tion. Valuable Stock of Patterns, Boiler Shop, Machine
Shop, Blacksmith's Shop, Foundry, and other Buildings.
The present Proprietors would be willing to retain an
interest with a Skillful and Energetic Principal.

BUTTERWORTH & LOWE.

[ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for Soliciting Patents in the
United States.

THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this
agency, at home and abroad, than through any other in
the world.

They employ as their assistants a corps of the most ex-
perienced men as examiners, specification writers, and
draftsmen that can be found, many of whom have been
selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed them-
selves of Munn & Co.'s services in examining their in-
ventions and procuring their patents.

MUNN & CO., in connection with the publication of
the SCIENTIFIC AMERICAN, continue to examine in-
ventions, confer with inventors, prepare drawings, spec-
ifications, and assignments, attend to filing applications
in the Patent Office, paying the government fees, and
watch each case step by step while pending before the ex-
aminer. This is done through their branch office, corner
F and 7th streets, Washington. They also prepare and
file caveats, procure design patents, trademarks, and re-
issues, attend to rejected cases (prepared by the inventor
or other attorneys), procure copyrights, attend to inter-
ferences, give written opinions on matters of infringement,
furnish copies of patents, and, in fact, attend to every
branch of patent business both in this and in foreign
countries.

A special notice is made in the SCIENTIFIC AMER-
ICAN of all inventions patented through this agency, with
the name and residence of the patentee. Patents are of-
ten sold, in part or whole, to persons attracted to the in-
vention by such notice.

Patents obtained in Canada, England, France, Belgium,
Germany, Russia, Prussia, Spain, Portugal, the British
Colonies, and all other countries where patents are
granted, at prices greatly reduced from former rates.
Send for pamphlet pertaining specially to foreign patents,
which states the cost, time granted, and the requirements
or each country.

Copies of Patents.

Persons desiring any patent issued from 1836 to Novem-
ber 26, 1867, can be supplied with official copies at rea-
sonable cost, the price depending upon the extent of
drawings and length of specifications.

Any patent issued since November 27, 1867, at which
time the Patent Office commenced printing the drawings
and specifications, may be had by remitting to this of-
fice \$1.

A copy of the claims of any patent issued since 1836 will
be furnished for \$1.

When ordering copies, please to remit for the same as
above, and state name of patentee, title of invention, and
date of patent.

A pamphlet containing the laws and full directions for
obtaining United States patents sent free. A hand-
somerly bound Reference Book, gilt edges, contains 140
pages and many engravings and tables important to every
patentee and mechanic, and is a useful handbook of refer-
ence for everybody. Price 25 cents, mailed free.

CAUTION

We hereby give public notice and warning, that we
hold Patents covering auxiliary or supplementary Steam
Jets for raising water to start Injectors, and shall
promptly prosecute all those who infringe said patents
by either manufacturing, selling, or using the said
patented inventions. Our lifting Injectors are the only
ones capable of raising water from a depth of 18 to 20
feet and forcing it into the boilers.

NATHAN & DREYFUS,
108 Liberty Street, New York.

FOR SALE—A Valuable Patent, in whole or
part, for renovating Black-Crape Laces, &c., which
makes them superior to new. Address A. J. SHRIVER,
No. 157 West Fayette St., Baltimore, Md.

THE UNION IRON MILLS, Pittsburgh, Pa.—
The attention of Engineers and Architects is called to
our improved Wrought-Iron Beams and Girders (pat-
ented), in which the compound welds between the stem
and flanges, which have proved so objectionable in the
old mode of manufacturing, are entirely avoided. We are pre-
pared to furnish all sizes at terms as favorable as can be
obtained elsewhere. For descriptive lithograph, address
Carnegie Brothers & Co., Union Iron Mills, Pittsburgh, Pa.

Asbestos Roofing, with the Improved White Asbestos
Fire Proof Coating, for steep or flat Roofs in all climates.

Asbestos Cement, for repairing Leaks on Roofs.
Asbestos Roof Paint, for Tin Roofs, Ironwork, &c.
Asbestos Paints—all colors—for structural purposes.
Asbestos Fire Proof Coating, for wood work, &c.
Asbestos Steam Pipe and Boiler Coverings.
Asbestos Steam Packing, flat and round, all sizes.
Sheathing Felts, Vermin-Proof Lining, &c.
These articles are ready for use, and can be easily ap-
plied by any one. Send for Pamphlets, Price Lists, &c.

H. W. JOHNS 87 Maiden Lane, N. Y.,
Patentee and Manufacturer. Established 1858.

THE HEALD & SISCO

Patent Centrifugal Pumps.

VERTICAL & HORIZONTAL.
First Premiums at New Orleans, Cincinnati, and New
York. "Medal of Special Award,"
American Institute, 1872.

Perfect satisfaction guaranteed. The cheapest, simplest,
strongest, most efficient and popular Pump in use, for
emptying Dry-docks, Coffers, dams, etc., and for use in
Paper Mills, Tanneries, and Factories. STEAM PUMPS
very low, for Wrecking, Dredging, Irrigating, etc. Illus-
trated pamphlet, free. Nearly 1,000 references to actual
customers. 31 pages first class testimony. Address
HEALD, SISCO & CO., Baldwinville, N. Y.

