UPRIGHT DRILLS SEND FOR H.BICKFORD CincinnaliO.

No Sawdust! No Planing! 50 p. c. of Wood Saved. No Sawdust! No Planing! 50 p. a of Wood Saved,
The lumber, as manufactured by our recently patented
Cutting Machines and Seasoning Presses, is fully equal,
if not superior, to that sawed and planed The large
loss of wood heretofore wasted in sawdust and planing
being saved by our mode of manufacture, enables us to
offer specially low figures to the trade and large buyers.
We have in stock, or will out to order, as desired. Wait
nut, Mahogany, Spanish Cedar, Whitewood, etc., of any
thickness, from 1-16 to ½ inch, at prices that cannot be
suppreached outside of our establish ment. It must be
understood that our lumber requires no planing, and
that the thicknesses are the same as of sawed boards in
the rough of 1-16 to ½ thicker. It needs but one trial of
our lumber to remove all prejudice against cut wood, as
the boards, as manufactured by us, have all the merits
we claim for them, being fully equal to sawed wood.

GEO. W. READ & CO., 186 to 200 Lewis St., N. Y.

CAVEA'IS, COPYRIGHTS, TRADE MARKS, ETC.

Messrs. Munn & Co., in connection with the publication of the Scientific American, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have and over THIRTY YEARS' EXPERIENCE, and now have unequaled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Trade Marks, Copyrights, Designs, Patents, Appeals, Reissues. Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

Foreign Patents.-We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents-embracing Canadian, English, German, French, and Belgian-will secure to an inventor the exclusive monopoly to his discovery among about one HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obthined abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents.-Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents, sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.

WANTED-CANVASSERS ON A SPLENDID WORK. Best terms ever offered. P. O. Box 2793, Philadelphia.

Before purchasing Paints or Roofing, send for Samples and REDUCED Price List of

LIQUID PAINTS.—These Paints are in every respect strictly first-class, and second to no other in the market in purity, richness, and permanency of color, beauty of finish, and durability. They are prepared ready for the brush, in twelve newest shades and standard colors, suitable for the tasteful decoration of all classes of buildings, inside and out, and for all purposes where a perfect protective coating is required. Owing to the wonderful covering properties of these Paints, the farmer, merchant, or manufacturer can, by their use, preserve and beautify their buildings, fences, or other wood and iron work, at from one-half to two-thirds of the usual cost of other ready-mixed paints, or white lead and linseed oil. They contain no water, alkali, or other useless or deleterious ingredients, such as are used in nearly all the liquid or so-called chemical paints, and are guaranteed to be the mot durable paints in the world for outside work.

mixed paints, or white lead and linseed oil. They contain no water, amail, to the read a used in nearly all the liquid or so-called chemical paints, and are quaranteed to be the mot durable paints in the world for outside work.

ROOF PAINT For tin and shingle roofs, iron work, agricultural implements, fences, out-buildings, &c. We quarantee this to be a better article than has ever before been offered to the rubble for similar purposes. The largest area of tin roof in the world (the Permanent Exhibition Building at Philadelphia), which was in a very leaky condition, has been painted and restored with this Paint where all others had falled.

FIREPROOF PAINT—For the protection of Factories, Bridges, Boiler Rooms, and other wooden structures in danger of ignition from sparks, cinders, or fiames.

These Paints are sold by standard U.S., gallon measure, and our packages contain from fight to twelve Per Cent. MREE PAINT than those usually sold.

ROOFING—In rolls, ready for nailling to the roof, weighs only 60 pounds to 100 square feet, and, when finished with the White Fire-Proof Asbestos Conting, forms the handsomest, coolest, and most economical Roofing in use. It is adapted for steep and fat Roofs in all climates, costs only about half as much as tin, and can be ready, published for steep and fat Roofs in all climates, costs only about half as much as tin, and can be known for preventing radiation of heat; will save from 25 to 40 per cent. of fuel. They are Fireproof, and consist of Asbestos Cement Felting, in barrels; to be applied with a trowel—for the Blast and Steam Figes, Boilers, &c. Asbestos Lining Felt, in sheets and rolls—a perfect insulator for half felts, rendering them indestructible.

ASBESTOS STRAM PACK ING, Round, Flat, and Loose. ASBESTOS BOARD, all thicknesses, for Gaskets, &c. CENENTS, for Gas Retorts, Leaky Roof, &c. FIRE, ACID, AND WATERPROOF.

COATINGS, SILATHINGS, LININGS, &c.

All these materials are prepared ready for use, in neat and compact form, are suitable for all climates, and can be

NIAL. The award of the Judges is based on its "SIMPLICITY, compactness, and perfection of WORKMANSHIP."

workmanship."

No higher praise could be given, but no award whatever was necessary to strengthen the confidence of thousands already using them. Whenever subjected to severe practical tests, they have always proved their superiority over other centrifugal pumps, and always will, as it is absolutely impossible to devise a pump which can excel it for simplicity, tremendous capacity, and cheapness. Capacity of Pumps from one numerical gallons to thirty-five thousand gallons per minute. For Paper Makers, Tanners, Contractors, for irrigation, or for any purpose where a large quantity of water or other finid is to be raised, the Heald & Sisco Pump stands without a rival. More than three hundred paper makers use them. More than three hundred tanners use them. They are used in every State of the Union, and in nearly every country in the world. Pumps alone, and Pumps and Engines combined, adapted to nearly every kind of work, on hand and built at short notice.

First premiums awarded at New Orleans in 1871, in cincinnat in 1872, and an award for Special Merit at the American Institute in 1872. Send for illustrated pamphlet of 78 pages, with 18 pages of certificates and references. Address
