SAVE THE FLOORS. NOISELESS RUBBER WHEELS, FOR ALL PURPOSES. GEO. P. CLARK, WINDSOR LOCKS, CT.

\$6 WATCH FREE TO AGENTS FOR SPENCE'S BLUE BOOK, A Perfectly Sedimentless ULTRAMARINE BLUING NOTHING LIKE IT. NOTHING EQUAL TO IT. All bottled or liquid Bluings are bad because of their greenish tint; and all solid or ultramarine Bluings (except Spence's Blue Book) are worse because they are absolutely and wholly insoluble, and hence throw down a sediment which spots, blurs, and muddies the clothes. But SPENCE'S BLUE BOOK makes a bluing which is of that most beautiful of all blue colors, the ultramarine, and is, at the same time, perfectly soluble; hence it does not settle or throw down the least particle of sediment. Nothing more can be desired. It is just simply perfect.
