

Advertisements.

Home Page, each insertion --- 75 cents a line. Back Page, each insertion --- \$1.00 a line. (About eight words to a line.) Engravings may be had at the same rate per line, by measurement, as the letter press. Advertisements must be received at publication office as early as Thursday morning to appear in next issue.

THE 1879 Pennsylvania Lawn Mower.

This machine embraces all the advantages of a light and durable Lawn Mower. Points of superiority claimed: Lightness combined with strength in construction; easiness of adjustment; easiness in securing and adjusting the handle; the least liability to obstruction from clogging, either in short or (for a lawn mower) high grass; lightness or easiness of running whilst being worked; its attractive appearance. Every machine warranted. Address

AIDS TO DRAWING.—A VALUABLE paper containing: (1) Engravings and Descriptions of the Construction and Use of the PANTAGRAPH, for Accurately and Quickly Copying Drawings, Photographs, Maps, Diagrams, etc., making the Copies larger or smaller or of the same size of the original. Any intelligent person may construct and use the Pantagraph by following the directions here given. (2) Also, Drawings and description for the Construction of the CAMERA LUCIDA, a simple and valuable little instrument for making drawings direct from the object, and in Copying, Enlarging, or Diminishing Drawings, Photographs, etc. (3) Also, Drawings and description of the CAMERA OSCURA, a simple, effective, and cheaply made little instrument, by which Landscapes, Dwellings, and other objects may be easily drawn by any person with accuracy, although unskilled in drawing. (4) Also, THE SKETCHING FRAME, with drawings and descriptions for Construction and Use. A handy contrivance for ladies and others for assistance in outdoor drawing, portraiture, etc. (5) Also, THE REFLECTING DRAWING BOARD. A simple device in which the reflection from a pane of glass is made to throw down upon paper an image of the drawing to be copied; all the operator has to do being to draw the outline before him. (6) Also, THE TRANSPARENT DRAWING TABLE, showing how to construct a drawing board in which the light is thrown under and upward through the drawing, thus greatly facilitating the making of copies of any drawing. (7) Also, THE PROPORTIONAL DIVIDERS; being a simple instrument for enlarging or reducing drawings from one scale to another with Accuracy and Rapidity. (8) Also, THE PERSPECTIVE RULER. A simple device for the Correct and Rapid Drawing of the Perspective lines in Drawing. The construction of all these various instruments is illustrated with engravings, and accompanied by plain, simple directions to enable any person at a small cost, to make and use them. This is the most valuable paper of the kind ever published. The whole contained in SUPPLEMENT 158. Price 10 cents.

This lumber, 1-1/2 to 3/4 inch thick, cut and seasoned by our recently patented machines, equal if not superior to the sawed and planed wood, being smooth, flat, and in all cases perfectly seasoned. Used by the largest manufacturers in the country, and giving entire satisfaction. In addition to our specialty, our usual complete stock of sawed Hardwood, Lumber, and Veneers, figured and plain, Burlis, etc. GEO. W. READ & CO., 186 to 200 Lewis Street, New York.

RARE OPPORTUNITY.

The proprietor, advanced in years and desirous of retiring from active control of business, would sell at a bargain, or convert into a joint stock company and retain an interest himself, a Foundry and Machine Shops, with all their machinery and fixtures complete, and now crowded with custom work, having cost upwards of sixty thousand dollars, and the only ones of magnitude for 120 miles on the Mississippi River, on various points of which may be seen specimens of work of these shops at Stillwater, Winona, McGregor, Dubuque, Fulton, Lyons, Clinton, Muscatine, and on many of the boats. For particulars, address the proprietor at Clinton, Iowa. A. P. HOSFORD.

The J. L. Mott Iron Works, 88 and 90 BEEKMAN ST., Manufacturers of DEMAREST'S PATENT WATER CLOSETS. Simple in construction, perfect in operation, thoroughly excluding all sewer gas, and cleanly in every way.

MACHINISTS' TOOLS. NEW AND IMPROVED PATTERNS. Send for new illustrated catalogue. Lathes, Planers, Drills, &c. NEW HAVEN MANUFACTURING CO., New Haven, Conn.

HOW TO REMOVE STAINS AND Spots from Linen, Cotton, Woolens, and Silk. Being a table of Specific Directions, showing how to proceed in removing from each of the above kinds of goods any stains of the following character, to wit: Stains of Sugar, Glue, Blood, Albumen, Grease, Varnish, Oil, Paints, Staining, Vegetable Colors, Red Wine, Fruit Stains, Red Ink, Marine Ink, Iron Rust, Ink made with Gall, Lime, Lye, Alkali Stains, Tanning, Green Nut Stains, Coal Tar Stains, Wagon Grease, Acid Stains, etc. By means of this valuable table of directions any person, by providing himself with a few simple chemicals, and using them as directed, may readily clean any species of the above goods, and if necessary, set up a cleaning shop. This is one of the most convenient and valuable papers on the subject ever published. Contained in SUPPLEMENT 158. Price 10 cents.

WROUGHT IRON BEAMS & GIRDERS

THE UNION IRON MILLS, Pittsburgh, Pa., Manufacturers of improved wrought iron Beams and Girders (patented). The great fall which has taken place in the prices of iron, and especially in Beams used in the construction of FIRE PROOF BUILDINGS, induces us to call the special attention of Engineers, Architects, and Builders to the undoubted advantages of now erecting Fire Proof structures; and by reference to pages 52 & 54 of our Book of Sections—which will be sent on application to those contemplating the erection of fire proof buildings—THE COST CAN BE ACCURATELY CALCULATED, the cost avoided, and the serious losses and interruption to business caused by fire; these and like considerations fully justify any additional first cost. It is believed, that were owners fully aware of the small difference which now exists between the use of Wood and Iron, in many cases the latter would be adopted. We shall be pleased to furnish estimates of the Beams complete, for any specific structure, so that the difference in cost may at once be ascertained. Address CAR EGIE, BROS. & CO., Pittsburgh, Pa.

WARRANTED THE BEST. 1 H. P. Boiler & Engine, \$150. 2 H. P., \$175. 3 h. P., \$200. Tested to 200 lbs. Steam. LOVEGROVE & CO., 152 N. 3d St., Philadelphia, Pa., Builders of Engines and Boilers, 1 to 100 horse power. Send for circulars and prices, and state size and style you want.

PATENTS CAVEATS, COPYRIGHTS, TRADE MARKS, ETC.

Messrs. Munn & Co., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had OVER THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Trade Marks Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

Foreign Patents.—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly to his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents.—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications. Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1. When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, New York. BRANCH OFFICE—Corner of F and 7th Streets, Washington, D. C.

THE "Scientific American" is printed with CHAS. TENEVJOHNSON & CO.'S INK, Tenth and Lombard Sts., Philadelphia, and 59 Gold St., New York.
