A SIMPLE PANTOGRAPH.—DESCRIPtion and figure of a cheap form of pantograph, note-worthy on account of its compact form and its simplici-ty. As the instrument is capable of describing a circle of four feet radius, drawings of considerable size can be reduced by it. Contained in Scientific American Supplement, No. 242. Price 10 cents. To be had at this office and from all newsdealers.

FRE BRICK THE AND CLAY RETORTS ALL SHAPES. BORGNER & O'BRIEN 23 20 ST. ABOVE RACE. PHILADELPHIA.

HISTORY AND PARTICULARS OF DR. Tanner's Recent 40-day Fast.—By P. H. Vander Weyde M.D. Dr. Vander Weyde was one of the scientific experts and watchers who attended throughout the fast, and made the chemical and microscopical examinations of the excretions and blood of the patient. The present interesting and valuable paper contains an account of the origin of the trial, and the condition and changes noted in the patient from day to day. The paper is accompanied with a table of Physiological Observations showing the alteration in Dr. Tanner's weight, at successive periods during the fast, his pulse, temperature, respiration, quantity of water taken and voided, quantities of urea and phosphates, engraving of the remarkable changes in the form of the patient's blood corpuscles, as seen in the microscope, with many other valuable particulars. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 244. Price 10 cents. To be had at this office and from all newsdealers.

MUSTACHE AND WHISKERS.

WANTED.—A FIRST-CLASS ROLLING Mill Engineer, to take charge of Rolling Mill Engines. Steam Hammers, Boilers, and Machine Shop. Only a thoroughly practical, energetic, and steady man, with satisfactory references, need apply. Work steady and salary good. CANTON STEEL WORKS, Canton, Ohio

By order of the Commission.

Illustrated Catalogue, 150 pp. and Lecture, 10 cents.

THEO. J. HARBACH, 809 Filbert St., Phila., Pa.

INFLUENCE OF PISTON SPEED ON the Frictional and Air Resistances of an Unloaded Steam Engine and its Connected Lines of Shafting in a Factory or Machine Shop.—By Chief-Engineer Isherwood, U.S. N. Experiments made by the author to learn the power consumed in overcoming the friction of an unloaded engine, and in overcoming the resistance of the unloaded numerous and long lines of shafting with their drums and belts. With tables showing (1) the resistance of the engine per se, at the experimental speeds of piston: the main belt being removed from the main drum and the engine worked unloaded. (2) The combined resistance of the machine shop lines of shafting and of the engine, per se, at different speeds of piston. (3) The corrected results of the experiments for ascertaining the separate resistances of the engine per se, and of the machine shop lines of shafting per se, at different speeds of piston. (4) The horse power expended in overcoming the resistance of the engine per se, and of the machine shop lines of shafting per se, and of the shafting per se, at the different experimental speeds of the piston and for the corrected steam pressures on it. Contained in INFLUENCE OF PISTON SPEED ON the corrected steam pressures on it. Containe 8 I'NTIFIC AMERICAN SUPPLEMENT, NO. 238. I 0 cents. To be had at this office and from all a cealers.

CAVEATS, COPYRIGHTS, LABEL REGISTRATION, ECC.

Messrs. Munn & Co., in connection with the publication of the Scientific American, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had over thirty YEARS' EXPERIENCE, and now have unequaled facilities for the Preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Registration of Labels, Copyrights for Books, Labels, Reissues. Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very moderate terms

We send, free of charge, on application, a vamphlet containing further information about Patents, and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

Foreign Patents.-We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee, in this country is worth equally as much in England and some other foreign countries. Five patents-embracing Canadian, English, German, French, and Belgian-will secure to an inventor the exclusive monopoly to his discovery among about one HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents .- Persons desiring any patent issued from 1836 to November 20, 1866, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 20, 1866, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1.

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above. and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents, sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful handbook of, reference for everybody. Price 25 cents, mailed free.
