BALDNESS.—BY GEORGE H. ROHE,
M.D. A brief but highly useful paper, showing the
cause of baldness, how Dandruff is produced, why the
hair falls off, with explanations of Kénes's Fronto-
Effetual Remedy and Recipe for the same; together
with Directions and General Advice for Preventing
Baldness, Restoring and Preserving the Hair. This is
one of the most useful, Practical, and Valuable Papers
concerning the Treatment of Baldness ever published.
Contained in SUPPLEMENT 167. Price 10 cents.

The Harden Hand Grenade
Fire Extinguisher.
—Puts Out Fire Instantly.—
See editorial notice of tests in SCIENTIFIC
AMERICAN of July 12, 1884, page 10.
Send for circulars.

H. L. DOOLITTLE, Manager.
New York Office, 95 West Broadway.

APPARATUS FOR ELECTRICAL MEAS-
urements. Illustrations and description of the various
interesting apparatus for measuring electricity that
were shown at the Munich Exhibition, including Wiede-
mann's bilhar galvanometer; Wiedemann's galvanometer
for strong currents; Zeuner's differential photometer;
Van Becz's solarimeter; apparatus for demon-
strating the principle of the Gramme machine; Van
Ryseberghe's thermograph; Van Becz's chro-
nographic and Harshofer's apparatus for studying deep
currents. Illustrated with seventeen engravings. Con-
tained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 421.
Price 10 cents. To be had at this office and from all news-
dealers.

HOWELL'S PATENT
Cut Off,
for turning the water
into or off from the fire-
tern, by merely moving
the lever from one side
to the other. It is made
of tin, and it is light,
cheap, and durable. Con-
tained in SCIENTIFIC AMERICAN SUPPLEMENT, No. 421.
Price 10 cents. To be had at this office and from all news-
dealers.

EXPERIMENTS IN ACOUSTICS.—A
valuable paper containing accounts of an interesting
series of acoustical experiments made by Mr. A. C. Eng-
bert, to show how sound may be propagated and im-
proved by the use of steel plates and wires, and the principle in-
volved in which is believed to be capable of development
as a medium for the improvement of sound in build-
ings not properly planned for that purpose. The system
has the advantage of simplicity and readiness of applica-
tion; it is not cumbersome or unsightly, and need not
interfere with architectural arrangements. Contained in
SCIENTIFIC AMERICAN SUPPLEMENT, No. 421. Price
10 cents. To be had at this office and from all news-
dealers.

Syracuse Malleable Iron Works

PRACTICAL USES OF ELECTRICITY.—
By Prof. Charles A. Young. An interesting essay, in
which the author discusses, in an untechnical man-
ner, the extent and variety of the existing applications
of electricity to the arts of life, and the reasons for ex-
pecting their rapid multiplication in the near future.
The telegraph and telephone. Electric alarms. Trans-
mission of time by electricity. Electricity in the man-
agement of explosives. Electroplying. Dynamo ma-
chines. Electric light. Electro-magnetic engines.
Electric railways. Plowing by electricity. Electric pile
drivers. Electricity in medicine and surgery. Contained
in SCIENTIFIC AMERICAN SUPPLEMENT, No. 425.
Price 10 cents. To be had at this office and from all
newsdealers.

\$5 to \$20 per day at home. Samples worth \$5 free.
Address FRISBON & CO., Portland, Maine.

HIGH RAILWAY SPEEDS.—BY W.
Barnet Le Van. Description of trial trip of the "new
departure" locomotive No. 5000 (made by Burnham,
Parry & Co.) from Philadelphia to Jersey City and re-
turn. Account of speed made between stations going
and coming. Steaming capacity of the new locomotive's
boiler. Water consumed. Best speed made, 8 miles
per hour. Table of speeds in miles per hour of the fast
trains in Europe and America. Contained in SCIENTIFIC
AMERICAN SUPPLEMENT, No. 240. Price 10 cents. To
be had at this office and from all newsdealers.

FOR SALE. Two large compound hoisting ma-
chines, suitable for quarry work,
inclined planes, or other purposes where heavy hoisting
is required. Will be sold cheap, as the space occupied is
required for use. Can be seen at 414 Water Street, City.

PATENTS.

MESSRS. MUNN & CO. in connection with the pub-
lication of the SCIENTIFIC AMERICAN, continue to ex-
amine Inventions, and to act as Solicitors of Patents for
Inventors.

In this line of business they have had *thirty-eight*
years' experience, and now have *unequaled facilities* for
the preparation of Patent Drawings, Specifications, and
the prosecution of Applications for Patents in the
United States, Canada, and Foreign Countries. Messrs.
Munn & Co. also attend to the preparation of Caveats,
Copyrights for Books, Labels, Reissues, Assignments,
and Reports on Infringements of Patents. All business
connected to them is done with special care and prompt-
ness, on very reasonable terms.

A pamphlet sent free of charge, on application, con-
taining full information about Patents and how to pro-
cure them; directions concerning Labels, Copyrights,
Designs, Patents, Appeals, Reissues, Infringements, As-
signments, Rejected Cases, Hints on the Sale of Pa-
tents, etc.

We also send, free of charge, a Synopsis of Foreign
Patent Laws, showing the cost and method of securing
patents in all the principal countries of the world.

The Fourth Annual Fair of the New England Institute
WILL OPEN AT 3 O'CLOCK, P. M.,
WEDNESDAY, SEPTEMBER 3, 1884,
AND WILL CLOSE
SATURDAY, NOVEMBER 1, 1884.
This Exposition will present, in valuable and inter-
esting detail, the progress of Mechanism, Science, and
Art; the various processes of Manufacture in full opera-
tion, demonstrating the value of Yankee skill and
ingenuity; the Agricultural and Mineral wealth of the
South and West; the remarkable resources of Mexico;
the handicraft of women, and the achievements of mas-
ter-mechanics and workmen.
Applications for space will be received until further
notice. Blanks, with full instructions, furnished by
JOHN F. WOOD, Treasurer, 38 HAWLEY STREET,
BOSTON, and at the INSTITUTE FAIR BUILDING, end of
HUNTINGTON AVENUE.