HASKELL'S THREE CYLINDER PUMP—

Hand or Power. Cheaper than a Steam Pump.
Will outwear a Rotary Pump—do more work, with less
power, than any other pump. Not liable to get out of
order. Any blacksmith can repair it. Adapted to any
kind of hard work. Send for Circular.

CHASE MACHINE COMPANY, Boston, Mass.

The Scientific American
REFERENCE BOOK.

A Bound Book of 144 Pages, for 25c.

On receipt of 25 cents, we send by mail, post paid, a
copy of a handsome little bound volume entitled the SCI-
ENTIFIC AMERICAN REFERENCE BOOK, containing 144
pages illustrated with engravings, and forming one of
the cheapest and most valuable books of condensed re-
ference ever printed. Among its contents are:

- 1. The Census of the United States, by States,
Territories, and Counties, in full, showing also the area
of the several States.
2. Table of Occupations.—Showing the principal oc-
cupations of the people of the United States, and the
number of persons engaged in each occupation. Com-
piled from the last Census.
Table of Cities having over 10,000 inhabitants—Com-
piled from the last Census.
3. The Patent Laws of the United States in full.
With Directions How to Obtain Patents, Official Rules,
Costs, etc.; Forms for Applications for Patents and
Caveats; Forms for Assignments, in whole and part;
Licenses; State, Town, County, and Shop Rights; Di-
rections How to Introduce and Sell Inventions; General
Principles applicable to Infringements; Synopsis of the
Patent Laws of Foreign Countries, Costs, Procedure,
Rights of Employers and Employees in respect to In-
ventions; State Laws concerning Patents.
4. United States Trade Mark Registration, show-
ing the Trade Mark Law in full, with Directions for
Registering Trade Marks, Costs, etc.
5. United States Copyright Law for Labels, in
full. With Directions, Expenses, etc.
6. The Principal Mechanical Movements. De-
scribed and illustrated by 150 small diagrams, of great
value to Inventors and Designers of Mechanism.
7. Geometry, as Applied to Practical Purposes. With
illustrations.
8. The Modern Steam Engine.—With engraving,
showing all the parts, names, &c., and a brief history of
the invention and progress of Steam Power.
9. Horse Power.—Simple and plain rules for Calcu-
lating the Horse Power of Steam Engines and Streams
of Water.
10. Knots.—Presenting engravings of 48 different
kinds of Rope Knots, with explanations as to tying.
11. Tables of Weights and Measures.—Troy
Weight; Apothecaries' Weight; Avoirdupois, or Com-
mercial Weight; French Weights; United States Stand-
ard; Dry Measure; Land Measure; Cubic Measure;
Liquid Measure; French Square Measure; French
Cubic, or Solid Measure; Measuring Land by Weight,
with engraving of section of the English and a sec-
tion of the French rule, of equal length.
12. Valuable Tables:
(1) Table of the Velocity and Force of the Wind.
(2) Table of the Specific Gravity and Weight per Cubic
Foot and Cubic Inch, of the principal substances used
in the Arts.
(3) Table of the Heat-Conducting Power of various
Metals and other Solids and Liquids.
(4) Table of the Mineral Constituents absorbed or
removed from the Soil, per acre, by different crops.
(5) Table of Steam Pressures and Temperatures.
(6) Table of the Effects of Heat upon various bodies,
melting points, etc.
13. Miscellaneous Information.—Force of Expan-
sion by Heat; small Steamboats, proper dimensions of
engines, boilers, propellers, boats; Incubation; Tem-
perature of; To Make Tracing Paper; Constituents of
Various Substances; Friction, how produced, and Rules
for Calculation; Specific Heat Explained; Specific
Gravity of Liquids, Solids, Air, and Gases; Gunpow-
der—Pressure, Heat, and Horse Power of; Copying Ink,
to Make; Heat, its mechanical equivalent explained;
Moles, size and motion explained; Light-
ning and Lightning Rods—valuable information; Value
of Drainage Explained; Amount of Power at present
Yielded from Coal by best Engines; Sound—its velocity
and action; Liquid Glues, Recipes; Value of Brains;
Properties of Charcoal; Height of Waves; Speed of
Electric Spark, etc.; Valuable Recipes.

OF THE

SCIENTIFIC AMERICAN,

FOR 1876.

THE MOST POPULAR SCIENTIFIC PAPER

IN THE WORLD.

THIRTY-FIRST YEAR.

VOLUME XXXV.—NEW SERIES.

The publishers of the SCIENTIFIC AMERICAN
beg to announce that on the first day of July,
1876, a new volume commenced. It will continue
to be the aim of the publishers to render the con-
tents of the new volume more attractive and use-
ful than any of its predecessors.

To the Mechanic and Manufacturer

No person engaged in any of the mechanical pur-
suits should think of doing without the SCIENTIFIC AMERICAN. Every number contains from
six to ten engravings of new machines and inven-
tions which cannot be found in any other publica-
tion.

The SCIENTIFIC AMERICAN is devoted to the
interests of Popular Science, the Mechanic Arts,
Manufactures, Inventions, Agriculture, Commerce
and the industrial pursuits generally; and it is va-
luable and instructive not only in the Workshop
and Manufactory, but also in the Household, the
Library, and the Reading Room. Each volume
contains hundreds of Notes, Receipts, and Sugges-
tions and Advice, by Practical Writers, for Work-
ing Men and Employers, in all the various arts.
