BAKER'S Rotary Pressure Blower

Warranted superior to any other. WILBRAHAM BROS. No. 2313 Frankford Avenue, Philadelphia.

[ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for soliciting Patents in the United States.

THIRTY YEARS' EXPERIENCE!

MORE PATENTS have been secured through this agency, at home and abroad, than through any other in the world.

They employ as their assistants a corps of the most experienced men as examiners, specification writers, and draughtsmen, that can be found, many of whom have been selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed themselves of Munn & Co.'s services in examining their inventions and procuring their patents.

MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine inventions, confer with inventors, prepare drawings, specifications, and assignments, attend to filing applications in the Patent Office, paying the Government fees, and watch each case, step by step, while pending before the examiner. This is done through their branch office, corner F and 7th Sts., Washington. They also prepare and file caveats, procure design patents, trademarks, and reissues, attend to rejected cases (prepared by the inventor or other attorneys), procure copyrights, attend to interferences, give written opinions on matters of infringement, furnish copies of patents, and, in fact, attend to every branch of patent business, both in this and in foreign countries.

A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this agency, with the name and residence of the patentee. Patents are often sold, in part or whole, to persons attracted to the invention by such notice.

Patents obtained in Canada, England, France, Belgium, Germany, Russia, Prussia, Spain, Portugal, the British Colonies, and all other countries where patents are granted, at prices greatly reduced from former rates. Send for pamphlet pertaining specially to foreign patents, which states the cost, time granted, and the requirements for each country.

Copies of Patents.

Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1838 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents, sent free. A handsomely bound Reference Book, gilt edges, cont ins 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful handbook of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, N. Y.

FOOT POWER TENONING MACHINES FOR SALE By S. C. HILLS, 78 Chambers St., New York.

"IN ALL THINGS, BUT PROVERBIALY IN MECHANISM, THE SUPREME EXCELLENCE IS SIMPLICITY."—Jas. Watt.

The Old Reliable Heald & Sisco Pump

Carries off the honors at the CENTENNIAL. The award of the Judges is based on its "SIMPLICITY, compactness, and perfection of WORKMANSHIP." No higher praise could be given, but no award whatever was necessary to strengthen the confidence of thousands already using them. Whenever subjected to severe practical tests, they have always proved their superiority over other centrifugal pumps, and always will, as it is absolutely impossible to devise a pump which can excel it for simplicity, tremendous capacity, and cheapness. Capacity of Pumps from one hundred gallons to thirty-five thousand gallons per minute. For Paper Makers, Tanners, Contractors, for irrigation, or for any purpose where a large quantity of water or other fluid is to be raised, the Heald & Sisco Pump stands without a rival. More than three hundred paper makers use them. More than three hundred tanners use them. They are used in every State of the Union, and in nearly every country in the world. Pumps alone, and Pumps and Engines combined, adapted to nearly every kind of work, on hand and built at short notice. First premiums awarded at New Orleans in 1871, in Cincinnati in 1872, and an award for Special Merit at the American Institute in 1872. Send for illustrated pamphlet of 78 pages, with 18 pages of certificates and references. Address HEALD, SISCO & CO., Baldwinville, N. Y.
