WROUGHT IRON BEAMS & GIRDERS

THE UNION IRON MILLS, Pittsburgh, Pa. The attention of Engineers and Architects is called to our improved Wrought-Iron Beams and Girders (patented), in which the compound webs between the stem and flanges, which have proved so objectionable in the old mode of manufacturing, are entirely avoided. We are prepared to furnish all sizes at terms as favorable as can be obtained elsewhere. For descriptive lithograph, address Carnegie Brothers & Co., Union Iron Mills, Pittsburgh, Pa.

EAGLE FOOT LATHES, With Scroll and Circular Saw Attachments, Slide Rest, Tools, &c.; also Small Engine Lathes, Metal Hand Planers, &c. Neatest designs, superior finish. Low Prices. Our new Catalogue describes these and every tool necessary for the Amateur or Artisan. Send for it. WM. L. CHASE & CO. 95 & 97 Liberty St., New York.

WHIPPLE'S Patent Door Knob. Awarded a Bronze Medal at the American Institute Fair for 1874. The Judges say: "We consider this method of fastening DOOR KNOBS a great improvement over anything yet invented for the purpose, as it obviates the use of side screws and washers, and can be regulated to suit any thickness of Doors." Send for Circular. THE PARKER & WHIPPLE COMPANY, West Meriden, Conn., or 97 Chambers St., N. Y.

PATENTS [ESTABLISHED 1846.]

Munn & Co.'s Patent Offices. The Oldest Agency for Soliciting Patents in the United States. THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this agency, at home and abroad, than through any other in the world. They employ as their assistants a corps of the most experienced men as examiners, specification writers, and draftsmen that can be found, many of whom have been selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed themselves of Munn & Co.'s services in examining their inventions and procuring their patents. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine inventions, confer with inventors, prepare drawings, specifications, and assignments, attend to filing applications in the Patent Office, paying the government fees, and watch each case step by step while pending before the examiner. This is done through their branch office, corner F and 7th streets, Washington. They also prepare and file caveats, procure design patents, trademarks, and reissues, and attend to rejected cases (prepared by the inventor or other attorneys), procure copyrights, attend to interferences, give written opinions on matters of infringement, furnish copies of patents, and, in fact, attend to every branch of patent business both in this and in foreign countries.

A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this agency, with the name and residence of the patentee. Patents are often sold, in part or whole, to persons attracted to the invention by such notice. Patents obtained in Canada, England, France, Belgium, Germany, Russia, Prussia, Spain, Portugal, the British Colonies, and all other countries where patents are granted, at prices greatly reduced from former rates. Send for pamphlet pertaining specially to foreign patents, which states the cost, time granted, and the requirements for each country.

Copies of Patents. Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications. Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1. A copy of the claims of any patent issued since 1836 will be furnished for \$1. When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent. A pamphlet containing the laws and full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gift edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful handbook of reference for everybody. Price 25 cents, mailed free. Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, N. Y.

HARTFORD STEAM BOILER Inspection & Insurance COMPANY. W. B. FRANKLIN, V. Pres't. J. M. ALLEN, Pres't. I. B. PIERCE, Sec'y.

FOREIGN PATENTS AND THE CENTENNIAL.

There is no doubt that our Centennial Exposition will attract to our shores multitudes of representative people from all parts of the world, and they will take home with them many of our best improvements to introduce into their own manufactures. An unusual opportunity will be offered for selling to these people such foreign patents as have been secured on good American inventions in the respective countries from which these visitors come. At the reduced prices for which patents are obtained abroad, our people will lose a chance not likely to occur again, if they do not avail themselves of the opportunity of securing their inventions in foreign countries at once so as to have their patents ready to negotiate during the coming summer. For cost of patents in the different countries and the conditions on which they are granted, send for pamphlet containing full information. Address MUNN & CO., 37 Park Row, New York. BRANCH OFFICE, cor. F and 7th Sts., Washington, D. C.

PROSPECTUS OF THE SCIENTIFIC AMERICAN, FOR 1876, THE MOST POPULAR SCIENTIFIC PAPER IN THE WORLD. THIRTY-FIRST YEAR.

VOLUME XXXIV.—NEW SERIES. The publishers of the SCIENTIFIC AMERICAN beg to announce that on the first day of January, 1876, a new volume commenced. It will continue to be the aim of the publishers to render the contents of the new volume more attractive and useful than any of its predecessors. To the Mechanic and Manufacturer. No person engaged in any of the mechanical pursuits should think of doing without the SCIENTIFIC AMERICAN. Every number contains from six to ten engravings of new machines and inventions which cannot be found in any other publication. The SCIENTIFIC AMERICAN is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions, Agriculture, Commerce and the industrial pursuits generally; and it is valuable and instructive not only in the Workshop and Manufactory, but also in the Household, the Library, and the Reading Room. Each volume contains hundreds of Notes, Receipts, and Suggestions and Advice, by Practical Writers, for Working Men and Employers, in all the various arts.
