CUTLER'S POCKET INHALER

AND Carbolate of Iodine INHALANT. A cure for Catarrh, Bronchitis, Asthma, and all diseases of the Throat and Lungs—even Consumption—if taken in season. It will break up a Cold at once. It is the King of Cough Medicines. A few inhalations will cure the most obstinate Croup. It may be carried as handily as a penknife, and is guaranteed to accomplish all that is claimed for it. Dr. George Hadley, late Professor of Chemistry and Pharmacy in the University of Buffalo, N. Y., concludes a carefully-considered report upon the merits of Cutler's Inhaler in these words: "On the whole, this Inhaler seems to me to accomplish its purpose by no means yet by the most simple and effectual means; to be philosophical in conception, and well carried out in the execution."

Patented through the agency of the SCIENTIFIC AMERICAN in 1873, this Inhaler has since had a larger and more extensive sale than any Medical Instrument ever invented. It is approved by physicians of every school and endorsed by the leading medical journals of the world. Over 300,000 in use. Sold by Druggists for \$1.00. By mail, \$1.25. W. H. SMITH & CO. PROP'S, 410 Michigan St., Buffalo, N. Y.
