PATENTS

[ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for Soliciting Patents in the United States.

THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this agency, at home and abroad, than through any other in the world.

They employ as their assistants a corps of the most experienced men as examiners, specification writers, and draftsmen that can be found, many of whom have been selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed themselves of Munn & Co.'s services in examining their inventions and procuring their patents.

MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine inventions, confer with inventors, prepare drawings, specifications, and assignments, attend to filing applications in the Patent Office, paying the government fees, and watch each case step by step while pending before the examiner. This is done through their branch office, corner F and 7th streets, Washington. They also prepare and file caveats, procure design patents, trademarks, and reissues, attend to rejected cases (prepared by the inventor or other attorneys), procure copyrights, attend to interferences, give written opinions on matters of infringement, furnish copies of patents, and, in fact, attend to every branch of patent business both in this and in foreign countries.

A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this agency, with the name and residence of the patentee. Patents are often sold, in part or whole, to persons attracted to the invention by such notice.

Patents obtained in Canada, England, France, Belgium, Germany, Russia, Prussia, Spain, Portugal, the British Colonies, and all other countries where patents are granted, at prices greatly reduced from former rates. Send for pamphlet pertaining specially to foreign patents, which states the cost, time granted, and the requirements for each country.

Copies of Patents. Persons desiring any patent issued from 1866 to November 26, 1867, can be supplied with all copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1866 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful handbook of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, N. Y.

BRANCH OFFICE—Corner of F and 7th streets, Washington, D. C.

THE Scientific American For 1877.

The Most Popular Scientific Paper in the World.

THIRTY-SECOND YEAR.

Only \$3.20 a Year, including Postage. Weekly. 52 Numbers a Year.

This Widely Circulated and splendidly Illustrated paper is published weekly. Every number contains sixteen pages of useful information, and a large number of original engravings of new inventions and discoveries, representing Engineering Works, Steam Machinery, New Inventions, Novelties in Mechanics, Manufactures, Chemistry, Electricity, Telegraphy, Photography, Architecture, Agriculture, Horticulture, etc.

Mechanics find in THE SCIENTIFIC AMERICAN the latest and most valuable information concerning their various trades, and details of all the latest and best improvements in machinery, tools, and processes, together with such useful knowledge as will tend to dignify their occupations and lighten their labors.

Inventors find in THE SCIENTIFIC AMERICAN all necessary instructions how to secure Letters-Patent for their inventions; excellent illustrations and descriptions of the best inventions made in this country and in Europe; an official list of all Patents granted weekly at Washington, with numerous explanatory notes; discussions of questions concerning the Patent laws of the United States, reports of trials in court, etc.

Manufacturers find in THE SCIENTIFIC AMERICAN illustrated articles descriptive of the most recently invented machines used in various manufacturing operations, the different processes being lucidly described; engravings of new ornamental designs; practical recipes of much value.

Engineers find in THE SCIENTIFIC AMERICAN valuable descriptions of all the best inventions connected with Steam, Railroad, Marine, and Mechanical Engineering; together with a faithful record of the progress of science in all these departments, both at home and abroad.

Chemists find in THE SCIENTIFIC AMERICAN details of recent discoveries made in Chemistry, and articles on the application of chemical science in all the useful arts.

Agriculturists and Horticulturists find in THE SCIENTIFIC AMERICAN engravings and descriptions of the best and most approved Farm Implements; valuable information on matters relating to Floriculture;

the latest and best illustrations of New Ornamental Plants, for the house, lawn, or garden.

All Classes of Readers find in THE SCIENTIFIC AMERICAN a popular resumé of the best scientific information of the day; and it is the aim of the publishers to present it in an attractive form, avoiding as much as possible abstruse terms. To every intelligent mind, this journal affords a constant supply of instructive reading.

Remember, THE SCIENTIFIC AMERICAN is a weekly paper—fifty-two numbers a year—and every number contains as much information as many of the publications that are issued monthly.

The Scientific American should have a place in every Family, Library, Study, Office, and Counting-room; in every Reading-room, College, Academy, and School. A year's numbers contain 824 pages and several hundred engravings. Thousands of volumes are preserved for binding and reference. The practical recipes are well worth ten times the subscription price. As an instructor and educator THE SCIENTIFIC AMERICAN has no equal. It is promotive of knowledge and progress in every community where it circulates.

