

The Scientific American EXPORT EDITION.

PUBLISHED MONTHLY.

THE SCIENTIFIC AMERICAN Export Edition is a large and SPLENDID PERIODICAL, issued once a month, forming a complete and interesting Monthly Record of all Progress in Science and the Useful Arts throughout the World.

(1.) Most of the plates and pages of the four preceding weekly issues of the SCIENTIFIC AMERICAN, with its SPLENDID ENGRAVINGS AND VALUABLE INFORMATION.

(2.) Prices Current, Commercial, Trade, and Manufacturing Announcements of Leading Houses. In connection with these Announcements many of the Principal Articles of American Manufacture are exhibited to the eye of the reader by means of SPLENDID ENGRAVINGS.

NOW READY.

THE SCIENTIFIC AMERICAN EXPORT EDITION FOR NOVEMBER, 1878, WITH ONE HUNDRED ILLUSTRATIONS.

GENERAL TABLE OF CONTENTS

Of the SCIENTIFIC AMERICAN Export Edition for November, 1878.

I.—INVENTIONS, DISCOVERIES AND PATENTS.

The Incoming Commissioner of Patents. A South Australian Offer for an Improvement. The Forster-Firming Mangle. Three engravings. Lyman's Trigonometer. One figure. Patent law. The Benefits of Patent Rights. Hop Picking by Machinery. Description of Recent Most Important Agricultural Inventions. Displays of Ingenuity at the Boston Mechanics Fair. Description of Recent Most Important Mechanical Inventions. New Wilson Oscillating Sewing Machine. Seven figs. A Nail Gun. Who will Invent a Satisfactory Milking Machine? The Hermetical Sanitary Closet. One engraving. New Refrigerator Basket. Two engravings. New Fireproof Shutter. One engraving. Inventors Needed in England. New Foot Power. One engraving. New Wool Scouring and Rinsing Machine. One eng. New Measuring Jacket. Three engravings. New Rheostat. Two engravings. The Paris International Patent Congress. Patent Rights, and Who Oppose Them. New Gas Regulator. Three engravings. Combined Traction Engine and Steam Fire Engine. One engraving. Van Renne's Calcic Engine and Pump. Three engs. The Watson Pump. One engraving. The Swedish Buckeye Machine. Pipe Wrench and Cutter. Two engravings. Drilling Square Holes. Four figures. Description of Recent Most Important Engineering Inventions. New Mortising Machine. One engraving. New Steam Fire Engine. One engraving. New Bank Note Paper Wanted. The Proposed Addition to the Patent Office. Two engravings. A Year's Work in the Patent Office. New Rule in Trade Mark Cases. Electric Light in Chancery. Novel Egg Opener. Two engravings. Patents for Protecting the Dead. Electric Light Patents. A New Platen Gauge. Four engravings. New Draughting Pencil. Two engravings. Gas and Water-tight Cloth. New Regulator for Clock Pendulums. Two engs. Steam Engine Governor. One engraving. Description of Recent Most Important Miscellaneous Inventions. Notices of New Inventions. Patent Office Library.

II.—MECHANICS AND ENGINEERING.

Chard's Lubricene and Cups. The Electric Light and the Gas Companies. Fuel Gas. New Ways to Use Iron Wanted. Progress and Prospects of the East River Bridge. Two engravings. A Steam Tricycle. New Artesian Well, Victoria, Spain. A Long Train. How a Good House Should be Built. Jetties Under Water. How the Capitol at Albany, N. Y., is to be Warmed and Ventilated. What a Perfect Railway Brake Should do. The Secret of It. Florida Ship Canal. The Torpedo Vessel Destroyer. One illustration. Steam from Petroleum. The Motion of a Wagon Wheel. Building in Steel. Locomotive for the Metropolitan Elevated Railway. One illustration. The French Dam Below Pittsburg, Ohio. The Adelphi Explosion. "Forney" Locomotive for the New York Elevated Railway. One large engraving. The Steam Value of Oil Fuels. The Mechanical and other Properties of Iron and Mild Steel. French Wheelbarrows. Twenty-five engravings. Small Steamboats. Life Preservers. A Gas Clock. Another Mountain Railway. Preservation of Iron. The Salisbury Furnace for Petroleum. Danger from Lubricating Oils. The Testing of Boiler Iron. Tramway Rail Experiments. Two engravings. Aluminum and Platinum in the Manufacture of Watches. Great Machine Tool Makers. Gas as a Substitute for Solid Fuel.

III.—MINING AND METALLURGY.

The Formation of Quartz. Depth of Nevada Gold and Silver Mines. California Mining vs. Farming. New Form of Iron Manufacture. Comstock Silver Lodes.

IV.—CHEMISTRY AND PHYSICS.

Dangers from Impure Potassium Iodide. The Poplar as a Lightning Conductor. The Mariner's Compass.

