The standard gallon of the United States contains 231 cubic inches. H. W. Johns' Asbestos Liquid Paints are sold by this measure, and, although they command a higher price than any others, they are more economical owing to their wonderful covering qualities and supe rior durability. They are strictly pure linseed oil paints of a higher grade than have ever before been offered to the public, and are in use upon the finest and most extensive structures in this country, among others the United States Capitol at Washington, the Metropolitan Elevated Railroad of New York, etc. Samples of 1 twenty-eight newest shades for dwellings sentfree. H. W. Johns M'f'g Co., sole manufacturers, No. 87 Maiden Lane, New York .- Adv.

## Business and Personal.

The Charge for Insertion under this head is One Dollar a line for each insertion ; about eight words to a line. Advertisements must be received at publication office as early as Thursday morning to appear in next issue, IT The publishers of this paper guarantee to advertisers a circulation of not less than 50,000 copies every weekly issue.

Chard's Extra Heavy Machinery Oil. Chard's Anti-Corrosive Cylinder Oil. Chard's Patent Lubricene and Gear Grease

R. J. Chard, Sole Proprietor, 6 Burling Slip, New York

The Tools, Fixtures, and Patterns of the Taunton Foundry and Machine Company for sale, by the George Place Machinery Agency, 121 Chambers St., New York. Steam Yacht Wanted .- Send description, speed, and

lowest cash price, to Lock Drawer C, Meredith, N. H. A. J. Emery, Mechan. Engineer, 7 Cortlandt St., N. Y.

For Sale, on account of increase of power, one 24 x 48 Corliss Engine, with three boilers and equipment com-plete. Now in use, but deliverable in November next. For particulars address Natchez Cotton Mills Company Natchez, Miss

2 Steam Yachts for sale. Geo. F. Shedd.Waltham. Mass Factory for sale or lease. Building 40 x 100 feet; forge shop 30 x 160 feet; 12 lots; steam power. Burr & Co., 212 West St., Brooklyn,

Shafting Straighteners. J. H. Wells, Vineland, N. J. The genuine Asbestos Cement Felting consists of fine long asbestos fibers and a cementing compound, which forms a light, porous, fireproof covering, partaking of the nature of a felt and a cement. It is prepared ready for use, can be easily applied by unskilled workmen, and forms the most effective, durable, and economical nonconducting covering in use for steam pipes, boilers, and other heated surfaces. H. W. Johns Manuf. Co., 87 Maiden Lane, New York, sole manufacturers.

Wanted-A Second-hand Engine Lathe, back gear, screw cutting, in good order. Address, giving description and price, Glass Works, Poughkeepsie, N. Y.

Improved Rock Drills and Air Compressors. Illus trated catalogues and information gladly furnished Address Ingersoll Rock Drill Co., 1½ Park Place, N. Y.

Collection of Ornaments.-A book containing over 1,000 different designs, such as crests, coats of arms ettes, scrolls, corners, borders, etc., sent on rec of \$2. Palm & Fechteler, 403 Broadway, New York city.

The Eureka Mowing Machine now is acknowledged as the best in the market. It has taken the first premium in nearly every State Fair this year. Pri times. Send for illustrated circular to Eureka Mower Company, Towanda, Pa.

The Boomer & Boschert Press Co. have in daily operation, at the Am. Inst. Fair, a complete cider mill and cider jelly manufactory. New York Office, 15 Park Row

Packing once tried always used. Phœnix Packing from 1-16 up in spools or on coils. Phoenix Packing Company, 108 Liberty St., N. Y.

#### NEW BOOKS AND PUBLICATIONS.

THE VICTORIA REVIEW. Published at Melbourne, Australia, by the Victoria Review Publishing Company, and edited by H. Mortimer Franklyn, Ésq.

office from any country. The Victoria Review is published monthly, and its contributors are among the most able and profound writers of the day. The July num ber, just received, contains papersfromseveral eminent writers, and to better convey an idea of the nature of the publication we append a list of the writers and the subjects of their several contributions in the July issue: Lewes' History of Philosophy, by C. Hamilton Bromby Tasmania); Nineteenth Century England, by the Rev. W. H. Fitchett: A Few Words about Béranger, by John F.Perrin (New Zealand); Proportional Representation, by Guido Padelletti (Florence); Modern Biology, by Edward B. Sanger (Adelaide); The Place of Religion in Fictitious Literature, by Miss C. H. Spence (Adelaide); A Venetian Dramatist, by James Smith; Sermons on Genesis by Dr. Bromby, by the Very Rev. the Dean of Melbourne; Goethe's "Faust" and Byron's "Manfred," Castelar (Madrid); A Menacing Comet, by Richard A. this Review more widely circulated than it has heretoon the other side of the globe. We would, therefore, recommend it to the patronage of students and all

tions from Sr. Fernandez on the "Determination of the Length of the Seconds Pendulum in Mexico at 2,283 Meters above the Sea Level ;" Sr. Leal on a "Study of Mortality in the City of Leon de Akiamas;" Sr. Ramirez on the "Mines and Mineral Productions of Guadalcazar in San Luis Potosi ;" Sr. Reyes, "Meteorological Observations ;" and Sr. Arechiga, "Note on the Saltpits of Sayula." In addition to these signatures, there are various notes and translations by the editors, making altogether a collection which well sustains the high standard reached by the preceding volumes. We congratulate the Mexican Society of Geography and Statistics on having so many earnest workers, in its ranks, and wish it every success.

