CAVEA'TS, COPYRIGHTS, TRADE MARKS, ETC.

Messrs. Munn & Co., in connection with the publication of the Scientific American, continue to examine Improvements, and to act as Solicitors of Patents for

In this line of business they have and over thirty YEARS' EXPERIENCE, and now have unequaled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Trade Marks, Copyrights, Desi ns. Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases. Hints on the Sale of Patents, etc.

Foreign Patents .- We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mivd that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents-embracing Canadian, English, German, French, and Belgian-will secure to an inventor the exclusive monopoly to his discovery among about one HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obthined abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50

issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

time the Patent Office commenced printing the drawings and specifications, may be had by remitting to

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invenf.on, and date of patent.

A pamphlet, containing full directions for obtaining United states patents, sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. THE SUCCESS.

Why is the Success ahead? Because its great merits were attested by the managers of the late Centennial in causing the first award on Turbines to be given it, and in selecting it as the Standard Wheel for estimating the leakage of the wheels of the world there represented. Because it gives over 80 per cent. of power under Part as well as RULL GATE. Send for descriptive Pamphlet and Price List to S. M. SMITH, York, Pa.

"IN ALL THINGS, BUT PROVERBIALLY IN MECHANISM, THE SUPREME EXCELLENCE IS SIMPLICITY."—Jas. Watt.

The Old Reliable Heald & Sisco Pump Carries of the honors at the CENTEN-NIAL. The award of the Judges is based on its "SIMPLICITY, compactness, and perfection of WORKMANSHIP."

No higher praise could be given, but no award whatever was necessary to strengthen the confidence of thousands already using them. Whenever subjected to severe practical tests, they have always proved their superiority over other centrifugal pumps, and always will, as it is absolutely impossible to devise a pump which can excel it for simplicity, tremendous capacity, and cheapness. Capacity of Pumps from one nundred gallons to thirty-live thousand gallons per minut. For Paner Makers, Tunners, Contractors; for irrigation, or for any purpose where a large quantity of water or other fluid is to be raised, the Heald & Sisco Pump stands without a rival. More than three hundred paper makers use them. More than three hundred tanners use them. They are used in every State of the Union, and in nearly every country in the world. Pumps alone, and Pumps and Engines combined, adapted to nearly every kind of work, on hand and built at short notice.

First premiums awarded at New Orleans in 1871, in Cincinnat in 1872, and an award for Special Merit at the American Institute in 1872. Send for illustrated pamphlet of 78 pages, with 18 pages of certificates and references. Address
