50 Perfumed Cards, best assortment ever offered, 10c. Agts. Outfit, 10c. CONN. CARD Co., Northford, Ct.

To Business Men.

The value of the Scientific American as an advertising medium cannot be overestimated. Its circulation is ten times greater than that of any similar journal now published. It goes into all the States and Territories, and is read in all the principal libraries and reading rooms of the world. A business man wants something more than to see his advertisement in a printed newspaper. He wants circulation. If it is worth 25 cents per line to advertise in a paper of three thousand circulation, it is worth \$4 per line to advertise in one of forty-

eight thousand.

The circulation of the SCIENTIFIC AMERICAN is guar anteed to exceed ELETY THOUSAND energy week.

For advertising rates see top of first column of this page, or address

MUNN & CO., Publishers, 37 Park Row, New York.

COMPARATIVE VALUE OF GAS AND COMPARATIVE VALUE OF GAS AND COAL.—By Geo. S. Dwight. An interesting paper, giving some curious speculations about the wastes of coal due to the extravagant methods now in vogue in all civilized centers in obtaining the thermal effects of this fuel; showing how a reformation of so glaring an evil may be effected, and how the losses may be reduced; and pointing out the advantages to be derived from the use of water-gas, which the author believes is destined to become the "fuel of the future." Contained in SCIENTIFIC AMERICAN SUPPLEMENT, NO. 216. Price 10 cents. To be had at this office and from all newsdealers. The same number contains a valuable article on the "Heating Power of Coal Gas," by Dr. Wm. Wallace.

It Takes Like Wildfire!

Ladies' Favorite Washing Machine PRICE ONLY 60 CENTS.

PRICE ONLY 60 CENTS.

This Machine is entirely new, having just been introduced, but so well has it already taken, that it bids fair it supersede the use of all others. Its points of superierity over all other machines now in use, are: its Simplicity; its Cempactness; its Durability and Strength; the ease with which it may be used, and the good work it can accomplish, and the extremely low price at which it is seld. Made of hard wood, and substantially put tegether, it is emphatically the Washing Machine for the million, as its law price will bring it within the reach of 21. With it one per son can do mer ewek than two can with any other, and with less exertise, bricken and blastere reach of 21. With it one per son can do mer ewek than two can with any other, and with less exertise, bricken and sand blastered in any other, and any last of the work of the can work it with ease exertise, bricken and sand blastered in any those and any lasty or child can work it with ease, without infury to the most edicate hands. We are now sending out hundreds of these Machines daily, and are censtantly receiving expressions of satisfaction from all sides. Reader, send for one; it easts but arrifle, and will pay for itself twice over in a menth's time. We will send The Laddies' Favorite Wisshing Machine, securely packed in a streng box, to any address in the United States, all charges prepaid, for only 60 cents, pestage stamps taken, or two Machines to one address (er \$1.00. Who ever heard of such a conce and escage the rush. We expect te sellid,0000 of these Machines in a menth. All orders prempty filled in turn. Agents wanted corrywhere—Circular and Terms Free. Send direct to the Manufacturer's Agents, 2000 RE &WILSON, 245 Breadway, New York.

CAVEATS, COPYRIGHTS, LABEL REGISTRATION, ETC.

Messrs. Munn & Co., in connection with the publication of the Scientific American, continue to examine Imprevements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had over thirty YEARS' EXPERIENCE, and now have unequaled facilities for the Preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Registration of Labels, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate

We send free of charge, on application, a pamphlet containing further information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Mints on the Sale of Patents, etc.

Foreign Patents.-We also send, free of charge, & Synopsis of Foreign l'atent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five paterts—embracing Canadian, English. German, French, and Belgian-will secure to an inventor the exclusive monopoly to his discovery among about ONE BUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Cana-

Copies of Patents.-Persons desiring any patent 36 to November 26, 1867, can with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since September 11, 1866, at which time the l'atent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above, and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents cent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful hand book of reference for everybody. Price 25 cents, mailed free.
