Answers to Correspondents, embodying a large quantity of valuable information, practical recipes, and instructions in various arts.

Single numbers of the *Scientific American Export Edition*, 50 cents. To be had at this office and at all news stores. Subscriptions, *Five Dollars a Year*; sent postpaid to all parts of the world.

MUNN & CO., PUBLISHERS,  
37 PARK ROW, NEW YORK.

To Advertisers: Manufacturers and others who desire to secure foreign trade may have large and handsomely displayed announcements published in this edition at a very moderate cost.

The *Scientific American Export Edition* has a large guaranteed circulation in all commercial places throughout the world. Regular Files of the *Export Edition* are also carried on ALL STEAMSHIPS, foreign and coastwise, leaving the port of New York. Address MUNN & CO., 37 Park Row, New York.

## Advertisements.

Inside Page, each insertion --- 75 cents a line.  
Back Page, each insertion --- \$1.00 a line.  
(About eight words to a line.)

Engravings may head advertisements at the same rate per line, by measurement, as the letter press. Advertisements must be received at publication offices as early as Thursday morning to appear in next issue.

The publishers of this paper guarantee to advertisers a circulation of not less than 50,000 copies every weekly issue.

## A RARE OPPORTUNITY

Is offered an energetic man of experience in all the details of the stove foundry business and capable of conducting same, and having capital to take an interest in a long established concern, whose leading specialties have an extended reputation and sale throughout the country. The desire of senior partners to retire from active business only cause of change, the remaining partner to retain at least half interest in the concern. Address "B. C." Manufacturer, Box 773, New York City.

Congress suspenders. New principle. Will suit you. Keep posted. Cir. sent. N. H. Baldwin, Laconia, N. H.

**SHORTHAND Without a Teacher.** Smith's Stenography, easiest and best out for Ministers, Lawyers, Children, Schools, and Reporters. Illustrated Circulars, with specimens and testimonials from those using the system, etc., free. Send address on postal to J. B. & E. G. SMITH, Amherst, Mass.

**LIGHT DRAUGHT, FAST, STERN** Wheel, Steam Yachts. These yachts are 34 feet long, 8 feet 2 inches beam; draught, 30 inches; speed, 7 miles an hour. Designed under direction of Col. J. W. Farquhar, U. S. A., by M. Meigs, U. S. Civil Engineer, U. S. Works, Rock Island, Ill. With working drawings, dimensions, and particulars of vessel, engine, boiler, and wheel, furnished by the author. The serviceable character of these boats, their simplicity of construction, roominess, and light draught render them very desirable, especially for shallow waters. Contained in SCIENTIFIC AMERICAN SUPPLEMENT No. 179. Price 10 cents. To be had at this office and of all news-dealers.

**SPARE THE CROTON AND SAVE THE COST.**  
**Driven or Tube Wells**  
furnished to large consumers of Croton and Ridgewood Water. W. M. D. ANDREWS & BRO., 235 Broadway, N. Y., who control the patent for Green's American Driven Well.

## To Business Men.

The value of the *SCIENTIFIC AMERICAN* as an advertising medium cannot be overestimated. Its circulation is ten times greater than that of any similar journal now published. It goes into all the States and Territories, and is read in all the principal libraries and reading rooms of the world. A business man wants something more than to see his advertisement in a printed newspaper. He wants circulation. If it is worth 25 cents per line to advertise in a paper of three thousand circulation, it is worth \$4 per line to advertise in one of forty-eight thousand.

The circulation of the *SCIENTIFIC AMERICAN* is guaranteed to exceed FIFTY THOUSAND every week.  
For advertising rates see top of first column of this page, or address

MUNN & CO., Publishers,  
37 Park Row, New York.

Part 3.—Magic Lanterns.  
Part 4.—Philosophical Apparatus.

## PATENTS

**CAVEATS, COPYRIGHTS, LABEL REGISTRATION, ETC.**

Messrs. Munn & Co., in connection with the publication of the *SCIENTIFIC AMERICAN*, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had OVER THIRTY YEARS' EXPERIENCE, and now have unequalled facilities for the Preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Registration of Labels, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business entrusted to them is done with special care and promptness, on very moderate terms.

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

**Foreign Patents.**—We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian—will secure to an inventor the exclusive monopoly to his discovery among about ONE HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

**Copies of Patents.**—Persons desiring any patent issued from 1836 to November 26, 1867, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since September 11, 1866, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.
