"THE BATTLE OF BULL RUN"

BY
GEN. G. T. BEAUREGARD,

Graphically illustrated with more than twenty pictures, is a leading feature of the November number of THE CENTURY MAGAZINE. This article is the beginning of a series of separate papers, to appear in THE CENTURY, on the great battles of the War for the Union, written by general officers high in command on both sides, including Generals GRANT, LONGSTREET, McCLELLAN, BEAUREGARD, HILL, POPE, ROSECRANS, Admiral PORTER, and others. The aim is to present interesting personal experiences—the officers' own stories of their plans and operations. The illustrations will be full and accurate; and accompanying papers on "Recollections of a Private," also begun in November, will add value to a series which the conductors of THE CENTURY believe to be the most important ever undertaken by them. The November CENTURY also contains first chapters of a new novel, the story of an American business man, by W. D. Howells; a timely paper on "How Shall we Elect our Presidents?" short stories by "Uncle Remus" and others, and a number of striking illustrations. This issue begins a new volume. Yearly subscriptions, \$4.00; single numbers, 35 cents. All booksellers and newsdealers keep it. THE CENTURY CO., New York, publishers. Ask for the

FOREIGN PATENTS. Their Cost Reduced.

The expenses attending the procuring of patents in most foreign countries having been considerably reduced, the obstacle of cost is no longer in the way of a large proportion of our inventors patenting their inventions abroad.
CANADA.—The cost of a patent in Canada is even less than the cost of a United States patent, and the former includes the Provinces of Ontario, Quebec, New Brunswick, Nova Scotia, British Columbia, and Manitoba.
 The number of our patentees who avail themselves of the cheap and easy method now offered for obtaining patents in Canada is very large, and is steadily increasing.

ENGLAND.—The new English law, which went into force on Jan. 1st, enables parties to secure patents in Great Britain on very moderate terms. A British patent includes England, Scotland, Wales, Ireland, and the Channel Islands. Great Britain is the acknowledged financial and commercial center of the world, and her goods are sent to every quarter of the globe. A good invention is likely to realize as much for the patentee in England as his United States patent produces for him at home, and the small cost now renders it possible for almost every patentee in this country to secure a patent in Great Britain, where his rights are as well protected as in the United States.

OTHER COUNTRIES.—Patents are also obtained on very reasonable terms in France, Belgium, Germany, Austria, Russia, Italy, Spain (the latter includes Cuba and all the other Spanish Colonies), Brazil, British India, Australia, and the other British Colonies.
 An experience of THIRTY-EIGHT years has enabled the publishers of THE SCIENTIFIC AMERICAN to establish competent and trustworthy agencies in all the principal foreign countries, and it has always been their aim to have the business of their clients promptly and properly done and their interests faithfully guarded.

A pamphlet containing a synopsis of the patent laws of all countries, including the cost for each, and other information useful to persons contemplating the procuring of patents abroad, may be had on application to this office.
MUNN & CO., Editors and Proprietors of THE SCIENTIFIC AMERICAN, cordially invite all persons desiring any information relative to patents, or the registry of trade-marks, in this country or abroad, to call at their offices, 361 Broadway. Examination of inventions, consultation, and advice free. Inquiries by mail promptly answered.
 Address, **MUNN & CO.,** Publishers and Patent Solicitors, 361 Broadway, New York.
 Branch Office, cor. F and 7th Streets, opposite Patent Office, Washington, D. C.

PATENTS.

MESSRS. MUNN & CO. in connection with the publication of the SCIENTIFIC AMERICAN, continue to examine Improvements, and to act as Solicitors of Patents for Inventors.
 In this line of business they have had *thirty-eight years' experience*, and now have *unequaled facilities* for the preparation of Patent Drawings, Specifications, and the prosecution of Applications for Patents in the United States, Canada, and Foreign Countries. Messrs. Munn & Co. also attend to the preparation of Caveats, Copyrights for Books, Labels, Reissues, Assignments, and Reports on Infringements of Patents. All business entrusted to them is done with special care and promptness, on very reasonable terms.
 A pamphlet sent free of charge, on application, containing full information about Patents and how to procure them; directions concerning Labels, Copyrights, Designs, Patents, Appeals, Reissues, Infringements, Assignments, Rejected Cases, Hints on the Sale of Patents, etc.
 We also send *free of charge*, a Synopsis of Foreign Patent Laws, showing the cost and method of securing patents in all the principal countries of the world.
