## Business and Personal.

The Charge for Insertion under this head is One Dolla a line for each insertion; about eight words to a line. Advertisements must be received at publication office as early as Thursday morning to appear in next issue,

To Users of Steam .- No one using steam can afford loss of fuel and power consequent upon the use of inferior non-conducting steam pipe and boiler coverings. Asbestos has proven the most effective and economical material for the purpose, and is employed in the form of a cement and a fireproof feit for a lining or insulator under hair, felts, etc.

The genuine Asbestos Cement Felting consists of fine

long Asbestos fibers and a cementing compound which forms a light, porous, fireproof covering, partaking of the nature of a felt and a cement. It is prepared ready for use, can be easily applied by unskilled workmen, and forms the most effective, durable, and economical non-conducting covering in use for steam pipes, boilers and other heated surfaces.

The genuine Asbestos Air Chamber Covering consists of an insulating lining or a sheathing made of pure As-bestos, combined with a thick felt or wadding of pure Asbestos, to be applied directly to heated surfaces and covered with one or more layers of hair felt and an outer layer of Asbestos sheathing, thus securing the advantages of hair felt without the liability of its being ignited or charred by fire. The great advantage of the genuine Asbestos coverings for steam pipes, boilers, etc., over any other forms of non-conducting coverings, aside from their economy, superior effectiveness, and fireproof qualities, is that they are manufactured in convenient form ready for use, and can be easily applied without the aid of skilled labor. The H. W. Johns M'f'g Co., 87 Maiden Lane, N. Y., are the sole manufac-

Partner Wanted-With small or large capital. Inclose stamp to Box 36, Kent City, Mich.

For Sale,-1 Engine Lathe, Fitchburg, 714ft. x 15 in.; price, \$50. 1 Iron Planer, planes 7½ ft. x 34 in. x 30in.j price, \$550. Address Concord Axle Co., Fisherville, N. H.

A. C. E., four years on the Midland Railway, England. and ten years constructing and working railways in British India, desires employment. Good draughtsman and surveyor. Address Assoc. M. I. C. E., Mount Athos, Campbell Co., Va.

Wanted-S tuation by a Gold, Silver, and Nickel Plater; 22 years' experience. Address Plater, Oakville, Ct.

Blake's Belt Studs. The strongest fastening for old and new belts. Greene, Tweed & Co., 118 Chambers St., N. Y. Workshop Receipts.—A reliable Handbook for Manu-

facturers and Mechanics. \$2, mail free. Ornamental Penman and Signwriter's Pocketbook of Alphabets. 20 cents. E. & F. N. Spon, 446 Broome St., New York.

For Sale, - Patent on Ice Machines, W. J. Lyons, De-

Presses & Dies (fruit cans) Ayar Mach. Wks., Salem, N.J. Mailed free, Catalogue of Books for Engineers. Theoretical and Practical. E. & F. N. Spon, 446 Broome St.

Latest Improved Diamond Drills. Send for circular to M. C. Bullock, 80 to 88 Market St., Chicago, Ill.

Telegraphic, Electrical, and Telephone Supplies, Telegraph Instruments, Electric Bells, Batteries, Magnets, Wires. Carbons, Zines, and Electrical Materials of every description. Illustrated catalogue and price list, 73 pages, free to any address. J. H. Bunnell & Co., 112

Walrus Leather, Walrus Wheels, Emery, and Glue for Polishers. Greene, Tweed & Co., 118 Chambers St., N.Y. Wood Working Machinery of Improved Design and Workmanship. Cordesman, Egan & Co., Cincinnati, O.

For Sale -- A complete set of Patterns, Flasks, and Core Arbors, for making Cast Iron Flanged Pipe, Elbows, Tees, and Greenhouse Fittings. Will be sold low to clean out a branch of a business. Address C., Box 1358, New York.

Abbe Bolt Forging Machines and Palmer Po ver Ham mers a specialty. S. C. Forsaith & Co., Manchester, N. H. Foot Lathes, Fret Saws, 6c. 90 pp. E. Brown, Lowell, Mass.

"How to Keep Boilers Clean," and other valuable information for steam users and engineers. Book of sixty-four pages, published by Jas. F. Hotchkiss, 84 John St.. New York, mailed free to any address.

Supplement Catalogue.-Persons in pursuit of infor mation on any special engineering, mechanical, or scientific subject, can have catalogue of contents of the Sci-ENTIFIC AMERICAN SUPPLEMENT sent to them free The SUPPLEMENT contains lengthy articles embracing the whole range of engineering, mechanics, and physical science. Address Munn & Co., Publishers, New York,

Punching Presses & Shears for Metal-workers, Power Drill Presses. \$25 upward. Power & Foot Lathes. Prices. Peerless Punch & Shear Co., 115 S. Liberty St., N.Y. Pure Oak Leather Belting. C. W. Arny & Son, Ma-

nufacturers. Philadelphia. Correspondence solicited. The Best constructed low priced Engines are built by E. E. Roberts, 107 Liberty St. New York. Communicate. Split Pulleys at low prices, and of same strength and ppearance as Whole Pulleys. Yocom & Son's Shafting

HINTS TO CORRESPONDENTS.

No attention will be paid to communications unless accompanied with the full name and address of the

Names and addresses of correspondents will not be given to inquirers.

We renew our request that correspondents, in referring to former answers or articles, will be kind enough to name the date of the paper and the page, or the number

Correspondents whose inquiries do not appear after a reasonable time should repeat them. If not then published, they may conclude that, for good reasons, the Editor declines them.

Persons desiring special information which is purely of a personal character, and not of general interest. should remit from \$1 to \$5, according to the subject, as we cannot be expected to spend time and labor to obtain such information without remuneration.

