Advertisements.
 Inside Page, each insertion --- 75 cents a line.
 Back Page, each insertion --- \$1.00 a line.
 (About eight words to a line.)
 Engravings may head advertisements at the same rate per line, by measurement, as the letter press. Advertisements must be received at publication office as early as Thursday morning to appear in next issue.
 The publishers of this paper guarantee to advertisers a circulation of not less than 50,000 copies every weekly issue.

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should search the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled "THE SCIENCE OF LIFE; OR, SELF-PRESERVATION." Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained. Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only \$1. sent by mail prepaid. "The London Lancet" says: "No person should be without this valuable book. The author is a noble benefactor." An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to JOS. S. FISHER, president; W. P. INGRAM, vice-president; W. P. BANE, M.D.; C. E. GAGNET, M.D.; H. J. DOUGLET, M.D.; R. H. KLINE, M.D.; J. R. HOLCOMBE, M.D.; N. H. LYNCH, M.D.; and M. R. O'CONNELL, M.D., faculty of the Philadelphia University of Medicine and Surgery; also the faculty of the American University of Philadelphia; also Hon. J. A. BISSILLI, M.D., president of the National Medical Association. Address Dr. W. H. PARKER, No. 1 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience.

HEAL THYSELF.

To Business Men.

The value of the SCIENTIFIC AMERICAN as an advertising medium cannot be overestimated. Its circulation is ten times greater than that of any similar journal now published. It goes into all the States and Territories, and is read in all the principal libraries and reading rooms of the world. A business man wants something more than to see his advertisement in a printed newspaper. He wants circulation. If it is worth 25 cents per line to advertise in a paper of three thousand circulation, it is worth \$4 per line to advertise in one of forty-eight thousand.
 The circulation of the SCIENTIFIC AMERICAN is guaranteed to exceed FIFTY THOUSAND every week.
 For advertising rates see top of first column of this page, or address

Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 210. Price 10 cents. To be had at this office and from all newsdealers.

PATENTS

CAVEATS, COPYRIGHTS, LABEL REGISTRATION, ETC.

Messrs. Munn & Co., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.
 In this line of business they have had OVER THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the Preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Registration of Labels, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business entrusted to them is done with special care and promptness, on very moderate terms.
 We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.
Foreign Patents.—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly by his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.
Copies of Patents.—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.
 Any patent issued since November 27, 1867, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.
 A copy of the claims of any patent issued since 1836 will be furnished for \$1.
 When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.
 A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.
