PATENTS.
 MESSRS. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine improvements, and to act as Solicitors of Patents for Inventors.
 In this line of business they have had thirty-five years' experience, and now have unequalled facilities for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business entrusted to them is done with special care and promptness, on very reasonable terms.
 A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.
 We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world.

47 Instrumental Gems Almost given away. In order to introduce our publications where they are not known, we will send by reach, prospect, upon receipt of only six three-cent stamps, 47 pieces of our latest and best Music, consisting of Waltzes, Polkas, Galops, Schottisches, Transcriptions, etc., etc. They are elegantly printed, full Music size. The usual price of such music is 25 cents per piece; at that price the above 47 pieces would cost \$17. The high cost of Music is due to the few pieces sold and the large discount made to dealers. This opportunity will not occur again. **M. F. Jones & Co., Box 6300, Boston, Mass.**

Applied to all machinery driven by fly-wheels and liable to be broken by power stored in wheels, such as calender rolls, upsetting machines, presses, and wire drawing machines. We warrant to save gearing and all machinery from breaking by using our clutches. Starts gradual, stops quick. Any amount of power controlled. Friction Hoisting Engines and Drums; also, Safety Elevators. Can be run faster and stop quicker than any other friction.
