Valuable Iron Property in Kentucky FOR SALE.

The two Iron Furnaces, with about 9,000 acres of land attached, formerly the property of the Belmont and Nelson Iron Company, are offered for sale. One of these Furnaces, and lands belonging, is situated in Bullett County, Ky., on the line of the Louisville and Nashville Railroad, about 20 miles from Louisville. There is 4,500 acres of land attached, with abundance of wood for coaling. A Creek furnishing a plentiful supply of water, within 100 feet of the boiler house. A large barn for stock, buildings for workmen, a good family residence, etc., etc., and an abundant supply of kidney ore convenient to the furnace. Near the furnace, and on the grounds belonging, is a sawmill and a large and substantial brick store house. The other furnace tract, containing about the same quantity of land, is in Nelson County, Kentucky, about 45 miles from Louisville, immediately on the Lebanon Branch of the Louisville and Nashville Railroad. Plenty of ore convenient, wood for coaling, store house, blacksmith shop, dwellings for workmen, etc., etc. Title to both indisputable. For a further information, address

PATENTS
CAVEATS, COPYRIGHTS, LABEL REGISTRATION, ETC.
 Messrs. Munn & Co., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had OVER THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the Preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Registration of Labels, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

Foreign Patents.—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly by his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents.—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.
