# HASWELL'S **Engineers**' Pocket-Book.

NEW EDITION,

### **Enlarged and Entirely Rewritten.**

FROM NEW ELECTROTYPE PLATES.

Mechanics' and Engineers' Pocket-Book of 'Tables, Rules and Formulas pertaining to Mechanics, Mathematics, and Physics, including Areas, Squares, Cubes, and Roots, &c., Logarithms, Steam and the Steam-Engine, Naval Architecture, Masonry, Steam Vessels, Mills, &c.; Limes, Mortars, Cements, &c.; Orthography of Technical Words and Terms, &c., &c. Forty-fifth Edition, Revised and Enlarged. By Charles H. Haswell, Civil, Marine, and Mechanical Engineer, Member of American Society of Civil Engineers, Engineers, Club of Philadelphia, N. Y. Academy of Sciences, Institution of Neval Neithbors, Engineers, Continued in Scientific American Supplements of Marine, N. Y. Academy of Sciences, Institution of Neval Neithbors, England for Pages XXX. &c.; Limes, Mortars, Cements, &c.; Orthography of tution of Naval Architects, England, &c. Pages xxx., 902. 12mo, Leather, Pocket-Book Form,

I cannot find words to express my admiration of the skill and industry displayed in producing the same. To you belongs the honor of having presented to the world a book containing more positive information than was ever before published. I could with justice say more. -Extract from a setter to the Author from Capt. J. ERICSSON, the Celebrated Engineer.

It is an extraordinary evidence of the value of a book that it has passed through forty-five editions. This is true of Mr. Charles H. Haswell's pocket volume, which is a wonderfully compacted mass of information, tables, rules, and formulas on all matters pertaining to Mechanics. Mathematics, and Physics, adapted to the wants of engineers, builders, and all practical men.—N.

There are few books better known to mechanics and engineers than "Haswell's Pocket-Book." To all such, in fact, the book is indispensable. It is one of those books whose success has kept pace with it merits.-N. Y. Herald.

The most compact manual of mechanics, mathemat ics, and physics yet published-an invaluable pocket volume for civil, marine, and mechanical engineers.

Chronic and obstinate diseases that HEAL have specialty. Such treated successfully THYSELF without an instance of failure Mention THYSELF this paper.

## FOREIGN PATENTS.

Their Cost Reduced.

The expenses attending the procuring of patents in most foreign countries having been considerably reduced, the obstacle of cost is no longer in the way of a large propor  $^{1,44}\eta$  of our inventors patenting their inventors CANADA -The cost of a patent in Canada is even

less than the cost of a United States patent, and the former includes the Provinces of Ontario, Quebec, New Brunswick, Pova Scotia, British Columbia, and Mani-The number of our patentees who avail themselves of

the cheap and easy method now offered for obtaining patents in Canada is very large, and is steadily increas-

ENGLAND.—The new English law, which went into torce on Jan. 1st. enables parties to secure patents in Great Britain on very moderate terms. A British patent includes England, Scotland, Wales, Ireland, and the Channel Islands. Great Britain is the acknowledged financial and commercial center of the world, and her goods are sent to every quarter of the globe. A good invention is likely to realize as much for the patentee in England as his United States patent produces for him at home, and the small cost now renders it possible ost every patentee in this country to secure a pa tent in Great Britain, where his rights are as well protected as in the United States

OTHER COUNTRIES.—Patents are also obtained on very reasonable terms in France, Belgium, Germany Austria, Russia, Italy, Spain (the latter includes Cube and all the other Spanish Colonies), Brazil, British India Australia, and the other British Colonies

An experience of THIRTY-EIGHT years has enabled the publishers of THE SCIENTIFIC AMERICAN to establish competent and trustworthy agencies in all the principal foreign countries, and it has always been their aim to have the business of their clients promptly and properly done and their interests faithfully guarded.

A pamphlet containing a synopsis of the patent laws of all countries, including the cost for each, and other information useful to persons contemplating the procuring of patents abroad, may be had on application to

this office.

MUNN & CO., Editors and Proprietors of THE SCI-ENTIFIC AMERICAN, cordially invite all persons desiring any information relative to patents, or the registry of trade-marks, in this country or abroad, to call at their offices, 361 Broadway. Examination of inventions, consultation, and advice free. Inquirles by mail promptly
