PATENTS,

CAVEATS, TRADE MARKS, COPYRIGHTS, ETC.

Messrs. Munn & Co., in connection with the publication of THE SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.

In this line of business they have had over THIRTY-FIVE YEARS' EXPERIENCE, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries.

A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.

We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world.

MUNN & CO., Solicitors of Patents, 37 Park Row, New York.

BRANCH OFFICE—Corner of F and 7th Streets, Washington, D. C.

Can I Obtain a Patent? This is the first inquiry that naturally occurs to every inventor or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us (Munn & Co.), describing the invention, with a small sketch.

What Security Have I that my communications to Munn & Co. will be faithfully guarded and remain confidential? ANSWER. You have none except our well-known integrity in this respect, based upon a most extensive practice of thirty-five years' standing.

For How Long is the Patent Granted? The patent is granted for 17 years, during which time the patentee enjoys the full and exclusive right to make, use, and sell the invention and grant rights, licenses, or privileges.

The Average Time required to procure a patent is six weeks. We frequently get them through in less time, but in other cases, owing to delay on the part of the officials, the period is sometimes extended.

In addition to the above Service, our patron receives, gratis, a notice in THE SCIENTIFIC AMERICAN, descriptive of the merits of the new patent, giving also his name and address.

No Patent Agency in the world does so much for its clients as ours; and for that reason none so fully commands public confidence or enjoys so great a share of patronage.
