R. A. Vervalen's Brick Machines, Made at Haverstraw, Rockland Co., N. Y. Making nine tenths of all the brick used in the State. Send for circular.

PATENTS

The publishers of the SCIENTIFIC AMERICAN have acted as solicitors of patents in the United States and foreign countries for more than three quarters of a century. More than FIFTY THOUSAND inventors have availed themselves of their services. All patents secured through this agency receive a special notice in the SCIENTIFIC AMERICAN, which frequently attracts purchasers for the patent.

Inventions examined, and advice as to patentability free. Patents obtained in the best manner, and with as little delay as possible.

Caveats prepared from either model or drawings, and filed in the Patent Office at short notice.

Special examinations as to the patentability of inventions made, at the Patent Office, on receipt of model or drawing and description; cost for this search and report, \$5.

Trade Marks.—The necessary papers for securing protection to manufacturers and merchants in this country and abroad are prepared at this office.

Design Patents, for protecting artists and designers of any new ornamental work, are quickly and cheaply obtained through this office.

Copyrights obtained.

Foreign Patents are solicited in all countries where patent laws exist. Pamphlets, containing the cost and full particulars, mailed on application.

Canada Patents.—Canada is one of the best countries or patents. The cost depends upon the length of time for which a patent is desired. Full particulars by mail on application.

We shall be happy to confer with inventors, examine their models and drawings, and advise with them as to obtaining patents without consultation fee. For every kind of information pertaining to patents, at home or abroad. Send for pamphlet, 110 pages, containing laws and full directions for obtaining patents. Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, N. Y. BRANCH OFFICE—Corner F and 7th Streets, Washington, D. C.

DANBURY Universal Drill Chuck

C. H. REID'S PATENT, AUGUST 12, 1873. A success. Heartily endorsed by all using it. Stronger and more durable than any other. Holds drills from 0 to 1/2 full size, and will hold much larger by turning down shanks to 1/2. Is operated quickly and always easily; cannot clog, set, or in any way get out of order. Has now been a year in constant use, working perfectly. All are sold with full warrant, to be returned if not satisfactory. F. A. HULL & CO., Manufacturers, Danbury, Ct. Send for Illustrated Descriptive Circular.

DAMPER REGULATORS BEST AND LEVER GAGE COCKS. MURKILL & KEIZER, 44 Holliday St., Balt.

IMPROVED 1874 DOUBLE ACTING BUCKET-PLUNGER Steam Pumps ALWAYS RELIABLE. VALLEY MACHINE COMPANY, Easthampton, Mass.

IRON PLANERS, ENGINE LATHES, DRILLS, &c. Send for Price List. NEW HAVEN MANUFACTURING CO., New Haven, Conn.

TANNATE OF SODA is not Patented, and cannot be Patented. Thomas's Fluid Tannate of Soda is a perfect Success for removing scale from Steam Boilers, WITHOUT INJURING BOILERS. It has removed Bushels of Scale from Single Boilers, thereby saving Tons of Coal. It saves 20 times its cost in fuel, and 20 times its cost in repairs of Boilers. Sold in Bbls. 500 lb., 1/2 Bbls. 250 lb., 1/4 Bbls. 125 lb., at the low price of 10 cents per pound—less than one third price of other preparations, and superior to all others. Address orders to N. SPENCER THOMAS, Elmira, N. Y.

PATENT FOR SALE.

\$12000 (if closed before June 1), will buy the Patent (and \$1000 worth of especial tools) on the "Danbury Drill Chuck." Only cause of selling—owner has larger and more important enterprise on hand, which will require his whole attention, and the above amount of extra cash. "The Danbury" is now EVERYWHERE acknowledged to be the best Chuck, for all purposes, ever put on the market—has had a large and rapid sale, being a decided "take" from the first. \$20,000 would not buy it, except for reasons named. Can show clearly, where over \$10,000 per year can be made out of it, the principle being adapted to anything, from a jeweler's or dental drill to a car wheel chuck. Unless sold before June 1, it will not be for sale. For illustrated descriptive lists and further information, address the Manufacturers,

F. A. HULL & CO., DANBURY, CONN.

Universal Hand Planing Machine, a labor-saving invention, attached to any vise, to bench with stand and chuck, or to work itself, set to work in any direction in a moment. Up and down feed to Tool; reversible self crossed-feed. Quickly saves its cost in bands of all metal working mechanics. JACOB E. SUTHERLIN, mfrs, 60 Duane St., N. Y.

