W. C. DUYCKINCK, Importer, Manufacturer, and Dealer in Railway, Machinists', and Engineers' Supplies. 50 and 52 JOHN STREET, NEW YORK.

[ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for Soliciting Patents in the United States.

THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this agency, at home and abroad, than through any other in the world.

They employ as their assistants a corps of the most experienced men as examiners, specification writers, and draftsmen that can be found, many of whom have been selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed themselves of Munn & Co.'s services in examining their inventions and procuring their patents.

MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine inventions, confer with inventors, prepare drawings, specifications, and assignments, attend to filing applications in the Patent Office, paying the government fees, and watch each case step by step while pending before the examiner. This is done through their branch office, corner F and 7th streets, Washington. They also prepare and file caveats, procure design patents, trademarks, and reissues, attend to rejected cases (prepared by the inventor or other attorneys), procure copyrights, attend to interferences, give written opinions on matters of infringement, furnish copies of patents, and, in fact, attend to every branch of patent business both in this and in foreign countries.

A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this agency, with the name and residence of the patentee. Patents are often sold, in part or whole, to persons attracted to the invention by such notice.

Patents obtained in Canada, England, France, Belgium, Germany, Russia, Prussia, Spain, Portugal, the British Colonies, and all other countries where patents are granted, at prices greatly reduced from former rates. Send for pamphlet pertaining specially to foreign patents, which states the cost, time granted, and the requirements on each country.

Copies of Patents.

Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1. When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet containing the laws and full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful handbook of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, N. Y.

Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 26. Price 10 cents. No. 3. A Fourteen-Dollar Sailing Skiff.—With 4 illustrations. Full directions for construction of boat, center board, rudder, mast, &c. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 29. Price 10 cents. No. 4. A Twelve-Dollar Row Boat.—14 illustrations. Illustrates the construction of a graceful ribbed boat, light weight. Shows the method of securing good lines, how to bend and arrange the ribs, dimensions of all the parts, and direction for construction in full. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 30. All the above numbers of Supplement to be had at this Office and of all News Dealers.

SCHLENKER'S Stationary-Die and Revolving-Die Bolt Cutters. THE BEST AND CHEAPEST MADE. HOWARD IRON WORKS, Buffalo, N. Y. Send for Catalogue.

HARVARD UNIVERSITY DENTAL SCHOOL. The next year of this school begins under the new plan, Sept. 28, 1876, and ends June 27, 1877, with recess and Christmas and another in February. The teaching is consecutive through course of two years, the instruction of one year not being repeated in the next; that of the first year being identical with that of the Harvard Medical School and by the same Professors. By this plan, the amount of instruction given is double that of any other strictly dental school, and at slightly increased cost. For information, address THOMAS H. CHANDLER, Dean, 222 Tremont Street, Boston, Mass.

ROGERS' TANNATE OF SODA BOILER SCALE PREVENTIVE. JOS. G. ROGERS & CO., Madison, Ind. Send for book on Boiler Incrustation.

WROUGHT IRON BEAMS & GIRDERS

THE UNION IRON MILLS, Pittsburgh, Pa.—The attention of Engineers and Architects is called to our improved Wrought-Iron Beams and Girders (patented), in which the compound welds between the stem and flanges, which have proved so objectionable in the old mode of manufacturing, are entirely avoided. We are prepared to furnish all sizes at terms as favorable as can be obtained elsewhere. For descriptive lithograph, address Carnegie Brothers & Co., Union Iron Mills, Pittsburgh, Pa.

Planing & Matching. Moulting, Re-sawing, and Tenoning Machines. Scroll Saws and General Wood-Working Machinery. JOHN B. SCHENCK'S SONS, Matteawan, N. Y. Send for Catalogue. 118 Liberty St., N. Y. city.

The Scientific American REFERENCE BOOK. A Bound Book of 144 Pages, for 25c.

