IIIII TT MRODCHI BEAMS & GIRDERS

THE UNION IRON MILLS. Pittsburgh, Pa., Manufacturers of improved wrought iron Beams and Girders (patented).

The areat fall which has taken place in the prices of Iron, and especially in Beams used in the construction of FIRE PROOF BUILDINGS, induces not call the special attention of Engineers, Architects, and Builders to the undoubted advantages of flow erecting Fire Proof structures; and by reference to pages \$2 & \$6\$ of our Book of Sections which will be sent on application to those contemplating the creation of fire proof buildings—THE COST CAN HE ACQUIRATELY CALCULATELY, the cost of Insurance avoided, and the serious losses and interruption to business caused by fire these and like considerations fully justify any additional first cost. It is believed, that, were owners fully aware of the small difference which now exists between the use of Wood and Iron, in many cases the latter would be adopted. We shall be pleased to furnish estimates to rail the Beams complete, for any specific structure, so that the difference in cost may at once be ascertained. Address complete, for any specific structure. Address in cost may at once be ascertained. Address CARNEGIE, BROS. & CO., Pittaburgh, Pa.

COPYRIGHTS, TRADE MARKS, EIC.

Mesars. Munn & Co., in connection with the publication of the Scientific American, continue to examine Improvements, and to act as Solicitors of Patents for

In this line of business they have had over THIETY YEARS' EXPERIENCE, and now have unequated facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messre. Munn & Co. also attend to the preparation of Caveaus, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about l'atents and how to procure them; directions concerning Trade Marks, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

Foreign Patents .- We also send, free of charge, a Synopsis of Foreign l'atent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will seenre to an inventor the exclusive monopoly to his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communicat on are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents.-Persons desiring any patent is ued from 1836 to November 26, 1867, can be supplied official cop pending upon the extent of drawings and length of specifications

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1886 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents tent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.
