

Advertisements.

Inside Page, each insertion --- 75 cents a line. Back Page, each insertion --- \$1.00 a line.

Engravings may head advertisements at the same rate per line, by measurement, as the letter press. Advertisements must be received at publication office as early as Friday morning to appear in next issue.

Iron Mills and Foundries

Can save hundreds of dollars every month by even and exact motion of their machinery, which can be attained only by using the Allen Governor. This Governor is simple in construction, not liable to get out of order, permits the speed of the engine to be changed at will, is neat in appearance, noiseless, very durable, saves the engineer's time, saves fuel, and is at once the most powerful and most sensitive governor ever made.

Largest Rolling-Mill in the Country. PENNSYLVANIA STEEL CO., PHILA., PA., Feb. 27, 1875.

S. B. ALLEN.—We are using one of your 8-inch Governors on our Rolling-Mill Engine, which has a 40-inch cylinder, stroke 60 inches, running 65 revolutions per minute. Previous to using your Governor we had the greatest difficulty in regulating the speed. Your Governor has entirely remedied that evil, and gives us entire satisfaction in every particular. We also run one of your 3-inch Governors. By their performance, you have not only secured our patronage, but our gratitude for supplying a long-felt want. Yours truly, L. S. BENT, Supt.

GERARD B. ALLEN & CO., St. Louis. FRASER & CHALMERS, Chicago. NEW ORLEANS MACHINERY DEPOT, New Orleans. PACIFIC IRON WORKS, San Francisco. FILER, TOWELL & CO., Milwaukee, Wis., or THE ALLEN GOVERNOR CO., Boston.

To be had at this office and of all newsdealers.

[ESTABLISHED 1846.]

Munn & Co.'s Patent Offices.

The Oldest Agency for soliciting Patents in the United States.

THIRTY YEARS' EXPERIENCE.

MORE PATENTS have been secured through this agency, at home and abroad, than through any other in the world.

They employ as their assistants a corps of the most experienced men as examiners, specification writers, and draughtsmen, that can be found, many of whom have been selected from the ranks of the Patent Office.

SIXTY THOUSAND inventors have availed themselves of Munn & Co.'s services in examining their inventions and procuring their patents.

MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine inventions, confer with inventors, prepare drawings, specifications, and assignments, attend to filing applications in the Patent Office, paying the Government fees, and watch each case, step by step, while pending before the examiner. This is done through their branch office, corner F and 7th Sts., Washington. They also prepare and file caveats, procure design patents, trade marks, and reissues, attend to rejected cases (prepared by the inventor or other attorneys), procure copyrights, attend to interferences, give written opinions on matters of infringement, furnish copies of patents, and, in fact, attend to every branch of patent business, both in this and in foreign countries.

A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this agency, with the name and residence of the patentee. Patents are often sold, in part or whole, to persons attracted to the invention by such notice.

Patents obtained in Canada, England, France, Belgium, Germany, Russia, Prussia, Spain, Portugal, the British Colonies, and all other countries where patents are granted, at prices greatly reduced from former rates. Send for pamphlet pertaining specially to foreign patents, which states the cost, time granted, and the requirements for each country.

Copies of Patents.

Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents, sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful handbook of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, N. Y.