Crude Sulphur from Iron Pyrites. Antimony for Batteries. Delicate Test for Water. The Polarization of Electrodes. Fragarine. Balata Gum. Astronomical Notes. Giving the Positions, Rising, and Setting of the Planets for November. Professor Morton on the Electric Light. The Electrical Department in the Mechanic's Fair, Boston. The Satellites of Mars. Gold Amalgams. Another New Electric Light. Albumen of the Serum and that of Egg, and their Combinations. A Mirror Telegraph. Some Modifications of the Microphone and Telephone. Four engravings. A Chance for Electric Competition. Advantages of Experimental Study. The Black Spot on a Lamp. The Electric Light. With five engravings. Spontaneous Combustion. Recent Military Balloon Experiments. Burner for Electric Light. One engraving. Artificial Ball Lightning. One engraving. To Make Corks Air-tight and Water-tight. Electric Time Service for New York. Four engravings. The Hosmer Motor. Polarized Light. Phosphorescent Timepieces. The De Meritens Magneto-electric Machine. Two figures. Cellulose as a Material for Washers. V.—NATURAL HISTORY, NATURE, MAN, ETC. The Golden Cup Oak. Serpulas, or Sea Worms. One engraving. The King Tody Bird. One engraving. Life Without Air. Cadaver-poison of the Australian Natives. The Contortion of Rocks from Heat Mechanically Generated. The Stiffening of Plant Stalks. Immense Labor Performed by Bees. The Torrey Botanical Club. The Big Trees of California. Explorations in Greenland. The Umbrella Bird. One engraving. The Argan Tree. A Spruce-destroying Beetle. A Geological Discovery in Deep Water. The Mound Builder's Unit of Measure. Progress of Horticulture. Bishop Ferrette on the Cedars of Lebanon. Special Senses in Insects. Natural History Notes. New Cave Discovery in Kentucky. Longevity of the Horse. Left-handedness. Bee Culture in Egypt. The Poison Ivy and Virginia Creeper. Two engravings. The Crafty Hermit Crab. One illustration.

VI.—MEDICINE AND HYGIENE.

Nitrate of Amyl in Sea Sickness. Milk cure for Lead Colic. Milkweed Juice for Raw Surfaces. The Use of Snails in Medicine. The Art of Prolonging Life. The Deleterious Use of Alum in Bread and Baking Powders.—Alum being substituted for Cream of Tartar. The Treatment of Hydrophobia. New Use for Warts. Removal of the Entire Scalp by Machinery. The Probable Starting Point of the Yellow Fever. Pledgity. Scientific Reliance on Soap. The Medical Ice Hat. Ventilation of Bed Rooms. The Filtration of Drinking Water. The Texas "Screw Worm."

VII.—THE PARIS EXHIBITION, SCIENTIFIC MEETINGS, ETC.

Success of American Exhibitors at Paris. The Main Building at the Exhibition. With one full page illustration. The French Industrial Exhibition of 1878. Awards and Honors at Paris. Ingram Rotary Press. One illustration. A Grand World's Fair in New York. A Mexican Exhibition. Australia to have a World's Fair. Closing of the French Exhibition. Hydraulic Motors at the Exhibition. With two engravings. The National Academy of Sciences. The Official Reports of the Paris Exhibition. American Society of Civil Engineers.

VIII.—INDUSTRY AND COMMERCE.

Should the Nation Engage in Manufactures? American Export of Agricultural Machinery. Corundum. American Made Goods Exhibited as European Manufactures. The California Tea Fields. An Odd Craft. Progress of our Foreign Trade. The Condition of Manufacturing Interests in Germany. Labor in Chicago. Apples for Europe. Adulterated Graham Flour. Addition to our List of Food Fishes. Preservation of Milk. Electrical Test for Oils. Parsnips. Russian Pottery. Two engravings. Notes from the South.—Facts about the Cotton Worm. The Mediterranean Trade. American Competition in Great Britain. Rapid Increase in French Woolen Industries. The Rockport Granite Quarries. Trade Mark Treaty with Brazil. Early Manufacture of Steel Pens. New and Stale Bread. Leather from Sheep Stomachs. New Source of Rubber. A National Law Governing Adulteration Needed. How to get P re Teas. Skilled Labor in New York City. French Subsoil and Clearing Plow. One figure. Opening for Trade in Madagascar. Handling Grain in Buffalo. The Blue Process of Copying Tracings. We Buy of them that Advertise. Unprofitable Agents. Various Uses of Paper. Improved Grinding Mill and Crusher. Two engravings. The Cultivation of the Common Nettle. The Economic Products of Seaweed. The Japanese Wax Tree in California. Preservation of Food by Gelatin. Pearl Millet. To Turn Oak Black. Dairy and Poultry Produce in America. Australian Gum Trees. Frauds in Wine Making. Removal of Iron Coloring from Liqueurs. The Utilization of Iron Slag. Relative Cost of Coal Transportation by Water and by Rail. How to get Rid of Ants. The Science of Milling.

