

Advertisements.

Back Page . . . . . \$1.00 a line.
Inside Page . . . . . 75 cents a line.
Engravings may head advertisements at the same rate
per line, by measurement, as the letter press. Ad-
vertisements must be received at publication office as
early as Friday morning to appear in next issue.

Lawrence Scientific School,
HARVARD UNIVERSITY.

THIS School provides a four years' course in
Engineering, leading to the degree of Civil Engi-
neer, or Mining Engineer; and four years' courses in
Chemistry, in Natural History, and in Mathematics,
Physics, and Astronomy, each of which leads to the de-
gree of S. B. A large portion of the instruction is the
same as that given to undergraduates in the College.
The University is amply provided with laboratories, ap-
paratus and collections. Students of the Scientific School
can occupy rooms in College Buildings and board at Mem-
orial Hall. Examinations for admission will be held
September 28 and 29, beginning at 8 A. M. For informa-
tion, address JAMES W. HARRIS, Secretary.

THE NEW FIFTY DOLLAR BACK GEAR, SCREW-
CUTTING FOOT LATHE. Send for Circular to
POST & CO., Cincinnati, Ohio.

HANDASYDE'S COMPOSITION
For the Removal and Prevention of
Incrustation in Steam Boilers.

Used by the principal Railroads, Coal Mines, and Gen-
eral Manufacturers in Great Britain and Ireland. Satis-
faction guaranteed. The best and cheapest in the mar-
ket. Send for circulars and testimonials.

[ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for Soliciting Patents in the
United States.

THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this
agency, at home and abroad, than through any other in
the world.

They employ as their assistants a corps of the most ex-
perienced men as examiners, specification writers, and
draftsmen that can be found, many of whom have been
selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed them-
selves of Munn & Co.'s services in examining their in-
ventions and procuring their patents.

MUNN & CO., in connection with the publication of
the SCIENTIFIC AMERICAN, continue to examine in-
ventions, confer with inventors, prepare drawings, spe-
cifications, and assignments, attend to filing applications
in the Patent Office, paying the government fees, and
watch each case step by step while pending before the ex-
aminer. This is done through their branch office, corner
F and 7th streets, Washington. They also prepare and
file caveats, procure design patents, trademarks, and re-
issues, attend to rejected cases (prepared by the inventor
or other attorneys), procure copyrights, attend to inter-
ferences, give written opinions on matters of infringement,
furnish copies of patents, and, in fact, attend to
every branch of patent business both in this and in for-
eign countries.

A special notice is made in the SCIENTIFIC AMER-
ICAN of all inventions patented through this agency, with
the name and residence of the patentee. Patents are of-
ten sold, in part or whole, to persons attracted to the in-
vention by such notice.

Patents obtained in Canada, England, France, Belgium,
Germany, Russia, Prussia, Spain, Portugal, the British
Colonies, and all other countries where patents are
granted, at prices greatly reduced from former rates.
Send for pamphlet pertaining specially to foreign patents,
which states the cost, time granted, and the requirements
of each country.

Copies of Patents.

Persons desiring any patent issued from 1836 to Novem-
ber 26, 1867, can be supplied with official copies at rea-
sonable cost, the price depending upon the extent of
drawings and length of specifications.

Any patent issued since November 27, 1867, at which
time the Patent Office commenced printing the drawings
and specifications, may be had by remitting to this of-
fice \$1.

A copy of the claims of any patent issued since 1836 will
be furnished for \$1.

When ordering copies, please to remit for the same as
above, and state name of patentee, title of invention,
and date of patent.

A pamphlet containing the laws and full directions for
obtaining United States patents sent free. A hand-
somer bound Reference Book, gilt edges, contains 140
pages and many engravings and tables important to every
patentee and mechanic, and is a useful handbook of refer-
ence for everybody. Price 25 cents, mailed free.

taining over 30 fine illustra-
tions, sent free to parties
interested in water power.
JAS. LEFFEL & CO.,
Springfield, O., & 109 Lib-
erty St., New York City.

INVALIDITY OF STATE LAWS
CONCERNING THE SALE OF PATENTS.
All laws of State legislatures that in any manner inter-
fere with the free sale of Patent rights, such as the re-
quiring of the agent or patentee to file copies of patent,
take licenses, procure certificates, comply with forms,
or which release the payee of ordinary notes of hand
given for patents, have been declared unconstitutional
and void by the United States Courts. All State
Judges, sheriffs, or other State officials, who undertake
to interfere with patentees or their agents in the free
sale of patents, make themselves liable in damages and
other punishment. The decisions of the United States
Courts on these points are given in SCIENTIFIC AMER-
ICAN SUPPLEMENT, No. 25. Price 10 cents. To be
had at this office and of all newsdealers.