THE AMERICAN Gas Carbonizing Association, 200 BROADWAY, NEW YORK. Owners of S. Whitney's Patents for the U. S. DROP LIGHTS, STREET LIGHTS, METRE ATTACHMENTS,

Announce to the public the fact, that, owing to the contemplated lengthened visit to Europe of Mr. Whitney and his early departure therefor, upon important business matters connected with the introduction of his valuable inventions in several of the Continental States, it has become desirable for the mutual advantage of Mr. Whitney and his associates, that their interests here should be condensed as much as possible; and to that end, the American Gas Carbonizing Association now offer the remaining interests for local territorial rights throughout the U. States, at prices and upon terms that cannot fail to meet the wishes of intending purchasers. The great value of these inventions, in all their varieties of Drop Lights, Street Lights, and Metre Attachments, has been demonstrated beyond all question; and certified by the ablest scientific and expert talent in the country, as well as by all who have used them; and they have proved by their own work to be the only thorough and perfect carburetter yet brought to public notice—Safe, Reliable under all conditions, Durable, Cheap, and Saving Largely in the Gas Bills to the gas consumer; besides affording a very large profit to those purchasing a territorial right. Several of the Western and Southern and South Western States are offered at prices and on terms that afford the purchasers thereof the opportunity to make many times the amount of their investment; and in certain cases where responsible, energetic business men may purchase a State or block of States, and give satisfactory assurance of the business being properly managed, this Association are willing, and would prefer, to retain a large portion of the purchase price in an interest in the business itself. For further information, testimonials, circulars, &c., apply to the offices, Rooms 9 & 10, No. 200 Broadway, New York. SAMUEL WHITNEY, S. M. HOLMES, Gen. Superintendent. Ex. Manager for Trustees.

MACHINISTS' TOOLS CHAS. A. CHEEVER, DEALER, No. 98 CHAMBERS ST. NEW YORK. GEO. A. BOWEN, SEYD.

SCIENTIFIC AMERICAN. THE BEST MECHANICAL PAPER IN THE WORLD. TWENTY-NINTH YEAR.

VOLUME XXX.—NEW SERIES.

The publishers of the SCIENTIFIC AMERICAN beg to announce that on the third day of January, 1874, a new volume commences. It will continue to be the aim of the publishers to render the contents of the coming year more attractive and useful than any of its predecessors.

The SCIENTIFIC AMERICAN is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions, Agriculture, Commerce, and the industrial pursuits generally; and it is valuable and instructive not only in the Workshop and Manufactory, but also in the Household, the Library, and the Reading Room.

To the Mechanic and Manufacturer! No person engaged in any of the mechanical pursuits should think of doing without the SCIENTIFIC AMERICAN. Every number contains from six to ten engravings of new machines and inventions which cannot be found in any other publication.

The best Mechanical Paper in the World! A year's numbers contain over 800 pages and several hundred engravings of new machines, useful and novel inventions, manufacturing establishments, tools, and Processes.

TERMS. One copy, one year..... \$3.00 One copy, six months..... 1.50 One copy, four months..... 1.00 One copy of Scientific American for one year, and one copy of engraving, "Men of Progress"..... 10.00 One copy of Scientific American for one year, and one copy of "Science Record" for 1874..... 5.00 Remit by postal order, draft or express. The postage on the Scientific American is five cents per quarter, payable at the office where received. Canada subscribers must remit, with subscription, 25 cents extra to pay postage. Address all letters and make all Post Office orders and drafts payable to MUNN & CO., 37 PARK ROW, NEW YORK. THE "Scientific American" is printed with CHAS. ENCK JOHNSON & CO.'S INK. Tenth and Lombard Sts., Philadelphia, and 59 Gold St., New York.
