B. K. BLISS & SONS, 84 BARCLAY ST., (P. O. BOX 5712.) NEW YORK.

PATENTS

[ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for eliciting Patents in the United States.

THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this agency, at home and abroad, than through any other in the world.

They employ as their assistants a corps of the most experienced men as examiners, specification writers, and draughtsmen, that can be found, many of whom have been selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed themselves of Munn & Co.'s services in examining their inventions and procuring their patents.

MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine inventions, confer with inventors, prepare drawings, specifications, and assignments, attend to filing applications in the Patent Office, paying the Government fees, and watch each case, step by step, while pending before the examiner.

This is done through their branch office, corner F and 7th Sts., Washington. They also prepare and file caveats, procure design patents, trade marks, and reissues, attend to rejected cases (prepared by the inventor or other attorneys) procure copyrights, attend to interferences, give written opinions on matters of infringement, furnish copies of patents, and, in fact, attend to every branch of patent business, both in this and in foreign countries.

A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this agency, with the name and residence of the patentee. Patents are often sold, in part or whole, to persons attracted to the invention by such notice.

Patents obtained in Canada, England, France, Belgium, Germany, Russia, Prussia, Spain, Portugal, the British Colonies, and all other countries where patents are granted, at prices greatly reduced from former rates. Send for pamphlet pertaining specially to foreign patents, which states the cost, time granted, and the requirements for each country.

Copies of Patents. Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1838 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents, sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful handbook of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, N. Y.

BRANCH OFFICE—Corner of F and 7th Streets, Washington, D. C.

EMERSON'S PATENT

Nearly 1,000 in operation, and

READ! READ!! READ!!!

1,000,000 extra bits sold per year.

"Yesterday, by accident, by the log springing and drawing the headblock forward, we saved the end of it clear off, which is of wrought iron, 3 inches by 1/2 inch thick; thirty bits, costing 90 cents, was the only damage to the Planer Saw. In twenty minutes it was running again all right. Signed, AARON HICKS, of the firm of Messrs. Hess & Co., and certified to by Wm. A. Sprott, a Millwright and Architect."

"Your 54 inch Planer Saw, in H. P. Stanton's Mill, sawed 45,506 feet of hemlock lumber with one set of Bits (30), just as they came from your works, without sharpening, and never made a bad run; has that ever been beat?"

N. B.—Read next week's advertisement. For circular and price list, send your address, plainly written, to Emerson, Smith & Co., Beaver Falls, Pa., successors to Emerson, Ford & Co.

MACHINERY OF IMPROVED STYLES FOR MAKING SHINGLES, HEADING and STAVING; also GAUGE LATHES for TURNING HANDLES. Sole-makers of Law's Pat. Shingle and Heading Sawing Machine. Address TREVOR & CO., Lockport, N. Y.

AND AIR COMPRESSORS. MANUFACTURED BY BURLEIGH ROCK DRILL CO. SEND FOR PAMPHLET. FITCHBURG, MASS.

BEFORE PURCHASING PAINTS OR ROOFING, SEND FOR SAMPLES, AND REDUCED PRICE-LIST OF

H.W. JOHNS' PATENT ASBESTOS MATERIALS

ASBESTOS ROOFING.—This article is now well known in all parts of this country as the only reliable standard, low-priced Roofing. It is furnished in rolls ready for nailing to the roof, weighs only about 60 lbs. to 100 square feet, and when finished with the FIRE-PROOF Asbestos Coating presents a handsome white or light-gray surface. It is adapted for steep and flat roofs in all climates, costs only about half as much as tin, and can be readily applied by any one.

Do not be deceived by worthless materials which are represented by unscrupulous parties as genuine ASBESTOS ROOFING. THERE IS NO OTHER RELIABLE PORTABLE ROOFING IN THE MARKET. The cheap, tarred felts, petroleum oil paints, &c., which are sold as Roofings under various names, and warranted by irresponsible vendors to be more durable than the standard articles, are a source of constant annoyance and expense, while a reliable Roofing from reputable manufacturers can be purchased at about the same price asked for these worthless articles.

ASBESTOS ROOF PAINT.—This is a better article than has ever before been offered for this purpose. It contains no tar or cheap oils, and forms the handsomest and most durable preservative coating in use, for tin and other roofs, iron-work, fences, outbuildings, etc. It is furnished ready for use in packages of all sizes.

