LUMBER MILLS

need exact motion. The Allen Governor gives the full force of the steam as the saw strikes the log and shuts it off when no longer needed. It holds engines steadier than any other governor ever made; is simple in construction, not liable to get out of order, permits the speed of the engine to be changed at will, is neat in appearance, noiseless, very durable, saves the engineer's time, saves fuel, and is at once the most powerful and most sensitive governor ever made.

LARGE SAW AND PLANING MILL.

Cor. Portland and Traverse Sts., Boston, Nov. 5, 1874. ALLEN GOVERNOR CO. -- In reply to your inquiry we would say: We have a 125 horse-power engine, which drives two 6-foot circular saws, two 4-foot circular saws, an upright mill saw, a large veneer cutting machine, a 14-foot elevator, a planer, and other machinery. The work done by our engine is constantly varying, and the changes are very great. The engine never ran steadily until about three months ago, when we attached to it the Allen Governor. Since then it has been governed absolutely, running with perfect steadiness at all times with the throttle wide open. We find that with this governor we have been able to do more and better work and save greatly in fuel. H. PARKER & CO. Address GERARD B. ALLEN & CO., St. Louis. FRASER & CHALMERS, Chicago. [ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for soliciting Patents in the United States.

THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this agency, at home and abroad, than through any other in the world.

They employ as their assistants a corps of the most experienced men as examiners, specification writers, and draughtsmen, that can be found, many of whom have been selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed themselves of Munn & Co.'s services in examining their inventions and procuring their patents.

MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine inventions, confer with inventors, prepare drawings, specifications, and assignments, attend to filing applications in the Patent Office, paying the Government fees, and watch each case, step by step, while pending before the examiner. This is done through their branch office, corner F and 7th Sts., Washington. They also prepare and file caveats, procure design patents, trade marks, and reissues, attend to rejected cases (prepared by the inventor or other attorneys), procure copyrights, attend to interferences, give written opinions on matters of infringement, furnish copies of patents, and, in fact, attend to every branch of patent business, both in this and in foreign countries.

A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this agency, with the name and residence of the patentee. Patents are often sold, in part or whole, to persons attracted to the invention by such notice.

Patents obtained in Canada, England, France, Belgium, Germany, Russia, Prussia, Spain, Portugal, the British Colonies, and all other countries where patents are granted, at prices greatly reduced from former rates. Send for pamphlet certifying specially to foreign patents, which states the cost, time granted, and the requirements for each country.

Copies of Patents.

Persons desiring a patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents, sent free. A handsomely bound Reference Book, gilt edges, containing 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful handbook of reference for everybody. Price 25 cents, mailed free.

1872, 1873, 1874, 1875, 1876, SCIENCE RECORD.

A few copies of these splendid books, copiously illustrated, are offered at the following very low prices. Persons desiring a condensed history of the most interesting Facts and Discoveries in the Arts, Sciences, and Inventions, for the years from 1872 to 1876, will find them recorded in the five volumes of the SCIENCE RECORD, now offered at half the original price.

Every Department of Science is treated in these volumes, and the important discoveries of the several years are not only faithfully described, but many of the subjects are illustrated with finely executed engravings, prepared expressly for these Annuals.

Among the subjects, the following are the most noteworthy, exhibiting in a condensed form a general account of the Progress of the World:

CHEMISTRY AND METALLURGY, MECHANICS AND ENGINEERING, ELECTRICITY, LIGHT, HEAT, SOUND, TECHNOLOGY, THE USEFUL ARTS, BOTANY AND HORTICULTURE, AGRICULTURE, RURAL AND HOUSEHOLD ECONOMY, NATURAL HISTORY, THERAPEUTICS, HYGIENE, METEOROLOGY, TERRESTRIAL PHYSICS, GEOGRAPHY, GEOLOGY AND MINERALOGY, ASTRONOMY, BIOGRAPHY AND NECROLOGY.

Each yearly volume contains about 600 octavo pages, including a large number of handsome engravings. They are bound in substantial and handsome bindings, and will be mailed on receipt of \$1.25 each, or \$5 for the set of five volumes.

They were published and heretofore sold at \$2.50 each, or \$10 for the set.

State in remitting for a single volume, which year, from 1872 to 1876, is desired, remembering that the date of the volume covers the events and discoveries of the previous year. Sent by mail on receipt of price. Address
