

Advertisements.

Inside Page, each insertion --- 75 cents a line. Back Page, each insertion --- \$1.00 a line. (About eight words to a line.)

Engravings may head advertisements at the same rate per line, by measurement, as the letter press. Advertisements must be received at publication office as early as Thursday morning to appear in next issue.

"This Work is Very Reliable, and is Strongly Recommended by this Paper. It is undoubtedly the cheapest work of the kind ever published. It contains more than 700 large pages of closely arranged matter. The author and compiler has covered very extensive ground, and the recipes and instructions are carried down to the latest date. The WELL KNOWN REPUTATION OF THE AUTHOR IS A SUFFICIENT GUARANTEE OF ITS VALUE."—SCIENTIFIC AMERICAN, Sept. 23, 1878, page 208.

ALLENS USEFUL COMPANION ARTIFICERS ASSISTANT LIGHT FOR ALL NATIONS

Work of great value to Inventors, Model Makers, Machinists, Mechanics, Artisans, Apprentices, etc. PERFECT GUIDE in all branches of Mechanical Industry. CONTAINS MORE THAN 700 LARGE PAGES, HUNDREDS OF ILLUSTRATIONS AND DIAGRAMS, THOUSANDS OF VALUABLE FORMULAS, RECIPES, TRADE SECRETS, TABLES, MATHEMATICAL CALCULATIONS, ETC., embracing the MOST RELIABLE COLLECTION ever published, very many of which have been obtained with difficulty and at great expense.

Fine English Cloth Binding, Gilt Back and Side. \$2.50 Fine English Leather Binding, Library Edition. 3.00 By mail, postpaid, to any part of the world on receipt of the price. Working Models And Experimental Machinery, Metal or Wood, made to order by J. F. WERNER, 62 Centre St., N. Y. ESTABLISHED 1844. JOSEPH C. TODD, ENGINEER and MACHINIST. Flax, Hemp, Jute, Rope, Oakum and Bagging Machinery, Steam Engines, Boilers, etc. I also manufacture Baxter's New Portable Engine of 1877. Can be seen in operation at my store. A one horse-power portable engine, complete, \$125; two horse-power, \$225; two and a half horse-power, \$250; three horse-power, \$275. Manufactured exclusively by J. C. TODD, 10 Barclay St., New York, or Paterson, N. J.

YALE VERTICAL MILL Iron Frame; French Burr; Self-oiling; Self-feeding; Long Bearings; Adjustable-balanced; best arranged, made and finished, cheaply, and for quality and quantity ground unsurpassed in the world. Also the Yale Vertical and Horizontal Steam Engines and Boilers. Send for Circular. YALE IRON WORKS, New Haven, Conn.

DAMPER REGULATORS BEST AND WEIGHTED GAUGE COCKS. MURRILL & KEIZER, 44 HOLLIDAY ST., BALTIMORE.

WIRE ROPE Address JOHN A. ROEBLING'S SONS, Manufacturers, Trenton, N. J., or 117 Liberty Street, New York. Wheels and Rope for conveying power long distances. Send for circular. FOR SALE CHEAP. A very handsome Westley Richards Breech-Loading Shot Gun. Weight, 8 lbs. 6 ozs.; 10 gauge; central fire; Brazier locks. A first-class gun in every respect, and but slightly used. A gun suitable for general shooting. Address HODGKINS & HAIGH, 298 Broadway, New York.

BORING & TURNING MILLS. All Sizes: 4, 5, 6, 8, 10, and 12 feet Swings. PATENTED IMPROVEMENTS. New Patterns. MACHINISTS' TOOLS, the Latest and Best, at very moderate prices. Iron Working Machinery. THE NILES TOOL WORKS, HAMILTON, O.: The Boring and Turning Mill, 10-ft. swing, you made for us, is doing nobly. In the construction of the engines for the Pittsburgh Water Works we have tested it through a great range of work, and it has in every instance exceeded our best-formed expectation of its capabilities. We have cut off the sinking heads, and bored, faced, and turned the Valve Chambers, weighing about 12 tons each—which work it would be almost impossible to do in a lathe, owing to the difficulty of securing them to the face-plate by the narrow ganges. These we clucked and held with perfect ease and little labor. We have also turned, scraped, and polished all over cylinder heads. The Crossheads of wrought iron were bored and turned, also the Piston Heads, the holes being a perfect taper. We have had occasion to finish Valve-seats at the bottom of a chamber 36 inches deep; the tool-bars, even at this extreme reach, performed with perfect steadiness. We may also state that we bored and turned a pulley 10 ft. diameter, 18 in. face, and hole 6 1/2 in., in fifteen hours—this time includes putting it on and taking it off the machine. We ordinarily required four days to the same work on our lathes. It is unnecessary to further enumerate what we have done. Enough has been said to show that these tools have a very wide scope of usefulness. [Signed] A. HARTUPEE & CO. PITTSBURGH, PENN., August 3, 1876.

MARVIN'S FIRE & BURGLAR SAFES COUNTER PLATFORM WAGON & TRACK SCALES MARVIN SAFE & SCALE CO. 265 BROADWAY, N. Y.

THE TANITE CO., STROUDSBURG, PA. EMERY WHEELS AND GRINDERS. GEO. P. ACE, 121 Chambers St., New York Agent.

ROCK DRILLING MACHINES AND AIR COMPRESSORS. MANUFACTURED BY BURLEIGH ROCK DRILL CO FITCHBURG MASS. SEND FOR PAMPHLET.

TO ADVERTISERS! We all order for the insertion of advertisements in the newspapers of the United States and Dominion of Canada. To furnish advertisers with reliable information concerning newspapers and their rates, and thus enable the most inexperienced to select intelligently the mediums best adapted to any particular purpose, WE ISSUE SEMI-ANNUAL EDITIONS OF AYER & SON'S MANUAL FOR ADVERTISERS. 164 8vo pp. Gives the names, circulation, and advertising rates of several thousand newspapers in the United States and Canada, and contains more information of value to an advertiser than can be found in any other publication. All lists carefully revised in each edition and where practicable prices reduced. The special offers are numerous and unusually advantageous. It will pay you to examine it before spending any money in newspaper advertising. The last edition will be sent postpaid to any address on receipt of 25 cents by N. V. AYER & SON, ADVERTISING AGENTS, Times Building, Philadelphia.

ICE AT \$1.00 PER TON. The PICTET ARTIFICIAL ICE CO., LIMITED, Room 51, Coal and Iron Exchange, P. O. Box 3083, N. Y. ALCOTT LATHES, for Broom, Rake and Hoe Handles. S. C. HILLS, 78 Chambers St. N. Y.

PATENTS

CAVEATS, COPYRIGHTS, TRADE MARKS, ETC. Messrs. Munn & Co., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had OVER THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about Patents: and how to procure them; directions concerning Trade Marks, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Rights on the Sale of Patents, etc.

Foreign Patents.—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly to his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents.—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., Publishers SCIENTIFIC AMERICAN, 37 Park Row, New York. BRANCH OFFICE—Corner of F and 7th Streets, Washington, D. C.