Terms of Subscription.—One copy of THE SCIENTIFIC AMERICAN will be sent for one year—52 numbers—postage prepaid, to any subscriber in the United States or Canada, on receipt of three dollars and twenty cents by the publishers; six months, \$1.60; three months, \$1.00.

Clubs.—One extra copy of THE SCIENTIFIC AMERICAN will be supplied gratis for every club of five subscribers at \$3.20 each; additional copies at same proportionate rate. Postage prepaid.

One copy of THE SCIENTIFIC AMERICAN and one copy of THE SCIENTIFIC AMERICAN SUPPLEMENT will be sent for one year, postage prepaid, to any subscriber in the United States or Canada, on receipt of seven dollars by the publishers.

The safest way to remit is by Postal-Order, Draft, or Express. Money carefully placed inside of envelopes, securely sealed, and correctly addressed, seldom goes astray, but is at the sender's risk. Address all letters and make all orders, drafts, etc., payable to

MUNN & CO., 37 Park Row, New-York.

Send Ten Cents for Specimen Copy of THE SCIENTIFIC AMERICAN.

Scientific American SUPPLEMENT.

\$5 a Year by Mail, post-paid. Send 10 Cents for Specimen Copy.

The Scientific American Supplement is a large and splendid periodical, issued every week.

Each number contains sixteen large quarto pages, profusely illustrated with engravings.

Fifty-two numbers a year. Uniform in size with the SCIENTIFIC AMERICAN.

The Supplement is, however, separately paged, distinctive in character, and forms a most valuable independent publication.

The Contents of the SCIENTIFIC AMERICAN SUPPLEMENT for the year 1877 will embrace a very wide range, covering the most recent and valuable papers by eminent writers in all the principal departments of Science and Useful Knowledge, to wit:

- 1. Chemistry and Metallurgy.—Embracing New Chemical Discoveries, Improvements, and Processes, with engravings. New Processes of Working Iron, Steel, Lead, Copper, Gold, Silver, and the Various Metals, with engravings of New Apparatus, New Information, etc.
2. Mechanics and Engineering.—The latest and best papers upon Steam Engineering, Railway Engineering, Mining, and Civil Engineering, Mill Work, Textile Industry, with engravings and working drawings.
3. Electricity, Light, Heat, Sound.—Latest Improvements in Telegraphy, Telegraph Engineering; Improvements in Galvanic Batteries, Electric Engines, New and Useful Applications of Electricity in the Arts, with engravings.
4. Architecture.—Examples of the best New Structures, with details and drawings.
5. Technology.—New and Useful Inventions and Discoveries relating to THE ARTS: Improvements in Photography, Printing, New Implements, New Machinery, New Processes, New Recipes, Improvements pertaining to Textile Industry, Weaving, Dyeing, Coloring, New Industrial Products, Animal, Vegetable, and Mineral—with engravings.
6. Agriculture, Botany, and Horticulture.—New and Useful Information in all branches of Agriculture. Descriptions of New Plants, Trees, Shrubs, and Flowers, New, Useful, and Interesting Facts in relation to Cultivation, Propagation—with engravings.
7. Rural and Household Economy.—The Latest Information concerning Building Materials, New and Valuable Recipes, and a great variety of Miscellaneous Information pertaining to Rural and Household affairs, with engravings.
8. Materia Medica, Therapeutics, Hygiene.—Exhibiting the progress of Medical Science in various branches, New Medicinal Preparations, New Health Appliances, and much Interesting Information.
9. Natural History and Zoology.—The Latest Investigations, Discoveries, and most Interesting Information in this department of Science.
10 and 11. Meteorology, Terrestrial Physics, Geography.—Accounts of Interesting Atmospheric and Terrestrial Phenomena, Travels, Explorations, and Discoveries, etc.
12. Geology and Mineralogy.—The Latest and most Interesting Geological Investigations and Reports, and New Discoveries.
13. Astronomy.—Recent Interesting Discoveries and Information, with Reports of Astronomical Phenomena, Progress, New Instruments, etc.
TERMS:—Scientific American Supplement, one year, post-paid, \$5.00. One copy of SCIENTIFIC AMERICAN and one copy of SCIENTIFIC AMERICAN SUPPLEMENT, one year, post-paid, \$7.00. CLUBS.—One extra copy of the SUPPLEMENT will be supplied gratis for every club of five Supplement subscribers at \$5.00 each. All the back numbers of the Supplement, from the commencement, January 1, 1876, can be had. Price, 10 cents each.
