CUTLER'S POCKET INHALER AND CARBOLATE OF IODINE INHALANT.

A cure for Catarrh, Bronchitis, Asthma, and all diseases of the Throat and Lungs—even Consumption. It will break up Cold and Cough. It is the King of Cough Medicines. A few inhalations will correct the most Offensive Breath. It may be carried as readily as a penknife, and is guaranteed to accomplish all that is claimed for it. As a preventive it is in truth the "magical Amulet" with which one may bid defiance to Cholera, Yellow Fever, and all Miasmatic and Infectious diseases. It has been thoroughly tested in various hospitals and localities infected with Malaria, Small Pox, Diphtheria, etc., and of the great number of persons, including Physicians and Nurses, who used the INHALER as a preventive, not one is known to have been attacked with any of the diseases to which they were exposed. Patented through the agency of the SCIENTIFIC AMERICAN in 1873, this Inhaler has since had a larger and more extensive sale than any Medical Instrument ever invented. It is approved by physicians of every school, and endorsed by the leading medical journals of the world. Over 300,000 in use. Sold by Druggists for \$1.00. By mail, \$1.25. W. H. SMITH & CO., PROP'S, 410 Michigan St., Buffalo, N. Y.

FOREIGN PATENTS. Their Cost Reduced.

The expenses attending the procuring of patents in most foreign countries having been considerably reduced, the obstacle of cost is no longer in the way of a large proportion of our inventors patenting their inventions abroad. CANADA.—The cost of a patent in Canada is even less than the cost of a United States patent, and the former includes the Provinces of Ontario, Quebec, New Brunswick, Nova Scotia, British Columbia, and Manitoba. The number of our patentees who avail themselves of the cheap and easy method now offered for obtaining patents in Canada is very large, and is steadily increasing. ENGLAND.—The new English law, which went into force on Jan. 1st, enables parties to secure patents in Great Britain on very moderate terms. A British patent includes England, Scotland, Wales, Ireland, and the Channel Islands. Great Britain is the acknowledged financial and commercial center of the world, and her goods are sent to every quarter of the globe. A good invention is likely to realize as much for the patentee in England as his United States patent produces for him at home, and the small cost now renders it possible for almost every patentee in this country to secure a patent in Great Britain, where his rights are as well protected as in the United States. OTHER COUNTRIES.—Patents are also obtained on very reasonable terms in France, Belgium, Germany, Austria, Russia, Italy, Spain (the latter includes Cuba and all the other Spanish Colonies), Brazil, British India, Australia, and the other British Colonies. An experience of THIRTY-EIGHT years has enabled the publishers of THE SCIENTIFIC AMERICAN to establish competent and trustworthy agencies in all the principal foreign countries, and it has always been their aim to have the business of their clients promptly and properly done and their interests faithfully guarded. A pamphlet containing a synopsis of the patent laws of all countries, including the cost for each, and other information useful to persons contemplating the procuring of patents abroad, may be had on application to this office. MUNN & CO., Editors and Proprietors of THE SCIENTIFIC AMERICAN, cordially invite all persons desiring any information relative to patents, or the registry of trade-marks, in this country or abroad, to call at their offices, 361 Broadway. Examination of inventions, consultation, and advice free. Inquiries by mail promptly answered. Address: MUNN & CO., Publishers and Patent Solicitors, 361 Broadway, New York. Branch Office, cor. F and 7th Streets, opposite Patent Office, Washington, D. C.
