Engravings may head advertisements at the same rate per line, by measurement, as the letter press. THE GREAT SUCCESS Which has attended the sales of SCRIBNER'S MONTHLY and ST. NICHOLAS during the past year authorizes the publishers in making broader plans for the future. The regular edition of SCRIBNER'S MONTHLY has steadily increased from month to month, until it now averages about 100,000 copies, an increase of twenty thousand within the year.

ST. NICHOLAS, "THE WORLD'S CHILD-MAGAZINE," has also attained the great popularity it deserves. John G. Whittier wrote of it: "It is little to say of this magazine that it is the best child's periodical in the world." And the universal opinion is the same, not only in America, but in England, where it has been received with the highest praise. The London Daily News "wishes it could point out its equal in English periodical literature," and the Spectator has called it "the best of all children's magazines." In Paris, Monsieur Delagrave is to issue a monthly adaptation of ST. NICHOLAS in French, and a volume made up from ST. NICHOLAS is to be translated into Arabic for the delight of Moslem children.

BUY THE NOVEMBER NUMBERS of both these magazines; they begin new volumes and are of wonderful beauty and excellence. Each has two frontispieces, and is permanently enlarged—ST. NICHOLAS is printed on heavier paper, with broader margins, and contains over sixty illustrations, and about thirty stories and poems.

A NEW AMERICAN NOVEL of Creole Life, by George W. Cable, author of "Old Creole Days," begins in SCRIBNER'S; "Confidence," by Henry James, Jr., is continued, and in addition to articles on art, short stories, etc., there are six papers of special interest to farmers, on "The Agricultural Distress in Great Britain;" "Small Fruits," by E. P. Roe; "Lawn-Trees," by Samuel Parsons, etc., etc.

"THE REIGN OF PETER THE GREAT," by EUGENE SCHUYLER, is noted editorially. This splendid series of ILLUSTRATED HISTORICAL PAPERS, the greatest work of the sort yet undertaken by any popular magazine, will begin in the January issue and will continue for two years. The November numbers have been delayed on account of the enlargement and increased editions. They may now be had of dealers, or will be sent by the publishers on receipt of price. Note that these numbers begin the volumes of each magazine. SCRIBNER'S, \$4.00 a year; 35 cents a number. ST. NICHOLAS, \$3.00 a year; 25 cents a number. SCRIBNER & CO., New York.

PATENTS CAVEATS, COPYRIGHTS, TRADE MARKS, ETC.

Messrs. Munn & Co., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had OVER THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Trade Mark Regulations, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Trade Marks, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

Foreign Patents.—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly to his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents.—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1. When ordering copies, please remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.
