ELECTRICITY, THE GREAT HEALTH RESTORER.  
THE CONSTANT CURRENT CURE

Is doing more good in the world than all patent medicines combined. It is becoming the much trusted ally of physicians, and cures when all else fails. It is a healthy stimulant for sluggish or inoperative organs. It relieves pain of every kind, and by its far-reaching influence promotes a healthy tendency in any part to which it is applied. It furnishes just what nature requires; that is, an extra supply of energy to throw off disease.

This treatment is not only rational as applied to pain and sickness, but in health it is exceedingly beneficial, as it maintains the tone of the system and enables it to ward off disease.

This powerful yet simple and compact generator must not be confounded with the class of so-called electric appliances which furnish no current as it develops a continuous, mild electric current, capable of passing entirely through the human body, affecting every organ, nerve and tissue.

The current, although so subtle and permeating, is not perceptible to the senses, yet it will operate a galvanometer through a resistance of 5,000 ohms, equal to a telegraph line over 300 miles long.

We can furnish a list of physicians who use and recommend it. We can show testimonials from well

known prominent persons, in all parts of the country, who have been cured of Headaches, Neuralgia, Rheumatism, Pains in the Back, Loin, Limbs, and Kidneys, Female Weakness, Nervousness, Piles, Malarial Aches and Pains, Indigestion, Sleeplessness, Debility, Liver Complaint, and an almost endless list of other diseases and ailments.

The reason of our GREAT SUCCESS is, that our cure supplements nature in its tendency to resist disease. It makes no difference what the disease is, our cure will speedily relieve it. In numberless cases it has cured where it has been pronounced impossible.

ANY ONE CAN APPLY IT.