On receipt of 25 cents, we send by mail, post paid, a copy of a handsome little bound volume entitled the SCIENTIFIC AMERICAN REFERENCE BOOK, containing 144 pages illustrated with engravings, and forming one of the cheapest and most valuable books of condensed reference ever printed. Among its contents are: 1. The Census of the United States, by States, Territories, and Counties, in 1870, showing also the area of the several States. 2. Table of Occupations.—Showing the principal occupations of the people of the United States, and the number of persons engaged in each occupation. Compiled from the last Census. Table of Cities having over 10,000 inhabitants—Compiled from the last Census. 3. The Patent Laws of the United States in full. With Directions How to Obtain Patents, Official Rules, Costs, etc.; Forms for Applications for Patents and Caveats; Forms for Assignments, in whole and part; Licenses; State, Town, County, and Shop Rights; Directions How to Introduce and Sell Inventions; General Principles applicable to Infringements; Synopsis of the Patent Laws of Foreign Countries, Costs, Proceedure, Rights of Employers and Employees in respect to Inventions; State Laws concerning Patents. 4. United States Trade Mark Registration, showing the Trade Mark Law in full, with Directions for Registering Trade Marks, Costs, etc. 5. United States Copyright Law for Labels, in full. With Directions, Expenses, etc. 6. The Principal Mechanical Movements. Described and illustrated by 150 small diagrams, of great value to Inventors and Designers of Mechanism. 7. Geometry, as Applied to Practical Purposes. With illustrations. 8. The Modern Steam Engine.—With engraving, showing all the parts, names, etc., and a brief history of the Invention and Progress of Steam Power. 9. Horse Power.—Simple and plain rules for Calculating the Horse Power of Steam Engines and Streams of Water. 10. Knots.—Presenting engravings of 48 different kinds of Rope Knots, with explanations as to tying. 11. Tables of Weights and Measures.—Troy Weight; Apothecaries' Weight; Avoirdupois, or Commercial Weight; French Weights; United States Standard Weights; Metric Measure; Cubic Measure; Liquid Measure; French Square Measure; French Cubic, or Solid Measure; Measuring Land by Weight, with engraving of a section of the English and a section of the French rule, of equal length. 12. Valuable Tables: (1) Table of the Velocity and Force of the Wind. (2) Table of the Specific Gravity and Weight per Cubic Foot and Cubic Inch, of the principal substances used in the Arts. (3) Table of the Heat-Conducting Power of various Metals and other Solids and Liquids. (4) Table of the Mineral Constituents absorbed or removed from the Soil, per acre, by different crops. (5) Table of Steam Pressures and Temperatures. (6) Table of the Effects of Heat upon various bodies, melting points, etc. 13. Miscellaneous Information.—Force of Expansion by Heat; small Steamboats, proper dimensions of engines, boilers, propellers, boats; Incubation, Temperature of; To Make Tracing Paper; Constituents of various Substances; Friction, how produced, and Rules for Calculation; Specific Heat Explained; Specific Gravity of Liquids, Solids, Air, and Gases; Gunpowder—Pressure, Heat, and Horse Power of; Copying Ink, to Make; Heat, its mechanical equivalent explained; Molecules of Matter, size and motion explained; Lightning and Lightning Rods—valuable information; Value of Drainage Explained; Amount of Power at present Yielded from Coal by best Engines; Sound—its velocity and action; Liquid Glues, Recipes; Value of Brains; Properties of Charcoal; Light of Waves; Speed of Electric Spark, etc.; Valuable Recipes. The SCIENTIFIC AMERICAN REFERENCE BOOK. Price only 25 cents, may be had of News Agents in all parts of the country, and of the undersigned. Sent by mail on receipt of the price.

OF THE SCIENTIFIC AMERICAN, FOR 1876. THE MOST POPULAR SCIENTIFIC PAPER IN THE WORLD. THIRTY-FIRST YEAR. VOLUME XXXV.—NEW SERIES.

The publishers of the SCIENTIFIC AMERICAN beg to announce that on the first day of July, 1876, a new volume commenced. It will continue to be the aim of the publishers to render the contents of the new volume more attractive and useful than any of its predecessors. To the Mechanic and Manufacturer.

No person engaged in any of the mechanical pursuits should think of doing without the SCIENTIFIC AMERICAN. Every number contains from six to ten engravings of new machines and inventions which cannot be found in any other publication. The SCIENTIFIC AMERICAN is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions, Agriculture, Commerce and the industrial pursuits generally; and it is valuable and instructive not only in the Workshop and Manufactory, but also in the Household, the Library, and the Reading Room. Each volume contains hundreds of Notes, Receipts, and Suggestions and Advice, by Practical Writers, for Working Men and Employers, in all the various arts.
