Advertisements.

Inside Page, each insertion --- 75 cents a line.
Back Page, each insertion --- \$1.00 a line.
 (About eight words to a line.)

Engravings may head advertisements at the same rate per line, by measurement, as the letter press. Advertisements must be received at publication office as early as Thursday morning to appear in next issue.

A Rare Opportunity, on Easy Terms.
 To be sold at Auction, at Charleston, South Carolina, on Tuesday, the first day of April, 1879, the Taylor Iron Works, complete and in operation, together with all stores, stock, and work on hand on day of sale. The above is a large, first-class engineering establishment, complete with itself for all kinds of work, comprising iron and brass foundries, boiler shop, machine shops, pattern and millwright shops, with a large stock of patterns for local machinery, and Taylor presses. Connected with the works is a large, well-stocked engine and mill supply store. All departments have the best of modern tools in thorough repair. Buildings comprise a large, airy and convenient arrangement on large grounds. The business was established 1844; has always done a large business and maintained a high reputation. The present works, built since 1866, have ample facilities to work 200 men. At present about 100 men are employed. For further particulars apply to the works or to JOHN F. TAYLOR, Sharon Springs, N. Y., who will meet parties at Albany, N. Y., by appointment, or New York, if preferred.

SAM'L FRENCH & SON, 38 East 4th St., Union Square, New York. Catalogues sent FREE!!!

50 Latest Style CARDS. Bouquet, Lawn, Floral, etc., in case, none in gold, 10c. SEAVY BROS., Northford, Ct.

RARE OPPORTUNITY.
 The proprietor, advanced in years and desirous of retiring from active control of business, would sell at a bargain, or convert into a joint stock company and retain an interest himself, a Foundry and Machine Shops with all their machinery and fixtures complete, and now crowded with custom work, having cost upwards of sixty thousand dollars and the one of magnitude for 1200 miles on the Mississippi River, on various points of which may be seen specimens of work of these shops at Stillwater, Winona, McGregor, Dubuque, Fulton, Lyons, Clinton, Muscatine, and on many of the boats. For particulars, address the proprietor at Clinton, Iowa. A. P. HOSFORD.

FOR SALE—GEAR CUTTER.
 Been in use only eighteen months; will cut gears both Spur-Bevel-Miter and Spiral, from four feet to one inch in diameter. Is complete with counter-shaft and several cutters. Machine made by Pond, of Worcester. Index made by Browne & Sharpe. Cost \$900. Will sell for \$250. Address J. G. STONE, 126 Main Street, Cincinnati, O.

THE TRIUMPH NON-CONDUCTOR
 weighs but 1 1/2 lbs. to the square foot, and saves daily four pounds of coal. (Asbestos saves but 2 lbs.) Price 15 cts.—5 cts. cash and 10 cts. after satisfactory trial. Agents wanted. For circulars showing why fuel is wasted and how 25 to 50 per cent. can be saved; also how to construct reduction works for mineral ores of half the present weight and cost, to do three times the work with the fuel now used, and save 88 per cent. of assay; also, the opinions of distinguished engineers, address B. F. SMITH, New Orleans, La.

 Edited by **PARK BENJAMIN, Ph.D.**
 This valuable work is now being published in semi-monthly parts, at fifty cents each. Active agents wanted. For terms and territory address GEO. W. DAVIS, care of D. APPLETON & CO., New York.

CAVEATS, COPYRIGHTS, TRADE MARKS, ETC.
 Messrs. Munn & Co., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.
 In this line of business they have had OVER THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Registrations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.
 We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Trade Marks, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.
Foreign Patents.—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly to his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.
Copies of Patents.—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.
 Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.
 A copy of the claims of any patent issued since 1836 will be furnished for \$1.
 When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.
 A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.
 Address **MUNN & CO.,**
 Publishers SCIENTIFIC AMERICAN,
 37 Park Row, New York.
