DOYLE'S Patent Differential Pulley Blocks.

These justly celebrated Pulley Blocks have now reached their CROWNING PERFECTION by the addition of

Hall's Patent Improved Yokes.

By the use of these yokes we entirely overcome the difficulties experienced with all Differential Pulley Blocks, namely, the TWISTING of the chain, and the WEARING of the same between the keepers and the upper sheave—friction and wear are lessened, ease and safety are secured. For lifting heavy weights of all kinds these blocks are unequalled. One man can hoist 1,000 lbs. with ease, and the Block will hold the weight at any point. Made only of the best materials, tested by constant use, and approved by many of the leading manufacturers in the United States, we confidently commend them to the trade as the best Differential Pulley Block in the market. Circulars sent and orders promptly filled by
