Inside Page - - - - - 75 cents a line.
Engravings may lead advertisements at the same rate
over lines, by measurement, as the letter press. Ad-
vertisements must be received at publication office as
early as Friday morning to appear in next issue.

Portland and Keene's Cement.
From the best London Manufacturers. For sale by
JAMES BRAND, 35 Beekman St., New York.
A Practical Treatise on Cement furnished for 25 cents.

SCHLENKER'S
Stationary-Die and Revolving-Die
Bolt Cutters.
THE BEST AND CHEAPEST MADE.
HOWARD IRON WORKS,
Buffalo, N. Y.
Send for Catalogue.

EUREKA LATHE, \$9.

WITH FOOT POWER, \$15.
Send for Circular. Manufactured only by the
EUREKA M'FG CO.,
171 Devonshire St., Boston, Mass.

Planing & Matching.
Moulding, Re-sawing, and Tenoning Machines. Scroll
Saws and General Wood-Working Machinery.
JOHN B. SCHENCK & SONS, Matteawan, N. Y.
Send for Catalogue. 118 Liberty St., N. Y. city.

HARVARD UNIVERSITY DENTAL
SCHOOL. The next year of this school begins
under the new plan, Sept. 28, 1876, and ends June 27,
1877, with a recess of one week at Christmas and another
in February. The teaching is consecutive through a
course of two years, the instruction of one year not
being repeated in the next; that of the first year being
identical with that of the Harvard Medical School and
by the same Professors. By this plan, the amount of
instruction given is double that of any other strictly dental
school, and at slightly increased cost. For informa-
tion, address THOMAS H. CHANDLER, Dean, 222 Trem-
ont Street, Boston, Mass.

[ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for Soliciting Patents in the
United States.

THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this
agency, at home and abroad, than through any other in
the world.

They employ as their assistants a corps of the most ex-
perienced men as examiners, specification writers, and
draftsmen that can be found, many of whom have been
selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed them-
selves of Munn & Co.'s services in examining their in-
ventions and procuring their patents.

MUNN & CO., in connection with the publication of
the SCIENTIFIC AMERICAN, continue to examine in-
ventions, confer with inventors, prepare drawings, spe-
cifications, and assignments, attend to filing applications
in the Patent Office, paying the government fees, and
watch each case step by step while pending before the ex-
aminer. This is done through their branch office, corner
F and 7th streets, Washington. They also prepare and
file caveats, procure design patents, trademarks, and re-
issues, attend to rejected cases (prepared by the inventor
or other attorneys), procure copyrights, attend to inter-
ferences, give written opinions on matters of infringe-
ment, furnish copies of patents, and, in fact, attend to
every branch of patent business both in this and in for-
eign countries.

A special notice is made in the SCIENTIFIC AMERI-
CAN of all inventions patented through this agency, with
the name and residence of the patentee. Patents are of-
ten sold, in part or whole, to persons attracted to the in-
vention by such notice.

Patents obtained in Canada, England, France, Belgium,
Germany, Russia, Prussia, Spain, Portugal, the British
Colonies, and all other countries where patents are
granted, at prices greatly reduced from former rates.
Send for pamphlet pertaining especially to foreign patents,
which states the cost time granted, and the requirements
of each country.

Copies of Patents.

Persons desiring any patent issued from 1836 to Novem-
ber 26, 1867, can be supplied with official copies at rea-
sonable cost, the price depending upon the extent of
drawings and length of specifications.

Any patent issued since November 27, 1867, at which
time the Patent Office commenced printing the drawings
and specifications, may be had by remitting to this of-
fice \$1.

A copy of the claims of any patent issued since 1836 will
be furnished for \$1.

When ordering copies, please to remit for the same as
above, and state name of patentee, title of invention,
and date of patent.

A pamphlet containing the laws and full directions for
obtaining United States patents sent free. A hand-
somer bound Reference Book, gilt edges, contains 140
pages and many engravings and tables important to every
patentee and mechanic, and is a useful handbook of refer-
ence for everybody. Price 25 cents, mailed free.