NORDENSKJOLD'S GREENLAND EX-
pedition of 1881.—An interesting resumé of the results
reached by Baron Nordenskjöld during his recent ex-
pedition to Greenland; giving a description of the country
traversed, and of the animals, plants, and minerals that
were found, etc. Illustrated with a sketch map of the
journey. Contained in SCIENTIFIC AMERICAN SUP-
PLEMENT, No. 422. Price 10 cents. To be had at this
office and from all newsdealers.

Publishers SCIENTIFIC AMERICAN.

CLARK'S RUBBER WHEELS
Save the Floors.

ON THE STABILITY OF CERTAIN
Merchant Ships.—Short abstract of a paper on this sub-
ject read by Mr. W. H. White before the Institution of
Naval Architects; followed by a paper by Mr. Hamilton
on Waves Raised by Paddle Steamers and their Posi-
tions Relatively to the Wheels, wherein the author
considers two sources of loss of power in steamers—(1)
the energy absorbed in creating and maintaining waves,
and (2) the effect of this wave formation on wheels.
Illustrated with five figures. Contained in SCIENTIFIC
AMERICAN SUPPLEMENT, No. 283. Price 10 cents. To
be had at this office and from all newsdealers.

WATCHMAKERS.
Before buying, see the Whitcomb Lathes and the Web-
ster Foot Wheel, made by the AMERICAN WATCH
TOOL CO., Waltham, Mass. CATALOGUES FREE.

THE SCIENCE OF LIFE. ONLY IS
BY MAIL POSTPAID.

THE SCIENCE OF LIFE
KNOW THYSELF.
A Great Medical Work on Manhood

Exhausted Vitality, Nervous and Physical Debility, Pre-
mature Decline in Man, Errors of Youth, and the untold
miseries resulting from indiscretion or excesses. A book
for every man, young, middle-aged, and old. It contains
125 prescriptions for all acute and chronic diseases, each
one of which is invaluable. So found by the author, whose
experience for 28 years is such as probably never before
fell to the lot of any physician. 300 pages, bound in beau-
tiful French muslin, embossed covers, full gilt, guaran-
teed to be a finer work in every sense—mechanical, liter-
ary, and professional—than any other work sold in this
country for \$2.50, or the money will be refunded in every
instance. Price only \$1.00 by mail, postpaid. Illustra-
tions, example, 6 cents. Send now. Gold medal awarded.
the author by the National Medical Association, to the
officers of which he refers.

The Science of Life should be read by the young for
instruction and by the afflicted for relief. It will bene-
fit all.—London Lancet.
There is no member of society to whom The Science
of Life will not be useful, whether youth, parent, guar-
dian, instructor, or clergyman.—Aronaut.
Address The Peabody Medical Institute, or Dr. W. H.
Parker, No. 4 Bulfinch Street, Boston, Mass., who may be
consulted on all diseases requiring skill and experi-
ence. Chronic and obstinate diseases that have
baffled the skill of all other physicians, HEAL
a specialty. Such treated successfully. HEAL
without an instance of failure. Mention THYSELF
with this paper.

FOREIGN PATENTS.

Their Cost Reduced.

The expenses attending the procuring of patents in
most foreign countries having been considerably re-
duced, the obstacle of cost is no longer in the way of a
large proportion of our inventors patenting their inven-
tions abroad.

CANADA.—The cost of a patent in Canada is even
less than the cost of a United States patent, and the
former includes the Provinces of Ontario, Quebec, New
Brunswick, Nova Scotia, British Columbia, and Mani-
toba.

The number of our patentees who avail themselves of
the cheap and easy method now offered for obtaining
patents in Canada is very large, and is steadily increas-
ing.

ENGLAND.—The new English law, which went into
force on Jan. 1st, enables parties to secure patents in
Great Britain on very moderate terms. A British pa-
tent includes England, Scotland, Wales, Ireland, and the
Channel Islands. Great Britain is the acknowledged
financial and commercial center of the world, and her
goods are sent to every quarter of the globe. A good
invention is likely to realize as much for the patentee
in England as his United States patent produces for
him at home, and the small cost now renders it possible
for almost every patentee in this country to secure a pa-
tent in Great Britain, where his rights are as well pro-
tected as in the United States.

OTHER COUNTRIES.—Patents are also obtained
on very reasonable terms in France, Belgium, Germany,
Austria, Russia, Italy, Spain (the latter includes Cuba
and all the other Spanish Colonies), Brazil, British India,
Australia, and the other British Colonies.

An experience of THIRTY-EIGHT years has enabled
the publishers of THE SCIENTIFIC AMERICAN to establish
competent and trustworthy agencies in all the principal
foreign countries, and it has always been their aim
to have the business of their clients promptly and prop-
erly done and their interests faithfully guarded.

A pamphlet containing a synopsis of the patent laws
of all countries, including the cost for each, and other
information useful to persons contemplating the pro-
curing of patents abroad, may be had on application to
this office.

MUNN & CO., Editors and Proprietors of THE SCI-
ENTIFIC AMERICAN, cordially invite all persons desiring
any information relative to patents, or the registry of
trade-marks, in this country or abroad, to call at their
offices, 361 Broadway. Examination of inventions, consul-
tation, and advice free. Inquiries by mail promptly
answered.
