RUTGERS COLLEGE.
 [Chartered as "Queen's College" in 1774] New Brunswick, N. J. Four miles from New York on Pa. R. R. Year begins (examinations for admission) Sept. 20, 1882. A thoroughly equipped College. Seventeen successful professors; no inexperienced tutors. Requirements for admission, those of the best New England colleges. Classical course, full and thorough. Honors in the intercollegiate contests. Best methods. Full illustrative collections of coins, photographs, plans, etc. Ample provision for electives, with prescribed work, in Junior and Senior years.
SCIENTIFIC DEPARTMENT.
The New Jersey State College to Promote Agriculture and the Mechanic Arts.
 A practical Scientific School of high grade. Two courses in Engineering and Mechanical Engineering. Agriculture and Chemistry - including in addition to Mathematics, pure and applied, and the Natural Sciences, the careful study of English Literature and Composition, French, German, History, Metaphysics, and Political Economy.
 Thorough work with constant field-practice in Engineering and Surveying. Careful laboratory work in Chemistry, with full apparatus for each student. State Agricultural Experiment Station and College Farm of 100 acres in successful operation under direction of Professor George H. Cook, LL.D., Vice-President, illustrate to students the theory and economic practice of farming.
 Tuition reasonable. Forty State Scholarships free; eight of them now vacant, to be filled before September 30. Full information in catalogue.
 Almost without exception graduates who desired occupation have at once obtained profitable positions in professional scientific work, while others have found their interest in the successful practice of improved and scientific farming. For catalogue, or any information, address Secretary Rutgers College.
MERRILL EDWARDS GATES, Ph.D., LL.D., President.

RUBBER BACK SQUARE PACKING.
BEST IN THE WORLD.
 For Packing the Piston Rods and Valve Stems of Steam Engines and Pumps. B represents that part of the packing which, when in use, is in contact with the Piston Rod. A, the elastic back, which keeps the part B against the rod with sufficient pressure to be steam-tight, and yet creates but little friction. This Packing is made in lengths of about 20 feet, and of all sizes from 1/4 to 2 inches square.
JOHN H. CHEEVER, Treas. NEW YORK BELTING & PACKING CO., 29 Park Row, New York.
SPECIAL NOTICE.-Owing to the recent great fire in the "World" Building, our office has been removed as above.

PATENTS.
MESSRS. MUNN & CO. in connection with the publication of the **SCIENTIFIC AMERICAN**, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.
 In this line of business they have had *thirty-five years' experience*, and now have *unequaled facilities* for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business intrusted to them is done with special care and promptness, on very reasonable terms.
 A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.
 We also send, free of charge, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world.
MUNN & CO., Solicitors of Patents, 261 Broadway, New York.