FITTINGS. By Hamilton W. Pendred, M. E. An
able treatise, showing the present practice, its advan-
tages and defects. With 26 figures. Price 10 cents. Con-
tained in No. 4 of SCIENTIFIC AMERICAN SUPPLE-
MENT. To be had at this office, and of all news agents.

Working Models

And Experimental Machinery, Metal or Wood, made to
order by J. F. WERNER, 62 Center St., N. Y.

TO INVENTORS
AND MANUFACTURERS

The 45th Exhibition of the American Institute will open
September 6th; Machinery will be received after August 14th, other
goods after August 26th. Increased awards and a Special Gold Medal
for this year. For particulars, blanks, etc., address "General Super-
intendent American Institute, New York."

HOW TO BUILD CHEAP BOATS. By Pad-
diefast. A series of articles showing how
any person may build a boat, with economy. Each article is
accompanied by drawings and diagrams, with minute
directions, dimensions, &c.

No. 1. The Three-Dollar Scoop.—Directions for con-
struction, with 7 illustrations. Contained in SCIENTI-
FIC AMERICAN SUPPLEMENT, No. 25. Price 10 cts.

No. 2. The Five-Dollar Rowing Skiff.—With full di-
rections for construction, 15 illustrations. Contained
in SCIENTIFIC AMERICAN SUPPLEMENT, No. 26.

No. 3. A Fourteen-Dollar Sailing Skiff.—With 14 il-
lustrations. Full directions for construction of boat,
center board, rudder, mast, sail, etc. Contained in
SCIENTIFIC AMERICAN SUPPLEMENT, No. 29. Price
10 cents.

No. 4. A Twelve-Dollar Row Boat.—14 illustrations.
Illustrates the construction of a graceful ribbed boat,
light weight. Shows the method of securing good line-
how to bend and arrange the ribs, dimensions of all the
parts, and directions for construction in full. Contained
in SCIENTIFIC AMERICAN SUPPLEMENT, No. 30.

All the above numbers of Supplement to be had at this
Office and of all News Dealers.

FOR SALE—We have seven different styles of
Tubular and Flue Boilers, both stationary and port-
able. The entire patents will be sold, or orders taken
by J. HEATHCOTE & CO., Boiler Makers,
Williamsport, Pa.

WROUGHT
IRON
BEAMS & GIRDERS

THE UNION IRON MILLS, Pittsburgh, Pa.—
The attention of Engineers and Architects is called
to our improved Wrought-Iron Beams and Girders (pat-
ented), in which the compound welds between the stem
and flanges, which have proved so objectionable in the
old mode of manufacturing, are entirely avoided. We are pre-
pared to furnish all sizes at terms as favorable as can be
obtained elsewhere. For descriptive lithograph, address
Carnegie Brothers & Co., Union Iron Mills, Pittsburgh, Pa.

Spices, Coffee, Cocoaanut, Flaxseed, Asbestos, Mica,
&c., and whatever cannot be ground by other mills.
Also for Paints, Printers' Inks, Paste Blacking, etc.
JOHN W. THOMSON, successor to JAMES BOGAR-
DUS, corner of White and Elm Sts., New York.

COMPRESSED AIR MOTIVE POWER.—For
particulars of the most recent practice, send 20 cents
for SCIENTIFIC AMERICAN SUPPLEMENT, No. 1
and 2, containing 5 engravings of the "Compressed
Air" Locomotives now in use in St. Gothard Tunnel
Works, with dimensions, etc.

WHOM IT PAYS!

As a rule, it pays best to advertise what one has to se
or wishes to purchase, in papers having the largest cir-
culation among the class of persons likely to be interested
in the article. Parties having Manufacturing Establish-
ments to sell or lease, or who wish Estimates made for
Constructing Bridges, Dams, Iron Buildings, Furnaces,
Heating Apparatus, Steam Engines, Boilers, Wood and
Iron Working Machinery, Agricultural Implements, or
Contracts for Engineering Works of all kinds, will find
that it pays to advertise in the SCIENTIFIC AMERI-
CAN.

