THE MUSICAL MARVELS.

Instrument and Musical Upright Plants and Style and Style Case.

Wonders. THE ORGANINA.

The most wonderful mechanical musical instrument the world has ever seen. It plays every tune that ever was composed, automatical musical instrument the composed of music necessity; a child can operate it; a small linen and paper perforated strip represents the tune and simply turning the handle operates the instrument, which DOES NOT USE PAPER AS A VALVE, but the perforations were to manipulate the automatic fingers which open regular valves with almost the touch and expression of the skilled human hand. The Organia embodies every component part of a regular Cabinet Organ. Bellows, keys, valves, swell, and automatic finger action. In fine black walnut or ebonized cases, girl, and including the strip of the skilled human hand, and including the strip of the skilled human hand, and including the strip of the skilled human hand, and including the skilled human hand, and i

Over.500 of the latest and best popular and sacred airs are ready for the above instruments. A selection of music goes free with each one. Mesers. JOHN CHUKCH & CO. Messrs. Munn & Co., in connection with the publication of the Scientific American, continue to examine Improvements, and to act as Solicitors of Patents for

In this line of business they have had over thirty YEARS' EXPERIENCE, and now have unequaled facilities for the Preparation of Patent Drawings, Specifications, and the Prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Registration of Labels, Copyrights for Books, Labels, Reissues. Assignments, and Reports on Infringements of Patents All business intrusted to them is done with special care and promptness, on very moderate terms

We send, free of charge, on application, a pamphlet containing further information about Patents, and how to procure them; directions concerning Labels; Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

Foreign Patents .- We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the costand method of securing patents in all the principal countries of the world. American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee, in this country is worth equally as much in England and some other foreign countries. Five patents—embracing Canadian, English, German, French, and Belgian-will secure to an inventor the exclusive monopoly to his discovery among about one HUNDRED AND FIFTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. The expense to apply for an English patent is \$75; German, \$100; French, \$100; Belgian, \$100; Canadian, \$50.

Copies of Patents .- Persons desiring any patent issued from 1836 to November 20, 1866, can be supplied with official copies at reasonable cost, the price depending upon the extent of drawings and length of specifications.

Any patent issued since November 20, 1866, at which time the Patent Office commenced printing the drawings and specifications, may be had by remitting to this office \$1

A copy of the claims of any patent issued since 1836 will be furnished for \$1.

When ordering copies, please to remit for the same as above. and state name of patentee, title of invention, and date of patent.

A pamphlet, containing full directions for obtaining United States patents, sent free. A handsomely bound Reference Book, gilt edges, contains 140 pages and many engravings and tables important to every patentee and mechanic, and is a useful handbook of reference for everybody. Price 25 cents, mailed free.