IX.—PRACTICAL RECIPES AND MISCELLANEOUS.

Progress in England and America. An Improvement on Tea Chromos. A Correction. The Stability of Modern Civilization.

Future Rifle Shooting. "Bruce," the Manchester Fire Horse. The Trial of the "Pyx." Early Gold Payments. Workingmen in England and France. Washington Memorials in Northamptonshire. Three engravings. Culinary Uses of Leaves. A Remarkable Bank Robbery.—Scientific Safeguards Neglected. Cleopatra's Needle. A Steam Juryman. Roads in Baden. Indications of Progress. Practical Education in Russia. Table Forks. The Cost of Insecurity. Improved Copying Pencils.

Answers to Correspondents, embodying a large quantity of valuable information, practical recipes, and instructions in various arts. Single numbers of the Scientific American Export Edition, 50 cents. To be had at this office, and at all news stores. Subscriptions, Five Dollars a year; sent postpaid to all parts of the world.

MUNN & CO., PUBLISHERS, 37 PARK ROW, NEW YORK.

To Advertisers: Manufacturers and others who desire to secure foreign trade may have large and handsomely displayed announcements published in this edition at a very moderate cost.

The Scientific American Export Edition has a large guaranteed circulation in all commercial places throughout the world. Regular Files of the Export Edition are also carried on ALL STEAMSHIPS, foreign and coastwise, leaving the port of New York. Address MUNN & CO., 37 Park Row, New York.

STRONG AND CHEAP SPAR BRIDGES. General description, dimensions, and particulars, with 2 pages of drawings, covering illustrations of all the details for a bridge of 100 feet span or less; specially useful for crossing of creeks, small rivers, gullies, or wherever a costly structure is not desirable. The drawings are from the Spar Bridge exhibited at the Centennial, in the U. S. Department of Military Engineering. These bridges are wholly composed of undressed stuff. SUPPLEMENT 71. Price 10 cents.

FIREPROOF DWELLINGS OF CHEAP CONSTRUCTION. A valuable and important paper, containing Plans and Descriptions of Model Fireproof Dwellings of cheap construction lately erected in Chicago. By A. J. Smith, Architect. With 9 illustrations. Plan No. 1 exhibits the construction of comfortable one-story, 16 ft. front dwellings, of brick and concrete, finished complete at a cost of \$1,300. Plan No. 2 exhibits the construction of a comfortable 2 1/2 ft. front, two-story dwelling, of brick and concrete, finished complete, with cellar, for \$1,700. Several of these dwellings, on both plans, have been built at the prices stated. This valuable paper also contains the Report of the City Authorities of Chicago, certifying to the fireproof nature of these buildings, with other useful particulars. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 91. Price 10 cts. To be had at this office and of all newsdealers.

OUTWARD MARKS OF A GOOD COW. By Capt. JOHN C. MORRIS, Pa. Carelessness in Breeding. How to Select for Breeding. Marks of the Handsome Cow. Care and Training of the Heifer. Infallible Marks of Good Milkers. Distinguishing Marks and Characteristics of the "Bastard" and the "Rogus" Cow, etc. Contained, with useful Remarks on Bee Culture, in SCIENTIFIC AMERICAN SUPPLEMENT No. 135. Price 10 cents. To be had at this office and of all newsdealers.

ON CHRONIC MALARIAL POISONING. By ALFRED L. LOOMIS, M.D. A Highly Instructive Clinical Lecture, delivered at the University Medical College, N. Y. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 101. Price 10 cents. To be had at this office and of all newsdealers.

ICE-HOUSE AND COLD ROOM.—BY R. G. HATFIELD. With directions for construction. Four engravings. SUPPLEMENT No. 59. Price, 10 cents.

THE Scientific American. The Most Popular Scientific Paper in the World. THIRTY-THIRD YEAR.

Only \$3.20 a Year including Postage. Weekly. 52 Numbers a Year.

This widely circulated and splendidly illustrated paper is published weekly. Every number contains sixteen pages of useful information, and a large number of original engravings of new inventions and discoveries, representing Engineering Works, Steam Machinery, New Inventions, Novelties in Mechanics, Manufactures, Chemistry, Electricity, Telegraphy, Photography, Architecture, Agriculture, Horticulture, Natural History, etc. All Classes of Readers find in THE SCIENTIFIC AMERICAN a popular resume of the best scientific information of the day; and it is the aim of the publishers to present it in an attractive form, avoiding as much as possible abstruse terms. To every intelligent mind, this journal affords a constant supply of instructive reading. It is promotive of knowledge and progress in every community where it circulates.

