From 20 to 40 per cent. of customary outlays for Paints, Roofing, &c., can be saved. Send for Samples and reduced Price Lists.

H. W. JOHNS' ASBESTOS LIQUID PAINTS.

Pure, Undiluted Paints, Full Body and Full U. S. Standard Measure.

No other paints for structural purposes equal ours in richness and purity of color, covering capacity and durability. They are especially adapted for exposed wood and iron, but are equally desirable for inside and general work. Two coats of these paints form a handsomer and more durable protective coating than three coats of the best white lead and linseed oil, or any other paints in use. We can therefore guarantee a saving of from 20 to 40 per cent. of the usual cost of painting.

The Contract for Supplying Paints for the Gilbert Elevated Railroad of New York City was Awarded to Us. This is the largest contract ever made for painting any single structure in this country. ROOF PAINT for tin and shingle roofs, iron work, agricultural implements, fences, out-buildings, etc. We guarantee this to be a better and more economical paint than has ever before been offered to the public for similar purposes.

This Paint was used with entire success, when all others failed, upon the roof of the Exhibition Buildings at Philadelphia, the largest area of Tin Roofing in the world. FIRE-PROOF PAINT for the protection of inside wood-work of factories, bridges, boiler rooms, and other wooden structures in danger of ignition from sparks, cinders, or flames.

This Paint has been applied to more than four and a half acres of wood-work in the two immense Dry Goods Stores of Messrs. A. T. Stewart & Co., of New York City.

ASBESTOS ROOFING, With White Fireproof Coating.

This well known Roofing is now in use in all parts of the world, and is the only reliable substitute for tin. It is suitable for steep or flat roofs in all climates, and forms the coolest and most durable portable roofing in use. In rolls ready for use: costs only half as much as tin; easily applied by any one.

The Asbestos Roofing is used in preference to all others by the Kingsford Oswego Starch Factory, Remington & Sons, Cheney Bros., Columbus Car and Wheel Works, and by the most extensive Manufacturers, Builders, Railroad Companies, etc., in the United States.

ASBESTOS BOILER COVERINGS,

Consisting of ASBESTOS CEMENT FELTING, to be applied like a mortar, and ASBESTOS AIR CHAMBER COVERING, in sheets and rolls, for Hot Air and Steam Pipes, Boilers, and other heated surfaces. The most durable, effective, and economical appliances known for preventing Radiation of Heat; will save from 25 to 40 per cent. of fuel.

Used by the United States Navy Department and in most extensive Public Buildings.

Asbestos Steam Packing, Boards for Gaskets, Sheathings, Fire, Acid, and Water-proof Coatings, Cements for Gas Retorts, Leaky Roofs, etc.

All these materials are prepared ready for use, and can be easily applied by any one.

LIBERAL INDUCEMENTS TO GENERAL MERCHANTS, BUILDERS, AND LARGE CONSUMERS. Send for Samples, Illustrated Catalogues, Price Lists, &c.

Also Steam Pumps, Water Motors and Water Meters. See SCIENTIFIC AMERICAN SUPPLEMENT, January 27th, 1877. Prices largely reduced July 1st, 1877.

PATENTS

CAVEATS, COPYRIGHTS, TRADE MARKS, ETC.

Messrs. Munn & Co., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had over THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business entrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Trade Marks, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

Foreign Patents.—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly to his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents.—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, N. Y.

BRANCH OFFICE—Corner of F and 7th Streets, Washington, D. C.