The value of the SCIENTIFIC AMERICAN as an ad-
vertising medium cannot be over-estimated. It goes
into all the machine and workshops in the country, and
is taken at the principal libraries and reading rooms in
the United States and Europe.

The SCIENTIFIC AMERICAN and SCIENTIFIC
AMERICAN SUPPLEMENT have a larger circulation
than all other papers of their kind in the world com-
bined; and at no period since the commencement of the
publication of these papers has the weekly circulation
been as large as at the present time.

The actual issue of the SCIENTIFIC AMERICAN is
47,500 per week, and of the SCIENTIFIC AMERI-
CAN SUPPLEMENT, 15,000, making the combined
circulation, 62,500 every week.

If an thing is wanted in the mechanical line, advertise
for it in the SCIENTIFIC AMERICAN.

one has a patent or machinery to sell, advertise in
the SCIENTIFIC AMERICAN.

If any one is exhibiting at the Centennial, it will pay
them to advertise where they may be found.

For rates, see the first column of the last page of the
paper.

The Supplement.

Next to the SCIENTIFIC AMERICAN, the SCIEN-
TIFIC AMERICAN SUPPLEMENT has the largest cir-
culation of any paper of its class published. The SUP-
PLEMENT is a distinct publication from the SCIEN-
TIFIC AMERICAN, and has a large circulation other
than among the subscribers of the regular edition.
Terms for advertising are very low, as follows:

Back Page, tinted cover . . . 35c. a line } EACH
Inside page . . . . . 25c. a line } INSERTION.

Discount for large space, and to quarterly advertise-
ments. Address the publishers,

Munn & Co.,

ROMAN & KEENE'S. For Walks, Cisterns, Founda-
tions, Stables, Cellars, Bridges, Reservoirs, Breweries, etc.
Remit 10 cents for Practical Treatise on Cements.
S. L. MERCHANT & CO., 76 South St. New York.

THE CENTENNIAL INTERNATIONAL EX-
HIBITION OF 1876.—The full History and Progress
of the Exhibition, maps of the grounds, engravings of
the buildings, news and accounts of all the most notable
objects, are given weekly in the SCIENTIFIC AMERI-
CAN SUPPLEMENT. Terms, \$5 for the year; single
copies 10 cts. To be had at this office, and of all news agents.
All the back numbers, from the commencement on Jan-
uary 1, 1876, can be had. Those who desire to possess a
complete and splendidly illustrated Record of the Centen-
nial Exposition, should have the SCIENTIFIC AMERI-
CAN SUPPLEMENT.

PROSPECTUS

OF THE
SCIENTIFIC AMERICAN,
FOR 1876.

THE MOST POPULAR SCIENTIFIC PAPER
IN THE WORLD.

THIRTY-FIRST YEAR.

VOLUME XXXV.—NEW SERIES.

The publishers of the SCIENTIFIC AMERICAN
beg to announce that on the first day of July,
1876, a new volume commenced. It will continue
to be the aim of the publishers to render the con-
tents of the new volume more attractive and use-
ful than any of its predecessors.

To the Mechanic and Manufacturer.

No person engaged in any of the mechanical pur-
suits should think of doing without the SCIEN-
TIFIC AMERICAN. Every number contains from
six to ten engravings of new machines and inven-
tions which cannot be found in any other publica-
tion.

The SCIENTIFIC AMERICAN is devoted to the
interests of Popular Science, the Mechanic Arts,
Manufactures, Inventions, Agriculture, Commerce
and the industrial pursuits generally; and it is val-
uable and instructive not only in the Workshop
and Manufactory, but also in the Household, the
Library, and the Reading Room. Each volume
contains hundreds of Notes, Receipts, and Sugges-
tions and Advice, by Practical Writers, for Work-
ing Men and Employers, in all the various arts.

The Scientific American Supplement

A weekly paper, uniform in size with the SCIEN-
TIFIC AMERICAN, but a distinct publication. It
contains working drawings of engineering works,
and elaborate treatises on every branch of Science
and Mechanics, by eminent writers, at home and
abroad. An illustrated cover protects the hand-
somerly printed sheets. Price, \$5.00 per annum
Single copies 10 cents.