Terms of Subscription.—One copy of THE SCIENTIFIC AMERICAN will be sent for one year—52 numbers—postage prepaid, to any subscriber in the United States or Canada, on receipt of three dollars and twenty cents by the publishers; six months, \$1.60; three months, \$1.00.

Clubs.—One extra copy of THE SCIENTIFIC AMERICAN will be supplied gratis for every club of five subscribers at \$3.20 each; additional copies at same proportionate rate. Postage prepaid.

One copy of THE SCIENTIFIC AMERICAN and one copy of THE SCIENTIFIC AMERICAN SUPPLEMENT will be sent for one year, postage prepaid, to any subscriber in the United States or Canada, on receipt of seven dollars by the publishers.

The safest way to remit is by Postal Order, Draft, or Express. Money carefully placed inside of envelopes, securely sealed, and correctly addressed, seldom goes astray, but is at the sender's risk. Address all letters and make all orders, drafts, etc., payable to

MUNN & CO., 37 Park Row, New York.

To Foreign Subscribers.—Under the facilities of the Postal Union, the SCIENTIFIC AMERICAN is now sent by post direct from New York, with regularity, to subscribers in Great Britain, India, Australia, and all other British colonies; to France, Austria, Belgium, Germany, Russia, and all other European States; Japan, Brazil, Mexico, and all States of Central and South America. Terms, when sent to foreign countries, Canada excepted, \$4, gold, for SCIENTIFIC AMERICAN, 1 year; \$9, gold, for both SCIENTIFIC AMERICAN and SUPPLEMENT for 1 year. This includes postage, which we pay. Remit by postal order or draft to order of Munn & Co., 37 Park Row, New York.

NEW PATENT LAW FOR Spain, Cuba, Porto Rico, etc.

By the terms of the New Patent Law of Spain, which has lately gone into operation, the citizens of the United States may obtain Spanish Patents on very favorable conditions.

The Spanish Patent covers SPAIN, and all the Spanish Colonies, including CUBA, Porto Rico, the Philippine Islands, etc. Total cost of obtaining the Patent, \$3.00. Duration of the Patent, 20 years, 10 years, and 5 years, as follows:

The Spanish Patent, if applied for by the original inventor before his American patent is actually issued, will run for 20 years. Total cost of the patent, \$100. It covers Spain, Cuba, etc. The Spanish Patent, if applied for by the original inventor not more than two years after the American patent has been issued, will run for 10 years. Total cost of patent, \$100. Covers Spain, Cuba, etc.

A Spanish Patent of Introduction, good for 5 years, can be taken by any person, whether inventor or merely introducer. Cost of such patent, \$100. Covers Spain, Cuba, and all the Spanish dominions.

In order to facilitate the transaction of our business in obtaining Spanish Patents, we have established a special agency at No. 4 Soldado, Madrid.

Further particulars, with Synopsis of Foreign Patents, Costs, etc., furnished gratis. MUNN & CO., Solicitors of American and Foreign Patents, Proprietors of the SCIENTIFIC AMERICAN, 37 PARK ROW, NEW YORK.

WATER SUPPLY FOR TOWNS AND Villages.—By Clarence Delafeld, C.E. A concise and valuable report, showing the costs and merits of the various systems—Discussion of the Holly system, its merits and defects—The reservoir system, with pumps, cost, and advantages—Results obtained and economy of use of various systems in different towns, with names and duty realized—Facts and figures to enable town committees to judge for themselves as to the system best suited for their wants—The best sources of water supply—Water-bearing rocks—Artesian wells, their feasibility, excellence, and cost of boring—Importance of pure water—How surface water is rendered impure—Cost of water pipes, from 2 to 12 inches diameter, for towns, including laying, all labor, materials, gates, joints, etc. Estimates of income, water-rates for supply of 1,000 buildings. Contained in SUPPLEMENT 27. Price 10 cents.

ICE BOATS—THEIR CONSTRUCTION and management. With working drawings, details, and directions in full. Four engravings, showing mode of construction. Views of the two latest ice-sailing boats used on the Hudson river in winter. By H. A. Horsfall, M.E. SUPPLEMENT 1. The same number also contains the rules and regulations for the formation of ice-boat clubs, the sailing and management of ice-boats, etc. Price 10 cents.

ICE AND ICE-HOUSES—HOW TO MAKE ice ponds; amount of ice required, etc., and full directions for building ice-house, with illustrated plan. SUPPLEMENT 55. Price 10 cents.

CAVEATS, COPYRIGHTS, TRADE MARKS, ETC.

Messrs. Munn & Co., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had OVER THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Trade Marks, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

Foreign Patents.—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly to his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents.—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1. When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, N. Y. BRANCH OFFICE—Corner of F and 7th Streets, Washington, D. C.
