[ESTABLISHED 1846.]

Mann & Co.'s Patent Offices.

The Oldest Agency for Soliciting Patents in the United States.

TRIRTY YEARS EXPERIENCE.

MORE PATENTS have been secured through this agency, at home and abroad, than through any other in the world.

They employ as their assistants a corps of the most experienced men as examiners, specification writers, and draftsmen that can be found, many of whom have been selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed then selves of Munn & Co.'s services in examining their in-

MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine inventions, confer with inventors, prepare drawings, spe-cifications, and assignments, attend to filing applications ni the Patent Office, paying the government fees, and watch each case step by step whilepending before the examiner. This is done through their branch office, corner F and 7th streets, Washington. They also prepare and file caveats, p cours design patents, trademarks, and re-sues, attend to rejected cases (prepared by the inventor or other attorneys), procure copyrights, attend to interferences, give written opinions on matters of infringe-ment, furnish copies of patents, and, in fact, attend to every branch of patent business both in this and in foreign countries.

A special notice is made in the SCIENTIFIC AMERI-CAN of all inventions patented through this agency, with the name and residence of the patentee. Patente are often sold, in part or whole, to persons attracted to the invention by such notice.

Patents obtained in Canada, Eugland, France, Belgium Germany, Russis, Frussis, Spain, Portagal, the British Colonies, and all other countries where patents are granted, at prices greatly reduced from former rates. which states the cost, time granted, and the requirements for each country.

ly paper-fifty-two numbers a year-and every number

Plants, for the house, lawn, or garden.

tions that are issued monthly.

This Widely Circulated and splendidly I!lustrated paper is published weekly. Every number contains sixteen pages of useful information, and a large number of original engravings of new inventions and discoveries, representing Engineering Works, Steam Machinery, New Inventions, Novelties in Mechanics, Manufactures, Chemistry, Electricity, Telegraphy, Photography, Architecture, Agriculture, Horticulture, etc.

Mechanics find in THE SCIENTIFIC AMERICAN the latest and most valuable information concerning their various trades, and details of all the latest and best improvements in machinery, tools, and processes, together with such useful knowledge as will tend to dignify their occupations and lighten their labors.

Inventors find in THE SCIENTIFIC AMERICAN all necessary instructions how to secure Letters-Patent for their inventions; excellent illustrations and descriptions of the best inventions made in this country and in Europe ; an official list of all Patents granted weekly at Washington, with numerous explanatory notes ; dis-cussions of *questions* concerning the Patent laws of the United States, reports of trials in court, etc.

Manufacturers find in THE SCIENTIFIC AMERI-CAN illustrated articles descriptive of the most recently invented machines used in various manufacturing op-erations, the different processes being lucidly described; engravings of new ornamental designs ; practical recipes of much value.

Engineers find in THE SCIENTIFIC AMERICAN valuable descriptions of all the best inventions connect-ed with Steam, Railroad, Marine, and Mechanical Engineering; together with a faithful record of the progress of science in all these departments, both at home and abroad.

Chemists find in THE SCIENTIFIC AMERICAN de-tails of recent discoveries made in Chemistry, and articles on the application of chemical science in all the useful arts.

Agriculturists and Horticulturists find in THE SCIENTIFIC AMERICAN engravings and descriptions of the best and most approved Farm Implements ; valuable information on matters relating to Floriculture ;

MARTINE CO. ALLER

SUPPLEMENT.

\$5 a Year by Mail, post-paid. Send 10 Cents for Specimen Copy.

The Scientific American Supplement is a large and splendid periodical, issued every week. Each number contains sixteen large quarto pages, profusely illustrated with engravings. Fifty-two numbers a year. Uniform in size with the SCIENTIFIC AMERICAN. The Supplement is, however, separately paged, distinctive in charac-

ter, and forms a most valuable independent publication.

The Contenies of the SCIENTIFIC AMERICAN SUPPLEMENT for the year 1877 will embrace a very wide range, covering the most recent and valuable papers by eminent writers in all the principal departments of Science and Useful Knowledge, to wit:

- 1. Chemistry and Metallargy .- Embracing New Chemical | 7. Sural and Household Zoomomy .- The Latest Informa-Discoveries. Improvements, and Processes, with engravings. New Processes of Working Iron, Steel, Lead, Copper, Gold, Silver, and the Various Metals, with engravings of New Apparatus, New Information. etc.
- 2. Mechanics and Engineering .- The latest and best papers upon Steam Engineering, Railway Engineering, Min-ing, and Civil Engineering, Mill Work, Textile Indus-
- tion concerning Building Materials, New and Valuable Recipes, and a great variety of Miscellaneous Information pertaining to Rural and Household affairs, with engravings.
- 8. Materia Medica, Therapeutics, Hygiene.-Exhibiting the progress of Medical Science in various branches, New Medicinal Preparations, New Health Appliances, and much Interesting Information.

securely sealed, and correctly addressed, seldom goes astray, but is at the sender's risk. Address all letters and make all orders, drafts, etc., payable to MUNN & CO., 37 Park Row, New-York.

Copies of Patents.

Persons desiring any patent issued from 1886 to Novem ber 26, 1867, can be supplied with official copies at ressonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings spec fications, may be had by remitting to this office \$1.

A copy of the claims of any patent israed since 1500 will be furnished for \$1.

When ordering copies, please to remitfor the same as above, and state name of patentee, title of invention, and date of patent.
