*'The Harp that once through Tara's Halls.'*

**THE HARP-ETTE,**  
\$1.50. — OR — \$2.50.  
**AMERICAN ZITHER.**

The Best Low Priced String Instruments in the World. The easiest instrument to learn to play and as sweet and melodious as a fine harp or violin. By means of the instructor, anyone with an ear for music can learn to play several tunes in a few hours.

The Harp-ette is played with the thumb and fingers, same as regular harp. You learn how to play in FIVE MINUTES. It is tuned by pegs and a key, same as a piano, (a key goes free with each one) and is as durable as any which will play any tune splendidly both for solo music and accompaniments to voice, organ or flute. Also good for dance music. You can learn one of the easy waltzes in a few minutes. They are very handsome in appearance, being thoroughly made of hard woods, highly finished, and is an ornament to any room. It is a great favorite with the ladies, and thousands are learning to play it. Price, 10 strings and key, only \$1.50. 16 strings, only \$2.50. Instructor and 14 popular airs, set to music for the Zither, free with each.

N. B.—Do not confound this superior instrument with a cheap imitation, advertised at some of the low prices. Address THE MASSACHUSETTS ORGAN CO., sole manufacturers, 57 Washington Street, Boston, Mass. Sent to any address on receipt of price.

**INDUCED HYSTERICAL SOMNAMBULISM and Catalepsy.** By William J. Morton, M. D. An interesting paper descriptive of several remarkable cases of somnambulism and induced delusions, and catalepsy and aphasia, observed by the author during a morning clinic of Prof. Charcot at the Salpêtrière. Contained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 2561. Price 10 cents. To be had at this office and from all news-dealers.

**ALUMINUM GOLD WATCHES.**

**A \$15 WATCH FOR \$10.**

During the past year, we have had many enquiries for a Stem Winding and Stem Setting Watch, one that could be relied upon, sufficiently at racive for a gentleman to carry and that we could sell at a price low enough to come within the reach of those whose duties compel them to carry a correct time-keeper, but whose circumstances will not admit of their purchasing a high priced watch. After going over the whole field of American Manufacture and not finding a watch that would "Fill the Bill" we concluded to look over foreign markets. A member of our firm visited England, France, Germany and Switzerland. In the latter country, he found just what we wanted, a STEAM WINDING WATCH WITH FINE JEWELLED NICKEL PLATE, (equal to those put up in Gold Cases and sold in this country at \$10 and \$15.) By giving a large order, we got the price reduced so that we could use them in our trade. The next step was to find the right kind of case for the new watch. Armed with a letter of introduction to Professor Lorschfeld (the discoverer and only manufacturer of the celebrated metal known as Aluminum Gold), an interview was had with him and specimens of the metal were exhibited and also numerous articles manufactured therefrom. The Professor also exhibited with much pride, two grand prize medals awarded at the International Expositions, held at Paris, for the marvelous resemblance of the metal to gold, and also for its lasting brilliancy. The interview resulted in our giving an order for cases going over the whole field of American Manufacture and not finding a watch that would "Fill the Bill" and are only equalled by watches costing ten times as much. They are perfect time-keepers and fully guaranteed, and that they are in every respect as represented, the thousands of testimonials received from our customers amply attest. Price of Sample Watch by Registered mail, \$15.00. We will send the above watch to any person who orders with the intention of acting as agent, or who will recommend it to his friends, on receipt of Ten Dollars.

Gents.—The Aluminum Gold Watch I purchased from your firm three months ago retains its color as brilliant as when first received. I delayed sending my second order because I wished to test the metal. I can now conscientiously recommend them. I enclose \$10.00 for one more Aluminum Gold Watch, same as the first. M. M. Watts, Hawthorn, Fla., Nov. 2d, 1881.

Gents.—The second lot of \$10.00 Aluminum Gold Watches received all right. I enclose Money Order for five Stem Wind Aluminum Gold Watches, and other watches and goods from your Catalogue. Forward at once and oblige. George P. Wilson, Grand Forks, Dakota, Oct. 30th, 1881.

Gentlemen.—The Aluminum Gold Stem Wind Watch I purchased from your firm is as good a time-keeper as I ever saw. I enclose \$15.00, for Stem Winding Coin Silver Watch. Respectfully, C. A. Walker, Eastman, Ga., September 26th, 1881.

Send money by Post Office Money Order, or Registered Letter. We will send the watch C. O. D. If Two Dollars in cash on account, the balance can be paid at the Express Office when the watch is delivered. Let us hear from you with an order.

**THOMAS DEVLIN & CO., LEHIGH AVE & AMERICAN ST. PHILA.**

**The Popular Science Monthly**  
FOR 1882.

Conducted by E. L. & W. J. YOUNG.

"The Popular Science Monthly" was established to raise the standard of popular reading in this country. Magazines are more and more taking the place of books; first-class minds are devoting themselves with increasing readiness to the work of popular instruction; and when their sterling contributions upon the most important subjects could find no place in our widely circulated periodicals, it became necessary to have a magazine that would give expression to advancing scientific thought for the benefit of the more intelligent classes of the community. In the efficient performance of this service, "The Popular Science Monthly" is now generally recognized as without a competitor.

Those who desire to know what is going on in the world of thought in these stirring times, when new knowledge is rapidly extending and old errors are giving way, will find it yearly by far increasingly necessary to subscribe for "The Popular Science Monthly."

It contains portraits of distinguished men of science, and each number has one or more illustrated articles. Terms, \$5.00 per annum, or 50 cents a number.

**D. APPLETON & CO., Publishers,**  
1, 3, & 5 BOND STREET, NEW YORK.

165 RACE ST. **JAS. MURDOCH JR.** CINCINNATI, OHIO. **BRASS COPPER AND SILVER.** SEND FOR WIRE ROD SHEET & TUBE IN THE THREE METALS. PRICE LIST.

**PATENTS.**

MESSRS. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had thirty-five years' experience, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very reasonable terms.

A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world.