PERFECT
NEWSPAPER FILE.

The Koch Patent File, for preserving newspapers,
magazines, and pamphlets, has been recently improved
and price reduced. Subscribers to the SCIENTIFIC AMER-
ICAN and SCIENTIFIC AMERICAN SUPPLEMENT can be
supplied for the low price of \$1.50 by mail, or \$1.25 at the
office of this paper. Heavy board sides; inscription
"SCIENTIFIC AMERICAN," in gilt. Necessary for
every one who wishes to preserve the paper.
Address
MUNN & CO.,
Publishers SCIENTIFIC AMERICAN.

WHOM IT PAYS!

As a rule, it pays best to advertise what one has to sell
or wishes to purchase, in papers having the largest cir-
culation among the class of persons likely to be interested
in the article. Parties having Manufacturing Establish-
ments to sell or lease, or who wish Estimates made for
Constructing Bridges, Dams, Iron Buildings, Furnaces,
Heating Apparatus, Steam Engines, Boilers, Wood and
Iron Working Machinery, Agricultural Implements, or
Contracts for Engineering Works of all kinds, will find
that it pays to advertise in the SCIENTIFIC AMER-
ICAN.

The value of the SCIENTIFIC AMERICAN as an ad-
vertising medium cannot be over-estimated. It goes
into all the machine and workshops in the country, and
is taken at the principal libraries and reading rooms in
the United States and Europe.

The SCIENTIFIC AMERICAN and SCIENTIFIC
AMERICAN SUPPLEMENT have a larger circulation than
all other papers of their kind in the world com-
bined; and at no period since the commencement of the
publication of these papers has the weekly circulation
been as large as at the present time.

The actual issue of the SCIENTIFIC AMERICAN is
47,500 per week, and of the SCIENTIFIC AMER-
ICAN SUPPLEMENT, 15,000, making the combined
circulation, 62,500 every week.

If anything is wanted in the mechanical line, advertise
for it in the SCIENTIFIC AMERICAN.

If one has a patent or machinery to sell, advertise in
the SCIENTIFIC AMERICAN.

If any one is exhibiting at the Centennial, it will pay
them to advertise where they may be found.

For rates, see the first column of the last page of this
paper.

The Supplement.

Next to the SCIENTIFIC AMERICAN, the SCIENT-
IFIC AMERICAN SUPPLEMENT has the largest cir-
culation of any paper of its class published. The SUP-
PLEMENT is a distinct publication from the SCIENT-
IFIC AMERICAN, and has a large circulation other
than among the subscribers of the regular edition.
Terms for advertising are very low, as follows:

Back Page, tinted cover.....35c. a line } EACH
Inside page .....25c. a line } INSERTION.

Discount for large space, and to quarterly advertisers.

OF THE
SCIENTIFIC AMERICAN,
FOR 1876
THE MOST POPULAR SCIENTIFIC PAPER
IN THE WORLD.
THIRTY-FIRST YEAR.

VOLUME XXXV.—NEW SERIES.

The publishers of the SCIENTIFIC AMERICAN
beg to announce that on the first day of July,
1876, a new volume commenced. It will continue
to be the aim of the publishers to render the con-
tents of the new volume more attractive and use-
ful than any of its predecessors.

To the Mechanic and Manufacturer.

No person engaged in any of the mechanical pur-
suits should think of doing without the SCIENT-
IFIC AMERICAN. Every number contains from
six to ten engravings of new machines and inven-
tions which cannot be found in any other publica-
tion.

The SCIENTIFIC AMERICAN is devoted to the
interests of Popular Science, the Mechanic Arts,
Manufactures, Inventions, Agriculture, Commerce
and the industrial pursuits generally; and it is val-
uable and instructive not only in the Workshop
and Manufactory, but also in the Household, the
Library, and the Reading Room. Each volume
contains hundreds of Notes, Receipts, and Sugges-
tions and Advice, by Practical Writers, for Work-
ing Men and Employers, in all the various arts.

The Scientific American Supplement.

A weekly paper, uniform in size with the SCIENT-
IFIC AMERICAN, but a distinct publication. It
contains working drawings of engineering works,
and elaborate treatises on every branch of Science
and Mechanics, by eminent writers, at home and
abroad. An illustrated cover protects the hand-
somerly printed sheets. Price, \$5.00 per annum
Single copies 10 cents.

Remit by postal order, draft, or express.
