Planing & Matching.

Moulding, Re-sawing and Tenoning Machines. Sawn Saws and General Wood-Working Machinery. JOHN B. SCHENCK'S SONS, Mattawan, N. Y. Send for Catalogue. 113 Liberty St., N. Y. City

Read this letter: EDM. OHIO, Dec. 10th, 1874. Messrs. W. F. & JOHN BARNES—Gents: I think that you do not half state the merits of your machine. I will tell you something of what I have done with mine. I have not had steady work for it; but the first job that I ever done on it, I sawed out forty dollars' (\$40) worth of scroll work at factory prices, and the whole thing only cost me ten dollars (\$10)—lumber, labor, and all included—making a profit equal to the cost of the machine. At another time I made ten dollars (\$10) in five hours; and at another, eight (\$8) in the same time. Last week, I sawed out a large panel bracket (the factory men wanted to charge me one dollar for), and nailed it up ready for use in twelve minutes by the watch, which, you see, would make over forty dollars per day. I am respectfully yours, A. F. GEANQUE.

TO MAKE ENOUGH MONEY

Read Every Word. In the next three months to keep you a year, any unemployed person between the ages of 16 and 60 should make an agency for THE ILLUSTRATED WEEKLY, a large, sparkling, literary and family paper (\$2.50 a year), pure, instructive, and amusing; half of its pages full of beautiful pictures, the other half containing the choicest reading matter. JAMES PATRICK, contributing editor. Like that great English paper, the London Illustrated News, it is highly moral, but entirely unsectarian and non-political. During a year it furnishes over 1,100 pictures, and the equal of 9 large octavo volumes of reading matter.

IT GIVES AWAY, extra each week, a large size, 17x34 inches. These are exquisite facsimiles of the finest steel engravings, on heavy tinted paper, with margins suitable for specimens, and are sent a quarter every year. Besides, each subscriber is presented with the chromo "Gold Fish, Fruits and Flowers," size 2 1/2 x 3 1/2 feet, in 27 oil colors, painted by Ramsey. Not only the largest and finest premium ever given, but the most wonderful fully beautiful chromo ever produced. It is just the paper for which every body has been waiting—larger and better than any other, at half the usual price. Its success (nearly 1,000 subscribers a day being received) proves this. So complete, so progressive, so full of useful as well as entertaining matter is this paper, that we venture to assert that to every thinking, observant American, a year's subscription (costs \$2.50) is, in actual, useful value, worth fifty dollars.

AGENTS This combination is unequalled. It is an instantaneous and pronounced success. Every good American takes at least one paper, of course. He takes this paper because (1) it is the nicest, newest, and best; (2) it is the cheapest—giving a great bargain—and thus suits the hard times. It sells itself. Be quick, if you want an agency. This time of the year any agent can make from \$10 to \$20 per day. Send three stamps for specimen and liberal terms with reports from agents, subscribers, and press notices; or, better yet, to save time, send \$2.50 at once for a complete outfit and make \$100 while you would otherwise be waiting. You are sure to take hold anyhow. Money refunded if not perfectly satisfied, or if the territory you want is already occupied. Address all orders for specimens, subscriptions, or outfits to T. E. MOORE, Publisher, "The Illustrated Weekly," P. O. Box 5450, No. 11 Dey St., New York.
