FARM LAW. BY HON. EDMUND H. BENNETT. This paper, which was read by the author before the State Board of Agriculture of Massachusetts, is full of important information regarding points of law not generally known, and with which not only farmers but every person in business should be a quainted. It tells how to buy a farm or other property, how the deed should be drawn, what constitutes farm boundaries, what a deed of a farm or property legally includes, what irights the owner has in the roadway, what the law is in regard to fences, the law as concerns the impounding of cattle, the farmer's liability for trespasses of his animals, the question of liability for trespasses of his animals, the question of liability for the farm or property, the law in regard to water-rights and drainage, what constitutes trespassing on the farm or property, the law in regard to the ownership of fruit hanging over the boundary line between two properties, or over roass. About Hiring Hdp —what the laborer is entitled to if no bargel is in use expires, etc.; laws on the subject. The Employer's Liability for his Mem-Illustrated by examples and with the logal aspects of each. About Fires The liability of a hunter who fires a farmer's woods; the right of the farmer to burn brush, and how far he is responsible if fire is communicated to his neighbor's premises; how far he is liable to his neighbor for damages arising from fires communicated to his neighbor's premises; how far he is liable to his neighbor for damages arising from fires communicated by locomotives. Ways Over the Farm-Various examples of right of way, and the laws on the subject. Warranty of Seeds—The two phases of the question that are of special interest to farmers and others, and their legal aspect. By making himself thoroughly familiar with the various lawpoints, which are carefully and fully considered in this paper, all farmers and property-owners will be prepared to save himself thousands of collars in the way of lawyers' fees and the expenses that often follow hitgati FARM LAW. WM. D. ANDREWS & BRO., 235 BROADWAY, NEW YORK.

CAVEA'IS, COPYRIGHTS, TRADE MARKS, ETC.

Messrs, Munn & Co., in connection with the publication of the Scientific American, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had OVER THIRTY YEARS' EXPERIENCE, and now have unequaled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate

terms.

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Trade Marks, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of l'atents, etc.

Foreign Patents .- We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the natentee in this country is worth equally as much in England and some other foreign countries. Five patents-embracing Canadian, English, German, French, and Belgian-will secure to an inventor the exclusive monopoly to his discovery among about ONE HUNDRED AND FIFTY MELIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents.—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.

Address MUNN & CO., 37 Park Row, New York.
