THE ALLEN GOVERNOR

Is simple in construction, inexpensive, not liable to get out of order, permits the speed of the engine to be changed at will the neat in appearance, noiseless, very durable, saves the engineer's time, saves fuel, and is at once the most powerful and most sensitive governor ever made.

LARGEST NAIL FACTORY IN PENNSYLVANIA.

CHESAPEAKE NAIL WORKS, Harrisburg, Pa., July 21, 1876. Mr. S. B. ALLEN: The "Allen Governor" which we have had on our factory engine since the first of April last, has worked to our entire satisfaction. Since beginning its use, our product has been increased Four Hundred Kegs per week, and we recommend it to those seeking a reliable governor.

ALEXANDER MORRISON, Foreman

Flour Mills require regular, exact motion. This governor enables them to make more and better flour.

Rolling Mills and Machine Shops

save the value of the governor every month by the steady motion which we alone can give. Lumber Mills run with increased and steadier speed, and everywhere praise our governor.

The Engineer's Friend.

No invention within the last 20 years has done so much to relieve all engineers of labor, care, and trouble. Engines with our governor always run with a wide open throttle and keep the same speed, whether the steam is 40 pounds or 80 pounds, as long as it is sufficient to do the work. Within three months, we have received letters of inquiry from nearly two thousand engineers, many of whom have caused our governors to be attached, and all have been pleased.

We will be glad to send illustrated, descriptive circulars on all inquiries. We want a good agent to sell these governors in all cities and towns where we have not one now. If you run or own an engine and don't want a new governor, it might be well to know what improvements are being made. Every intelligent engineer should understand our governor. All parties west of the Rocky Mountains may address GODDARD & CO., Pacific Iron Works, San Francisco. Those in the Southern States may send to THE NEW ORLEANS MACHINERY DEPOT, 156 Gravier St., New Orleans. All others may write to STILLMAN B. ALLEN, Boston, Mass.