ASBESTOS PAINTS.—These Paints are in every respect strictly first-class, and second to no others in the market in purity, richness, and permanency of color, beauty of finish, and durability. They are prepared ready for the brush, in twelve newest shapes, suitable for the tasteful decoration of all classes of buildings. They possess a superior body, and are more economical than any others, two coats being fully equal to three of any of the various liquid chemical paints, which contain water, alkali, soap, etc. Send for samples.

We guarantee these paints to be the best in the world for general structural purposes.

ASBESTOS STEAM-PIPE AND BOILER COVERINGS.—The most durable and effective non-conductors in use—proved superior to all others in U. S. Government tests—a perfect insulator for hair felts, rendering them indestructible.

ASBESTOS STEAM PACKING.—Made from pure long-fibre ASBESTOS. Self-Lubricating; Indestructible. ASBESTOS FIRE-PROOF PAINT for wood-work. ASBESTOS CEMENT for repairing acid and gas retorts, leaky roofs, etc. ASBESTOS BOARDS, PAPER, THREAD, CLOTH, SHEATHING, AND LINING FELTS, etc. All these materials are prepared for use in neat and compact form, are suitable for all climates, and can be easily applied by any one. Liberal inducements to General Merchants, Dealers, and Large Consumers.

H. W. JOHNS MANUFACTURING COMPANY, 87 MAIDEN LANE, NEW YORK.

SEND FOR SAMPLES, ILLUSTRATED PAMPHLETS, PRICE-LISTS, ETC. Also for sale by DOWNIE, TRAINER & CO., Boston; S. W. HEMPSTEAD & CO., Columbus, O.; T. S. & A. J. KIRKWOOD, Chicago; M. M. BUCK & CO., St. Louis; H. D. COLEMAN & BRO., New Orleans; THOMPSON & UPSON, San Francisco.

CAUTION.—The public are cautioned against purchasing or using any materials for the above or similar purposes, purporting to contain ASBESTOS, unless they bear our name and dates of patents. When writing, please state you saw this advertisement in the SCIENTIFIC AMERICAN.

Prospectus

OF THE SCIENTIFIC AMERICAN

For 1877, THE MOST POPULAR SCIENTIFIC PAPER IN THE WORLD.

THIRTY-SECOND YEAR.

VOLUME XXXVI.—NEW SERIES.

The publishers of the SCIENTIFIC AMERICAN beg to announce that on the sixth day of January, 1877, a new volume was commenced. It will continue to be the aim of the publishers to render the contents of the new volume more attractive and useful than any of its predecessors.

To the Mechanic and Manufacturer. No person engaged in any of the mechanical pursuits should think of doing without the SCIENTIFIC AMERICAN.

Every number contains from six to ten engravings of new machines and inventions which cannot be found in any other publication.

TERMS OF SUBSCRIPTION. One copy of the SCIENTIFIC AMERICAN will be sent for one year, 52 numbers, POSTAGE PREPAID, to any subscriber in the United States or Canada, on receipt of three dollars and twenty cents by the publishers.

One extra copy of the SCIENTIFIC AMERICAN will be supplied gratis for every club of five subscribers at \$3.20 each; or six copies for \$16.50 without extra copy. Postage free.

The Scientific American Supplement. A weekly paper, uniform in size with the SCIENTIFIC AMERICAN, but a distinct publication. It contains working drawings of engineering works, and elaborate treatises on every branch of Science and Mechanics, by eminent writers, at home and abroad. An illustrated cover protects the handsomely printed sheets. Price, \$5.00 per annum. Single copies 10 cents.

One copy of the SCIENTIFIC AMERICAN and one copy of the SCIENTIFIC AMERICAN SUPPLEMENT will be sent for one year, postage prepaid, to any subscriber in the United States or Canada, on receipt of seven Dollars by the publishers.

The safest way to remit is by Postal-Order, Draft, or Express. Money carefully placed inside of envelopes, securely sealed, and carefully addressed, seldom goes astray; but it is at the sender's risk. Address all letters and make all orders, drafts, etc., payable to

MUNN & CO., 37 PARK ROW, NEW YORK.

THE "Scientific American" is printed with CHAS. TENEU JOHNSON & CO.'S INK. Tenth and Lombard Sts., Philadelphia, and 59 Gold St., New York.