ELEMENTARY TREATISE ON ELECTRIC BAT-TERIES. From the French of Alfred Niaudet. Translated by L. M. Fish-back. New York: John Wiley & Sons. \$2.50.

Telegraphers, and all others who have to do with or desire to study the nature and management of the various types of electric batteries, will find M. Niaudet's book very serviceable. The translator's fitness for his task is generally vouched for by the capable electrician of the Western Union Telegraph Company, Mr. George d'Infreville.

HINTS 'TO CORRESPONDENTS.

No attention will be paid to communications unless accompanied with the full name and address of the writer.

Names and addresses of correspondents will not be given to inquirers. We renew our request that correspondents, in referring

to former answers or articles, will be kind enough to name the date of the paper and the page, or the number of the question.

Correspondents whose inquiries do not appear after lished, they may conclude that, for good reasons, the

Persons desiring special information which is purely of a personal character, and not of general interest, should remit from \$1 to \$5, according to the subject, as we cannot be expected to spend time and labor to obtain such information without remuneration.

Any numbers of the SCIENTIFIC AMERICAN SUPPLEtENT referred to in these columns may be had at this ffice Price 10 cents each.

(1) L. H. C. asks: 1. How many two quart Bunsen cells will be necessary to run a Duboscq's electric light regulator? A. About 50. 2. Is the following a proper formula for the battery fluids: for rous cel-1 gallon water, 1 lb. bichromate of polash, 134 parts sulphuric acid; in outside jar-1 part sulphuric acid to 12 of water (by measurement)? A. Yes.

(2) D. H. F. asks: Will a dynamo-electric nachine produce a continuation of sparks between two or more electrodes in the circuit, or must an induction coil be placed in the circuit? A. An induction coil will be required. 2. What is the best material to make the electrodes of? A. Platinum. 3. Why are the buttons on telegraphic instruments platinum tipped? A. Because it is refractory and unoxidizable. 4. Does not every electro-magnet placed in an electric circuit act as This is one of the best magazines that comes to this so much of a break or resistance coil to the current? A. As so much resistance.

> (3) H. S. writes: I wish to build a cistern to hold twelve thousand gallons. It can't extend over five and a half feet below the surface, on account of the quicksand. What shape and dimensions are required to secure the greatest strength in walls ? How manybrick will it!take to build it? A. A cistern twenty named. The number of bricks cannot be given, without knowing the thickness of the walls, and this will de- $\operatorname{pend}$  somewhat upon the nature of the soil backing the walls.

(4) C. W. H. asks: 1. On what part of the axlc of a buggy wheel is the greatest friction while the vehicle is in forward motion? A. It depends upon the surface over which the wheel is traveling, the size of by R. Colonna-Close; The Affairs of Europe, by Emilio the wheel, and the load. Generally a little forward of the vertical line. You may determine this point in any Proctor; The Decay of Matrimony in Victoria, by the given case by examining an axle long in use, and see editor; The Contemporary Thought of Great Britain, where has been the greatest wear. 2. If a wheel could Europe, and the United States. We would like to see be suddenly freed from its axle while the vehicle was in motion, would the wheel run on with accelerated mofore been in this country, for it merits an extensive sub- tion-in other words, if the speed of the vehicle conscription list, if it is published in a remote English colony tinued the same, could the free wheel pass it? A. No.

(5) G. S. H. writes: 1. I wish to build a small steam yacht; I wish it entirely for speed. The For the best Stave, Barrel, Keg, and Hogshead Ma ested and benefited by receiving the publication regu- boat must be sufficiently large to carry 500 lb., besides

## IOFFICIAL.

### INDEX OF INVENTIONS FOR WHICH

Letters Patent of the United States were Granted in the Week Ending September 21, 1880,

AND EACH BEARING THAT DATE,

['I'hose marked (r) are reissued patents.]

A printed copy of the specification and drawing of any patent in the annexed list, also of any patent issued since 1866, will be furnished from this office for one dollar. In ordering please state the number and date of the patent desired and remit to Munn & Co., 37 Park Row. New York city. We also furnish copies of patents granted prior to 1866; but at increased cost, as the specifications not being printed, must be copied by hand.
