**PATENTS**  
CAVEATS, COPYRIGHTS, TRADE MARKS, ETC.

Messrs. Munn & Co., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine improvements, and to act as Solicitors of Patents for inventors.

In this line of business they have had over THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Trade Marks, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

**Foreign Patents.**—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly to his discovery among over ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

**Copies of Patents.**—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents, sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.

**WROUGHT IRON BEAMS & GIRDERS**

**THE UNION IRON MILLS,** Pittsburgh, Pa., Manufacturers of improved wrought iron Beams and Girders (patented). The great fall which has taken place in the prices of iron, and especially in Beams used in the construction of FIRE PROOF BUILDINGS, induces us to call the special attention of Engineers, Architects, and Builders to the undoubted advantages of now erecting Fire Proof structures; and by reference to pages 52 & 54 of our Book of Sections—which will be sent on application to those contemplating the erection of fire proof buildings—THE COST CAN BE ACCURATELY CALCULATED, the cost of insurance avoided, and the serious losses and interruption to business caused by fire; these and like considerations fully justify any additional first cost. It is believed, that were owners fully aware of the small difference which now exists between the use of Wood and Iron, that in many cases the latter would be adopted. We shall be pleased to furnish estimates for all the Beams complete, for any specific structure, so that the difference in cost may at once be ascertained. Address

**TO WATCH SPECULATORS**

We have the best Imitation Gold Watch in the Market for Trading Purposes. The metal is a composition of other metals, so closely resembling gold that the best judges find it difficult to detect the difference, except by a chemical test, and its 'heaviness' is due to the gold known. AMERICAN MOVEMENT. EXPANSION BALANCE. BEAUTIFULLY ENGRAVED OR ENGINE TURNED. Spanish Cedar, Whitewood, etc., of any thickness, from 1-16 to 1/2 inch, at prices that cannot be approached outside of our establishment. It needs but one trial of our lumber to remove all prejudice against cut wood, as the boards, as manufactured by us, have all the merits we claim for them, being fully equal to sawed wood. GEO. W. READ & CO., 186 to 200 Lewis St., N. Y.

**ENCYCLOPEDIA BRITANNICA.**  
Ninth Edition.—American Reprint.

This great work is beyond comparison superior in its elaborate and exhaustive character to all similar works. The contributors are the most distinguished and original thinkers and writers of the present and of the past. This issue is the Ninth revision in a space of over one hundred years since its inception, and this reprint, a copy in every particular of the British Edition now in course of publication, is the best and cheapest work ever offered to the American people. The articles are written in a most attractive style, and the quantity of matter in each volume is one-third greater per volume than in any other Cyclopaedia sold at the same rates. The work contains thousands of Engravings on Steel and Wood, and is printed from entirely new type made expressly for it. It will be comprised in twenty-one Imperial octavo volumes, six of which are now ready, and the succeeding volumes will be issued at the rate of three a year.

Price per vol., extra cloth binding.....\$5.00.  
In half Turkey Morocco, extra.....\$7.00.  
Sold only by subscription.  
A neat Pamphlet, giving specimens of pages, cuts, full-page illustrations, list of contributors, etc., will be mailed gratis to applicants.