Any numbers of the Scientific American Supple-MENT referred to in these columns may be had at this office. Price 10 cents each.

Correspondents sending samples of minerals, etc., for examination should be careful to distinctly mark or label their specimens so as to avoid error in their identification.

drum beneath the floor. Can I belt to a twelve-inch pulley overhead at right angles to it, both horizontal. and have it work satisfactory? A. Yes.

(2) L. J. K. asks how lacquer is made, applied to brass, etc., so as to produce the smooth and permanent polish seen upon fine electrical and optical instruments. I have often tried various recipes, but have always failed in producing good results. A. For receipts for lacquers, see page 209, vol. xliv. Heat the articles to be lacquered, and lay on a thin even coat of the lacquer quickly. If it is small, so that the lacquer chills it, it is better to lay on a very thin lacquer, expose the piece in a japanner's oven at a moderate temperature until the varnish has dried and fused, and then apply another coat and heat again to produce the requisite gloss and finish.

(3) A. E. B. writes: In tracing out the connections in the switch used with the magneto machine, illustrated on your front page last week, I find that the plate 14 is connected with plate 4. Is this correct? Should not 14 be connected with 13? A. 14 should be connected with 13. The mistake is one easily made by the artist. It was noticed and corrected before the printing of the edition was far advanced.

[OFFICIAL.]

# INDEX OF INVENTIONS

FOR WHICH
Letters Patent of the United States were Granted in the Week Ending November 8, 1881.

AND EACH BEARING THAT DA'TE. [Those marked (r) are reissued patents.]

A printed copy of the specification and drawing of any patent in the annexed list, also of any patent issued since 1866, will be furnished from this office for 25 cents. In ordering please state the number and date of the patent desired and remit to Munn & Co., 37 Park Row New York city. We also furnish copies of patents

granted prior to 1866; but at increased cost, as the speci-

fications not being printed. must be copied by hand

### ALUMINUM GOLD

During the past year, we have had many enquiries for a Stem Winding and Stem Setting Watch, one that could be relied upon, sufficiently at ractive for a gentleman to earry and that we could sell at a price low enough to come within the reach of those whose duties compet them to carry a Correct time-keeper, but we did not admit the most of the state of the country of the state of

going over the whole held of American Manufacture and not finding a watch that would "Fill the Bill" we concluded to look over foreign markets. A member of our firm visited England, France, Germany and Switzerland. In the latter country, he found lust what we wanted a SIEM WINDING WATCH WITH FINE JEWELED NICKEL MOVEMENT, (equal to those put up in Gold Cases and sold in this Country at \$100 and \$150.) By griving a large order, we got the price reduced so that we could use them in our trade. The next step with the price reduced so that we could use them in our trade. The next step of the celebrated metal known as Aliuminum Cold, and interview was betained. Specimens of the metal were exhibited and also numerous articles manufactured therefrom. The Professor also exhibited with much price, we grant prize medals a warded at the International Expositions, held at Paris, for the marvelous resemblance of the metal to gold, and also for its the prize medal in a stream and that a far in a stream and in shed by skilled and also prize medal and that a stream and a str

recommend it to his friends, on receipt of Ten Dollars.

Gents:—The Aluminum Gold Watch I purchased from yourfirm three months ago retains its color as brilliant as when first received. I delayed sending my second order because I wished to test the metal. I can now conscientfously recommend them. I enclose \$10.00 for one more Alumium Geld Watch, same as the first. M.M. Watts. Hawthorn, Fla., Nov. 2d, 1881.

Gents:—The second lot of \$10.00 Aluminum Gold Watches received all right. I enclose Money Order for fiv. S.em Wan Aluminum Gold Watches, and other watches and goods from your Gatagete Forward at ones and gold watches. Stem Wind Watch I purchased from your furn is as good at im-keeper as jeverage in Silver Watch. Kespaci'y C. A. Walker. Eastman, Ga., September 18th, 1881. Gentlemen:-The Aluminum Gold Stem Wind Watch I purchased I enclose \$15.00, for Stem Winding Coin Silver Watch. Kespact'y

ents:—I sold the Aluminum Gold Watch for \$65.00. I enclose the money for another watch. Yours, Respectfully,
T. D. Cooley, Dealer in General Merchandise, Williamstewn, S. C. March 9th,
Send money by Post Office Money Order, or Recistered Letter. We will send the acth C. O. D. if Two Dollars is sen
account, the balance can be paid at the Express Office when the watch is delivered. Let us hear from you with an order.

MALLEABLE AND FINE GRAY TRON ALSO STEEL CASTINGS FROM SPECIAL PATTERNS THOMAS DEVLIN & CO. LEHIGHAVE & AMERICAN ST. PHILA.

# The Popular Science Monthly FOR 1882.

Conducted by E. L. & W. J. YOUMANS.

"The Popular Science Monthly" was established to raise the standard of popular reading in this country. Magazines are more and more taking the place of books, first-class minds are devoting themselves with increasing readiness to the work of popular instruction; and, when their sterling contributions upon the most important subjects could find no place in our widely circulated periodicals, it became necessary to have a magazine that would give expression to advancing scientific thought for the benefit of the more intelligent classes of the community. In the efficient performance of this service, "The Popular Science Monthly" is now generally recognized as without a competitor.

Those who desire to know what is going on in the world of thought in these stirring times, when new knowledge is rapidly extending and old errors are giving way, will find it year by year increasingly necessary to subscribe for "The Popular Science Monthly."

It contains portraits of distinguished men of science, and each number has one or more illustrated articles.

Terms, \$500 per annum, or 50 cents a number.
