages, equivalent to nearly four thousand ordinary book pages. Published Weekly, \$3 a year, \$1.50 half year, 10 copies for 1 year, \$25. Specimen copies sent gratis. Address MUNN & CO., No. 37 Park Row, New York.
