 Send for book on Boiler Incrustation.

[ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for Soliciting Patents in the
 United States.

THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this
 agency, at home and abroad, than through any other in
 the world.

They employ as their assistants a corps of the most ex-
 periented men as examiners, specification writers, and
 draftsmen that can be found, many of whom have been
 selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed them-
 selves of Munn & Co.'s services in examining their in-
 ventions and procuring their patents.

MUNN & CO., in connection with the publication of
 the SCIENTIFIC AMERICAN, continue to examine in-
 ventions, confer with inventors, prepare drawings, spe-
 cifications, and assignments, attend to filing applications
 in the Patent Office, paying the government fees, and
 watch each case step by step while pending before the ex-
 aminer. This is done through their branch office, corner
 F and 7th streets, Washington. They also prepare and
 file caveats, procure design patents, trademarks, and re-
 issues, attend to rejected cases (prepared by the inventor
 or other attorneys), procure copyrights, attend to inter-
 ferences, give written opinions on matters of infringe-
 ment, furnish copies of patents, and, in fact, attend to
 every branch of patent business both in this and in for-
 eign countries.

A special notice is made in the SCIENTIFIC AMER-
 ICAN of all inventions patented through this agency, with
 the name and residence of the patentee. Patents are of-
 ten sold, in part or whole, to persons attracted to the in-
 vention by such notice.

Patents obtained in Canada, England, France, Belgium,
 Germany, Russia, Prussia, Spain, Portugal, the British
 Colonies, and all other countries where patents are
 granted, at prices greatly reduced from former rates.
 Send for pamphlet pertaining specially to foreign patents,
 which states the cost, time granted, and the requirements
 or each country.

Copies of Patents.

Persons desiring any patent issued from 1836 to Novem-
 ber 26, 1867, can be supplied with official copies at rea-
 sonable cost, the price depending upon the extent of
 drawings and length of specifications.

Any patent issued since November 27, 1867, at which
 time the Patent Office commenced printing the drawings
 and specifications, may be had by remitting to this of-
 fice \$1.

A copy of the claims of any patent issued since 1836 will
 be furnished for \$1.

When ordering copies, please to remit for the same as
 above, and state name of patentee, title of invention,
 and date of patent.

A pamphlet containing the laws and full directions for
 obtaining United States patents sent free. A hand-
 somely bound Reference Book, gilt edges, contains 140
 pages and many engravings and tables important to every
 patentee and mechanic, and is a useful handbook of ref-
 erence for everybody. Price 25 cents, mailed free.

 DUS, corner of White and Elm Sts., New York

Wood-Working Machinery,
 Such as Wood worth Planing, Tongueing, and Grooving
 Machines, Daniel's Planers, Richardson's Patent Im-
 proved Tenon Machines, Moulding, and Re-
 saw Machines, and Wood-Working Machinery gene-
 rally. Manufactured by
 WITHERBY, RUGG & RICHARDSON,
 Salisbury Street, Worcester, Mass. (Shop formerly occupied by R. BALL & CO.)

WHOM IT PAYS!

As a rule, it pays best to advertise what one has to se-
 or wishesto purchase, in papers having the largest cir-
 culation among the class of persons likely to be interested
 in the article. Parties having Manufacturing Establish-
 ments to sell or lease, or who wish Estimates made for
 Constructing Bridges, Dams, Iron Buildings, Furnaces,
 Heating Apparatus, Steam Engines, Boilers, Wood and
 Iron Working Machinery, Agricultural Implements, or
 Contracts for Engineering Works of all kinds, will find
 that it pays to advertise in the SCIENTIFIC AMER-
 ICAN.

The value of the SCIENTIFIC AMERICAN as an ad-
 vertising medium cannot be over-estimated. It goes
 into all the machine and workshop in the country, and
 is taken at the principal libraries and reading rooms in
 the United States and Europe.

The SCIENTIFIC AMERICAN and SCIENTIFIC
 AMERICAN SUPPLEMENT have a larger circulation
 than all other papers of their kind in the world com-
 bined; and at no period since the commencement of the
 publication of these papers has the weekly circulation
 been as large as at the present time.

The actual issue of the SCIENTIFIC AMERICAN is
 47,500 per week, and of the SCIENTIFIC AMER-
 ICAN SUPPLEMENT, 15,000, making the combined
 circulation, 62,500 every week.

If anything is wanted in the mechanical line, advertise
 for it in the SCIENTIFIC AMERICAN.

If one has a patent or machinery to sell, advertise in
 the SCIENTIFIC AMERICAN.

If any one is exhibiting at the Centennial, it will pay
 them to advertise where they may be found.

For rates, see the first column of the last page of this
 paper.

The Supplement.

Next to the SCIENTIFIC AMERICAN, the SCIEN-
 TIFIC AMERICAN SUPPLEMENT has the largest cir-
 culation of any paper of its class published. The SUP-
 PLEMENT is a distinct publication from the SCIEN-
 TIFIC AMERICAN, and has a large circulation other
 than among the subscribers of the regular edition.
 Terms for advertising are very low, as follows:

Back Page, tinted cover 35c. a line } EACH
 Inside page 25c. a line } INSERTION.

Discount for large space, and to quarterly advertisers.
 Address the publishers,

Munn & Co.,

OF THE

SCIENTIFIC AMERICAN, FOR 1876.

THE MOST POPULAR SCIENTIFIC PAPER
 IN THE WORLD.

THIRTY-FIRST YEAR.

VOLUME XXXV.—NEW SERIES.

The publishers of the SCIENTIFIC AMERICAN
 beg to announce that on the first day of July,
 1876, a new volume commenced. It will continue
 to be the aim of the publishers to render the con-
 tents of the new volume more attractive and use-
 ful than any of its predecessors.

To the Mechanic and Manufacturer

No person engaged in any of the mechanical pur-
 suits should think of doing without the SCIEN-
 TIFIC AMERICAN. Every number contains from
 six to ten engravings of new machines and inven-
 tions which cannot be found in any other publica-
 tion.

The SCIENTIFIC AMERICAN is devoted to the
 interests of Popular Science, the Mechanic Arts,
 Manufactures, Inventions, Agriculture, Commerce
 and the industrial pursuits generally; and it is val-
 uable and instructive not only in the Workshop
 and Manufactory, but also in the Household, the
 Library, and the Reading Room. Each volume
 contains hundreds of Notes, Receipts, and Sugges-
 tions and Advice, by Practical Writers, for Work-
 ing Men and Employers, in all the various arts.
